HOR OUT YOUR ROW.

One day a lazy farmer's boy Was beeing out the corn, And moodily had listened long To hear the dinner horn. The welcome blast was heard at last. And down he dropped his hoe; But the good man shouted in his ear-

Although a "bard one" was the row, To use a ploughman's phrase, The lad, as callors have it, Beginning well to "buse"---"I can," said be, and manfully

"My buy, hoe out your row!"

He seized again his hoe; And the good man smiled to see The boy boe out his row. The lad the text remembered. And proved the moral well,

That perseverance to the end

At last will pobly tell! Take courage, man i resolve you can, And striken rigorous blow; In life's great field of varied toil Always hoe out your row.

Miscellaneous.

A Great Man.

George Lippard, in his work called the Nazarene, thus speaks of President Jackson: "He was a man! Well I remember the day waited up in him. He sat there in his arm chair-I can see him now. We told him of to live!" the public distrove—the manufacturers ruined—the shrouded eagles in crape, which were carried at the head of 20,000 men into Independence Square. He heard us all .-We begged him to leave the deposits where they were, to uphold the great bank at Philathey were, to uphold the great bank at Phila-delphia. Still he did not any a word. At patching one of his officers, he suddenly last one of our number, more fiery than the started off at a full gallop to the scene of dir-rest, intimated that if the bank was crushed, ficulty. The centre of the field was clear a rebellion might follow. These the old man

arose. I can see him yet.
"Come," he shouled in a voice of thunder, as his clenched band was raised high above his white hair. "Come with bayonets in your hands instead of your petitions—surround the White House with your legions—I

This Beautiful World .- "Ah! this beautiful world! I know not what to think of it! Sometimes it is all sunshine and gladness, and heaven itrelf lies not far off-and then it suddenly changes, and is dark and sorrowful, and the clouds shut out the day. In the lives of the saddest of us there are bright days like thir, when we feel as if we could take the great world in our arms. Then come gloomy hours when the fire will not burn on our hearts, and all within is dismal, cold and dark. Believe me, every heart has its secret sorrows which the world knows not, and often times we call a man cold when he is only sad."-Longfellow.

A Newspaper Editor.—A newspaper editor must, like the poet, be born to his calling, as in the majority of fastances, no amount of training will fit a person for such a post, unless he have a natural taste and antitude for that description of literary labor; for, although many persons are able to write "leaders" or "literary articles," for a newspaper, few can be entrusted with its editorial control, few can scent out the libel which lurks in almost every communication, few can distinguish the report intended to please the speaker instead of informing the nation, and the letters written to serve private interests, instead of public ends; still fewer who can tell at a glance the kind of literary or political material which will promote the circulation of the journal-in fact, a good editor's great difficulty is not as to what he should put in, but what he should keep out of his columns. Successful editors have not been great authors, but men of goodcommon sense. and their good common sense has taught them to write but little themselves, but to read, indge, select, dictate, alter, and combine the writings of others .- Chambers' Journal.

The Widow's Mile .- A poor women in the Western part of the State, some time ago, gave Rev. Ash Bullard half a pint of chestnote for the Massachusetts School Society .-Bullard sold them at nuction at a festival in Winchester for \$5. They were returned to him, and he has continued to sell them over

The Late Dr. Forney.—The Frederick Examiner, referring to the death of Dr. John Z. Forney, in Liberia, says:

A few years ago he was well-known to many in this community, where he leaves some near and dear friends. The deceased led a life of considerable adventure and vicissitude. Once he taught school, as a young man, in Emmitsburg district; afterwards he graduated as a physician; and as a surgeon in the Texan army, was present at the battle of San Jacinto, and in other engagements during that war. Upon the breaking out of the war with Mexico, Dr. Forney, as assistant surgeon, was on board the flag ship of the American squadron at the investment and capture of Vera Crux, and subsequently served three years on the coast of Africa, as commodore's secretary, until, under the admin istration of President Pierce, be received the appointment of U. S. commercial agent for Liberia, which he held until his death.

A man distinguished for the use of choice language, found fault with his pudding as having too much "calorio" in it, which the landlady took in high dudgeon, declaring that she never used the article.

As several gentlemen were passing down one of our Southern rivers, a short time since, on board one of the thousand steamers which ply on their waters, one of them was struck with the beauty of an elegant farm which was then in sight, and addressing a plain rustic gentleman who stood at his elbow, asked who that elegant place belonged to. 'Mr. Johnson is the owner," was the re-

A third, a fourth, and a fifth plantation fell under the notice of the gentlemen, and in re-ply to his questions he was informed that they also belonged to Mr. Johnson. "And who takes care of all these farms for Mr. Johnson !" "I take care of them," answered the plain-

A Bold Leap. On a recent occasion, Louis Napoleon, while reviewing troops on the Champ de Mars, noticed some disorder at a distant part of the from troops, but a carriage stood in the open space—a light, open pineten, with its top thrown back—and this carriage was directly across the line of the Emperor's direction.—So sudden had his movements been, that few for the moment had observed his leaving his position in the field, but now he was dashing clusions upon which they differ, and for which fast as horse could carry him across the open space. Arriving at the obstacle, he took a flying leap clear over the earriage, and continting his still rapid pace to the scene of commotion, soon returned and assumed his posi-"When I think," says the author, "of tion at the head of the field, while the air that one man standing there at Washington, rang with acclamations of delight at the daring and success of his exploit.

