Scrofula, or King's Evil, is a constitutional disease, a sourup ion of the blood, by which this fluid becomes vitiated. weak, and poor. Being in the circulation, it pervades the whole hody, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, diseased or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the veneral infection. Whatevar be its origin, it is hereditary in the constitution descending upon passents to a hidease stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the futhers upon

This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cumstes the human family has its origin directly in this acceptions contamination; and many destructive diseases of the liver, kidneys, brain, and indeed, of all the organs, arise from or

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-To elease it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in
