Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the veneral infection. Whatever be its origin, it is hereditary in the constitution, descending affection pages to ability. stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to with-stand the attacks of other diseases; consequently, vast numbers periah by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

one aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is co bined from the most active remedials that have been discovered for the expurgation of this foul system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affec-tions which arise from it, such as Experive and Skin Diseases, St. Anthony's Fire, ROSE, OF ERTSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUNORS, TETTER and SALT REEDW. SCALD HEAD. RINGWORM. RHEUMATISM, SYPHILITIC and MERCURIAL DISmases, Dropsy, Dyspersia, Desility, and, indeed, all Complaints arising grow Vittaindeed, ALL CONFLANTS ARISING FROM VITLA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleaned, and invigorate every portion of the human aganaism, correcting its diseased action, and restoring its healthy stallites. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanae, containing certificates of their cures and directions for their use in the following complaints: Costiones, Ilearthurn, Headache arising from disordered Stomach, Nausca, Indigestion, Passa is mid Morbiel Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundes, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral, FOR THE BAPTO CURE OF

Coughs, Colds, Influenza, Mourseness, Croup, Bronchitis, Incipient Consump-Patients in advanced stages of the disease. So wide is the field of its usefulness and so nu-

So wide is the field of its usefulness and so memorous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When sees tried, its superiority over every other medicine of its kind is too apparent to essense observation, and where its virtues are known, the public no longer hesitate what antidote to supply for the distressing and dangerous affections of the pulmenary organs that are incident to our eliminare. While many inferior remedies thrust upon the community have falled and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced curse to summous and too remarkable to be imported.
