Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes withsted, weak, and poor. Heing in the circulation, is pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrotlious taint is variously not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the con-

stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I

will visit the iniquities of the fathers upon their children."

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative and in the load. the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Exertive and Sain Diseases, Sr. Antrony's Firm, ROSE, OF ERTSIPELAS, PIMPLES, PURTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and Salt Rusen, Scald Head, Ringworn, Rheunatism, Syphilitic and Mincuetal Dis-BABBS, DEOPSY, DYSPRESIA, DEDILITY, and, indeed, all Complaints against yron Vitia-TRD OR IMPURE BLOOD. Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed the lungs, liver, and internal organs, is termen-tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that acrofulous constitu-tions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; conse-quently, vast numbers posish by disorders quently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this acrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.
