whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and liss longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of his disordered, there can be no lasting health. Sconer or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregionaly deceived by preparations of it, partly/because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Samaparilla or any thing clse.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsuparilla for one dollar Most of these have been frauds upon the sick, for they not only contain little, if any, Sarrapa-rills, but often no curative properties whatev-er. Hence, litter and painful disappointment has followed the use of the various extracts of Sarsaparilla which fleod the market, until the name itself is justly despised, and has become synonymous with imposition and chest. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the lead of cliquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intend-ed to cure. In order to secure their complete or COAL OIL LAMPS, unrivalled in eradication from the system, the temody should be judiciously taken according to directions on