Curious Historical Fact.

The Evansville, Indiana, Journal is informed by Judge Law, that in searching among the archives of Indiana, he has found some old documents, stating that soon after the acquisition of Louisians, the Governor and to his country friend in Lincolnshire, England, Judges of Indiana, who then composed the who had done him some recent favor, informed Legislative Council, and were clothed with till they have realized \$36,60, and a part still all the Legislative powers of the Territory, were, by a special act of Congress, authorized and directed to frame a code of laws for the then newly acquired Territory of Louisiof Congress, the Legislative Council of the Territory of Indiana went to work and drew up, passed, and the Governor approved, a code of laws for the large and distant Territory of Louisiana, extending from the confines of Minnesota to the Gulf, and in those laws were embraced one of the most stringent slave codes that has ever been enacted—per haps the very code, or the basis of the code now in force in Arkansas, Mississippi and Louisiana. A copy of these laws, adopted by the judges and approved by William Henry Harrison, Governor of the Territory of Indiana, and dated in 1802 or 1803, will be furnished the State Historical Society.

A Sickles Case in Bedford County, Tenn .-From the last issue of the Shelbyville Expositor we learn of a terrrible tragedy in Bedford county. A man named Allon had reacharged a man named Handy with being her seducer. The latter indignantly denied the charge, using abusive language. Infuriated positive knowledge of the great wrong that had been done him, Allen rushed upon his adversary and stabled him to death. He then surrendered himself to the legal authorilies.

A Remonstrance.—The German citizens of Detroit have addessed a communication to the people of Massachusetts, remonstrating carnestly against the constitutional amendment which requires the residence of adopted citisens within the State for two years after na-turalisation. They condemn this action of the Republicans, and declare that they cannot co-operate with a party which adopts such nessures.

importance, as it proposes a radical, violent and anti-Ropublican change in the funda-mental principles of a free government. The change proposed is that no foreigner shall be change proposed is that no foreigner shall be sallowed to cast a vote until he shall bere been naturalized two years. Look as the practical workings of the change as advocated by the Republican Abolition party of the Bay State. A man comes to this country to make it his permanent residence. At the end of three years he may go before the Court and declare his intention to become a citizen of the United States, and take the oath of fidelity to our Constitution. The Proposed Reduction of the State Tax. -At the close of the session of the Legislature the House of Representatives passed an act to reduce the State tax on real and personal estate from the existing rate of two-and a half mills to two mills on the dollar. ferred to the Finance Committee, where i was permitted to slumber until the session expired. We observe that some Opposition papers are endeavoring to make capital out of this, and to show that the Republican House proposed to bring relief to the suffering people, which the Democratic Senate re-fused. It was well understood at the time that this was intended to make political capital, and it was so viewed by both parties in the Senate. We are not aware that the latter body ever gave the measure the slightest no tice. The Republicans made no effort to take it from the custody of the Finance Committee, and manifested no particular desire to have it passed. If it was a Republican measure, why did they not make some motion to have it considered, and at least throw upon the Democrats the responsibility of its defeat? In fact, both parties in the Senate viewed he action of the House as hasty and injudicious, and no Senator felt disposed to take the responsibility of appearing as its champion .- Harrisburg Patriot d' Union.

The Corn Grab.

The corn crop has several formidable enemice to contend with, and among them is the grub, which sometimes literally destroys whole fields, and frequently damages the crop seriously. One of the best and must judicious remedies—perhaps the best ever suggested is the application of salt as soon as the plant makes its appearance above ground, prepared and need in this way: Take one quart courmon salt and three parts plaster or gypenn, and apply about a tablespoonfull around each hill, and it will be found to be a sure protec-tion. The mixture should not some in contact with the young plants, as it may destroy them. This method has been trial over and over again by some of the best farmers of "I will lay you a wager," said Bonn-Pennsylvania, Delaware and Jersey, and whose properly applied, has never failed to be perfectly successful. We hope our farmers who have reason to fear the depredations of the in grab, this season, will try this infiture, leavof ing a few alternate rows of corn without the
the salt, and communicate to us the result.

Striped Bag. To prevent the striped bug from dectoring young vines gather a quantity of the weed called Mandrake, or Mayample, brains it wall, put it in water, is, it qual oue bour, or more, then pour and sprinkle is on the plants.
