Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the wirtue of Sarsuparille, Findings, Tampico, Brush and French Morocco, Linings, Bindings, Pegs, Lasts, Boot Trees, &c. with a general assortment of Shoemaker's tools. or any thing else.

During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most or Extract or Sarsaparilla for one dutar. More of these have been frauds upon the sick, for they not only contain little, if any, Sarsapa-rilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Samuella while food the particut writt the Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and chest. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of oblequy which rests upon it. And we think we have ground for believing it has virtues which are irrelatible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should he judiciously taken according to directions on the bottle.
