Scrofula, or King's Evil is a constitutional disease, a corruption of the blood, by which this fluid becomes vitisted, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may

This foul cor-ruption, which genders in the blood, degreese the energies of life, so that scrofulous constitu-cions not only suffer from scrofulous cons-plaints, but they have far less power to with-stand the stacks of other diseases; conse-quently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences.

Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Enverive and Skin Diskasks, St. Anthony's Fire, Rose, or Erysipelas, Pinples, Puntules, Blotches, Blains and Boils, Tunors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumathm, Syphilitic and Mercurial Dis-RABES, DROPSY, DYSPEPSIA, DESILITY, and, indeed, ALL COMPLAINTS ARISING PROM VITIATION OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in without which sound health is impossible in contaminated constitutions.

Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy testored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratts my American Almanae, containing certificates of their cures and directions for their use in the following complaints: Conficences, Hearthurn, Headache witing from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Boucis, Fiatulency, Loss of Appartite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.
