Scrofula, or King a Lova is a constitutional disease, a correption of the bload, by which this fluid becomes vitisted, weak, and poor. Being in the circulation, is pervades the whole body, and may burst out in disease on any part of it. No organ is fees from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously eaused by mercurial disease, low living, disordered or unbealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon

will visit the iniquities of the fathers upon their children." Its effects commence by deposition from the blood of corrupt of ulcarous matter, which, in the lungs, liver, and internal organs, is armed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul con-

the energies of life, so that scrofulous constitu-tions not only suffer from ser-fulous constitu-tions not only suffer from ser-fulous consti-plaints, but they have far less power to withplaints, but they have far fees power to withstand the attacks of other diseases; consequently, wast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or and indeed, or an the organs, arms from or are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it.

To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the averture from its destructive system from its destructive consequences.
Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and Skin Diseases, St. Anthony's Fire, where you will be sure to get them good and Rose, or Entstream, Pintles, Puttures, Cheap. BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT REEVEM, SCALD HEAD, RINGWORM, RHEUMATISM, STPHILITIC and MERCURIAL DISBASES, DEOPSY, DYSPETSIA, DEBLITY, and, indeed, ALL COMPLAINTS ARISING FROM VITLATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound, health is impossible in contaminated constitutions.

Custiveness, Hearthern, Headache urising from allow the Boxels, Fatsulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pecteral. FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the discase.

So wide is the field of its weefshoos and so nu-merous are the cases of its cures, that almost-every section of country abounds in por-ons pub-licly known, who have been restored from alarming liefy known, who have been restored from alarming and even despente diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is two apparent to escaps observation, and where its vistuos are known, the public no lorger hesitate what aintidote to employ for the distressing and dengerous affections of the pulmonary organs that are its ident to our climate. While many inferior remedies thrust upon the community have failed and been diservised, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too armarkable to be forgotten.
