The Allies, after the series of brilliant viotories which have crowned their arms, can demand nothing less than the fulfilment of the object declared at the commencement of the war, vis : the absolute freedom of Italy from Austrian rule. The Emperor of Austria, taught by this time the lesson that his magnificent army has been overmatched by the French, and is not likely to retrieve its losses by prolonging the war, may be persunded to yield to terms thus early in the campaign, rather than have heavier conditions thrust upon him after another series of bloody disasters. Already !

The Opposition prosses are already changing ground on the Naturalization question. A few weeks ago they declared the position of our Government not liberal enough towards naturalized citizens. Now the National Intelligencer fears that it has gone too far in their favor! A hard party to please, truly; but the country will care little whether the grumblers are satisfied or not.

The Know Nothing Black Republicans of this county will "nominato" their County Ticket on Monday next. We hear little said in regard to it-so little as to lead to the suspieion that the old "Sam" game is being resorted to, that of first making their nominanations in the secret holes of the order, then to receive some sart of endorsement by the Convention, and thus pull the wool over the eyes of certain gentlemen with exclusive liepublican proclivities. And what almost confirms the suspicion is, that the very men who introduced the Know Nofling Councils into this county in 1853-4, are now at the head of Opposition affairs, doing all the private curcussing and all the street-corner boasting.
