Morrison's Patent Patented June 9, 1857.—The undersigned has purchased the Right for Adams county of Morrison's Patent Portable Fence, a simple frame to connect the pannels of fence, by which the use of posts is dispensed with, and at about one-third the usual cost. This frame is held together Dr. W. A. Mathlas, by means of a simple bolt connecting the pannels, and keeping them if an upright position; then, by driving two pins into the ground, thro' the ends of the sills, the fence is made perma-nent, as well as portable. It requires but little skill in its construction, and takes but half the time required to make a common board fence; the frames are made without a single mortice, the pannels are nailed up with strips on each side, and can be set up in a few moments. It will be readily seen that one hundred pannels of this fence are worth two hundred pannels of stationary fence, as it is easily and readily moved tionary is used—and from the fact that middle fences can be entirely dispensed with by merely using portable fence for pasture lots alone.
By this process one-third of the grass is saved that is generally overrun in pasturing, by merely fencing the quantity required, besides saving at least five acres of land to the hundred that is necessarily taken up with feace when stationary

fence is used for inside fencing, all the land be-ing farmed alternately, it gives no chauce for briers and other rubbage that usually grow up along fences. This fence can be used to grea advantage on low or wet land, where it is difficult to set posts, merely requiring longer pins than for dry ground. The advantage also, of moving the fence, when strenms overflow, that are likely to float it off, and the convenience it affords, in fearing pasture and other lots, for stock, enclosing grain stacks, &c., &c., all highly recommend its practical use to the farmer. The first premium was awarded to this fence delphia, 1857. Farm Bights will be disposed of on moderate terms on application to

Miscellaneous.

The Treas n of General Lee. Last evening an approciative audience assembled at the Hall of the Historical Society, to hear a paper read by Mr. Geo. Henry Moore, Librarian of the New York Historical Society, on the life and character of Major General Charles Lee. The most important points of the lecture rested upon documents which have never been given to the public, and which were received with thrilling interest. We can give but a meagre outline of

A Volunteer Bull Fight.

I remember once seeing, when a lad at school, a fight between two bulls. Although I could not have been more than eight years f age, I shall never forget the spectacle. It happened in this wise. Close by the school-house—a very unpretending edifice it was ran a deep and rapid river. Across it had been thrown a high wooden bridge, the hand diggins in that vicinity. It was a splendid Surrailing of which time, and the winds, and the day morning that brother Ingalia met Pat, who

There they were, the ferocious duelists, quite as sonsibly employed as some of their uman imitators. Front to front, their horns locked, every muscle strained, they were fighting as only bulls can fight. It seemed even match. Now one would press back would hear quick, sharp, short steps, and his

In about five minutes both bulls might be seen, well sobered by their ducking, dripping wet, scratching up the steep, gravelly banks, each on his own side of the river. Some of these men have more or less of political sense, and therefore it is that they so readily understand that their race as officeholders, with the Democratic party, is run. They have never been used to living without office,—must have official patronage or starve. Now how to get it-

that's the question.

They suppose the Republican party, true to its instincts and past history, will be ready and willing to coalesce with any faction that will promise to give them success in 1860. Hence if they rise to the dignity of a faction, they make their own terms. These terms in Boston for the purpose of collecting some the capital was Corydon, and the annual will be made in this way.
