Than in Fairie-world e'er blew, we offer Wholesale and Retail, at the lowest Cash Prices, a large and very choice stock of every description of goods usually kept in a first-class Watch and Jewelry Stors. We hope by untiring efforts to accommodate And a brighter than Fairie crown she bere And a sweeter life she knew.

Miscellaneous. 

and please not only to retain all our former patrons, but merit and secure a large accession to Battle of Waterloo. the same. Every description of Diamond Work and other

The following singular anecdote is told in the post mnnection with this battle, in Rev. James White's Ilistory of France: "It was a Sun-day, and while all the church belts in England day, and while all the church bells in England were calling the people to prayer, the cannon-adé commenced. Everyhody was in expecta-tion of a battle. It was known in England that Napoleon had crossed over into the Netherlands, and that Wellington was ready to meet him. News was slow of coming, and people's hearts were sick with the expecta-tion of the next mail. It chanced that be-tween the astronaution to the subject of charity and charitable institutions. "Ah," said Herbert Lee, "that reminds me of an odd circumstance. I received a let-ter the other day recommending to my notice a poor family in Allen street. It was signed Charity, and advised me to go and see them." "And did yon go," asked Margaret quickly. "No!" was the haging reply. "I havo's Particular attention given to the repairing of No. 622 Market street, South Side, Milledelphia. N. B.-We will continue our Old Store, No. 148 North Second street, for a short time only.

The Test of Love "If I ever marry," said Margaret Baily to her cousin Olivia, "it " " be a man who does not live entirely for huaself, but who, out of the benevolence of a charatable heart, will not pass unheaded the cry of the widow and comhan who call on him for relief." Thought, effectually. The afternoon was "When uen, quasarant guident of the Governorship of -was a candidate for the Governorship of Mississippi, in opposition to Foote, the pre-ent writer happened to see samething of the canvass. At one point in the interior of the State, Gen. Quitman was addressing a vast meeting, and arousing all that wild enthusi-arm which he was well calculated to inspire

"What ails your pants ?" ment is strictly and literally true, the dark mystery of Sir John Franklin's die is faully,

Sir John Franklin,

The London newspapers, just retrived by the Canada, contain details, to the extent of and pince of Sir John Franklin's death. But with the political as well as the increasing advertising pressure upon our coleman, it is impossible for as to give these so fully as our lass favored contemposting we do. But iese favored contemporaries may do. But, from the London Critic of the 24th ule, we give the following summary, containing the real points of these reports-the esses is were, of a very interesting but greatly spun-out narrative: "It is now established beyond possibility

of question that hir John Franklin died on the lith of June, 1847; that the shipe were abandoned on April 221, 1848, and were left abandoned on April 221, 1048, and were lers in the ice by one hundred and five-the sur-vivors of the crews-who attempted, under the command of Captain Orozier, to reach the Great Fish River. During the researches, TWO DOLLARS A-YEAR. NO..4. Captain McClintock met with an intelligent old Esquimaux woman, who informed him that in the fall of 1847 one of the shipe was forced ashore, and that 'many of the white men dropped by the way, as they went to-ward the Great River.' Of this fact the discovery party came upon evidence too cogent to admit of doubt; for, on the 24th of May, when about ten miles eastward of Cape Her-shell, they came upon a bleached skeleton, around which lay fragments of European elothing, and beneath the mow lay a mell? clothing. and beneath the snow lay a small nate young man was a steward or officers serpoor, friendless youth; that he had met the hand of good fellowship, and had been lifted by it through the various grades of public povant, and his position exactly verified the Equimaux's assertion, that he 'dropped as bewalked along.' All this, however, is as nothsition ; he was deeply sensible that he owed one of them would be willing to don a chari-table mood for awhile, if they supposed that apon this issue, depended the hand of the wealthy heiress." "Perhaps you are right," said Margaret thoeghtfully; but she added suddenly, "an idea has just come into my head, by which I this this embarasseent an be avoided." (Whet his 'Y' ashe dolling, that grew in profusion around, and "Weat his 'Y' ashe dolling, and hard suddenly, "an it is the subarasseent an be avoided." which upon examination, was discovered to contain the record of the horrible sufferings. sustained by the lost crew. The following is said to be a brief abstract of this tale of land-

ship and woe : 'This cairn was built by the Franklin expedition upon the assumed site of James Ross's pillar, which had not been found. The Erebus and Terror spent their first winter at Beechy Island, after having ascended Wellington Channel to Intitude 27 degrees north, and returned by the west side of Cornwallis Island. On the 12th of Septemper, 1846, they were beset in latitude 70.05 north, and longitude 98.23 west. Sir John Franklin died on the 11th of June, 1847. On the 22d of April, 1848, the ships ware aban-doued, five leagues to the normwest of Port Victory, and the survivors, a hundre 1 and five "Quitman continued: 'The rush of war s over; I return to you in the garb of peace. in number, landed here under the command

of Captain Crozier.' "This paper was dated 25th April, 1818, and upon the following day they intended to start for the Great Fish River. The total oss by deaths in the expedition, up to this date, was nine officers and fifteen shen. A vast quantity of clothing and stores of all sorts hay strewed about, as if here every article was thrown away which could possibly be dispensed with-pickaxes, shovels, boats, cook-ing atensils, iron work, rape, blocks, canvas, a dip oircle, a sextant engraved 'Frederick Hornby, R. N.,' a small medicine chest, oars, 2. A few miles southward, across Back Bay, a second record was found, having been deposited by Lient. Gore and M. des Voux, in May, 1847. It afforded no additional in-formation. When in lat. 69 deg. 09 N., and long. 99 deg. 27 W., Capt. McClintock came to a large boat, discovered by Lient. Holson a few days previously. It appears that this hoat had been intended for the ascent of Fish River, but was abandoned, apparently upon a roturn journey to the ships, the sledge upon which she was mounted being pointed in that direction. She measured twenty-eight feet direction. She measured twenty-eight feet in length by seven and a halt feet wide, was most carefully fitted, and made as light as possible; but the sledge was of solid oak, and almost as heavy as the boat. A large quan-tity of clothing was found within her, also two-human skelotons. One of these lay in the
