The Mighty Healer! World Known and World Tried.

Holoway's Ointment. THE free admissions of all Nations, as well as the verdict of the leading Hospitals of the Old as well as the New World, stamp this powerful remedial Agent as the greatest healing preparation ever made known to suffering man. Its PENETRATIVE QUALITIES are more than MARYELLOUS, through the external orifices of the skin, invisible to the naked eye, it reaches the seat of the internal disease; and in all external affections its antiinflammatory and healing virtues surpass anything else on record, and is Nature's great ally.

ERYSIPELAS AND SALT RHEUM are two of the most common and virulent dis-orders prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venous and then complete the cure.

BAD LEGS, OLD SORES. AND ULCERS.

-Cases of many years standing that have pertinaciously refused to yield to any other remedy or treatment, have invariably succombed to a few applications of this powerful unguent.
ERUPTIONS ON THE SKIN, arising from had state of the blood or chronic disease are eradicated, and a clear and transparent sur-

face regained by the restorative action of this

Ointment. It surpasses many of the coame-

tics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.
PILES AND FISTULA.—Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolieut: warm fumentations should precede its application. Its healing qualities will be found to be thorough and

invariable. Both the Gintment and Pills should be used in the following cases: Sore Threats. Sures of all kinds, Eprains, Etiff Joints, Rheumatiens, Ringworm, Salt Rheum, Chapped Hands, Chilblains, Fistula, Scalds, Scalds, Skin Diseases, Swelled Glands, Sore Legs, -- was Breasts,

Scrofula or king's Evi be constitutional disease, a surphision of the blood, by which this finid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No cepta is free from its attacks, nor is there one which it may the approximate the various in various. from its attacks, nor is there one which it may not desiroy. The serofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure sir, filth and filthy habits, the depressing view, and, above all, by the veneral infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the injoutites of the fathers more will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or alcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul terruption, which genders in the blood, degrames the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently was the proposed to the diseases. stand the attacks of other diseases; consequently, wast numbers perish by disorders which although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this serofilous contamination; and many destructive diseases of the liver, kidneys, brains, and the serofilous contamination of the serofilous contamination. and, indeed, of all the organs, arise from or

are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences, Lience it should be employed for the curs of not only scrofuls, but also those other affections which arise from it, such as KRUPTIVE and SKIN DISEASES, St. ANTHONE'S FIRE, ROSE, OF ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, THTTER and Salt RHEUM, SCALD HEAD, RINGWORM. RHRUMATISM, SYPHILITIC and MERCURIAL DISindeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR INTURE BLOOD. The popular belief in "impurity of the blood" is founded in trath, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in
