is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, is pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, diseased on unbastley, foul inverse as also ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who save. " I will visit the iniquities of the fathers upon

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. Thus foul corruption, which genders in the blood, depresses e energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to with-stand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, ar as from or are aggravated by the same cause.

Que quarter of all our people are serofulous: their persons are invaded fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise, Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences, Hence it should be employed for the curs of not only scrofula, but also those other affect tions which arise from it, such as Eusprive and Skin Diskases, Sr. Anthony's Pine, ROSE, OF ERTSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and Boils, Tumons, TETTER and SALT RHEUN, SCALD HEAD, RINGWORM, RHEGMATISM, SYPHILITIC and MERCURIAL DIS-BASES, DROPST, DYSPETSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in

Ayer's Cathartic Pills. POR ALL THE PURPOSES OF A FAMILY PHYSIC,

contaminated constitutions.

POR ALL THE PURPOSES OF A FAMILY PURPOSE, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and elesase, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a coincequence of these properties, the invalid who is lowed down with pain or physical debility is antonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below passed is pleased to farnish gratis my American Almanae, containing certificates of their carres and directions for their use in the following complaints. Conficenses, Hearthurn, Headachs arising from disordered Stomuch, Navaca, Indigestims, Pain in mad Macheld Inaction of the Boseds, Flatulency, Loss of Appentit, Jaundice, and after kindred complaints, arising from a low state of the body or obstruction of its functions.
