An Ugly Club.-A club has been recently established in Petersburg, Va., the impossi ble object of which is "to make ugly people respected." Mr. B. C. Pollard, of Hanover, and Mr. Jas. W. Hall, of Halifax, were elected chief officers. These two gentlemen are really awful to behold; it is supposed that, with "a good sight," by grinning through a horse-collar, they could jointly double up a crowbar.

Sympathy for Foreigners.

Referring to the files of this paper of four years ago, we find that it was engaged in a very excited contest with what was called Know Nothingism. The platform on which this society stood was partially stated in the following oath and obligation, pertaining to the first degree of the Know Nothing order, which oath and obligation we are confident that some of our editorial neighbors took and subscribed. We need not remind the reader that this paper very strongly opposed both the oath and the principles of that order.

OUTSIDE OBLIGATION.

In the presence of Almighty God and these witnesses, you do sclemnly promise and swear that you will never betray any of the secrets of this society, nor comunicate them even to proper candidates, except within a lawful council of the order; and you will never permit any of the secrets of this society to be written, or in any other manner to be made legible, except for the purpose of official instruction; that you will not vote nor give father. Several gentlemen who took this oath, and more and stronger oaths, have gone into spasms lest the foreigners whom they then spans less the foreigners whom they then spans resore to proscribe—swore to deny the rights of American citizens—whom they denounced as "paupers and thieves," "the off scourings of the Old World," "jail birds," "emissaries of the Pope"—they go into spasms now in their alarm that these men may meet with injustice at the hands of the Democrats! We advise our adopted citizens to exact one penance from these recusant Know Nothings before listening to them at all—make them get down on their knees and repeat their Know Nothing oaths backwards. Make them unsay THE OATH! Self respect demands that our answered," I belave in the crame, but not naturalized citizens exact this much of their new defenders, and the leaders who took these oaths in 1855, and fawn upon the foreigners in 1859, will do anything. Naturalized citizens need not be afraid of exacting too much, just now!

> The Great Battle of Solferino .- Tho great battle of the 24th June, it appears by the late foreign news, was not fought on the Mincio, but on the Chiese, at the village of Solferino, about eighteen miles northwest of Mantun, where the Austrians in 1796 were defeated by the French previous to the siege of Mantua. The battle of the 24th appears to have been the severest contest of the campaign, and was accompanied by the greatest loss of life.
