country, so far as heard from, concur with remarkable unanimity in abstaining from all comments calculated to produce or inflame excitement, although they withhold none of the details illustrating the recent abolition movements, some of the leading opposition papers pursue a course which shows their alarm at the political consequences of these premature developments of the "irrepressible conflict." They affect to disbelieve the telegraph reports this time, although they are ready enough to credit them whenever their tales seem to favor the Black Republican cause: and a few even cast ridicule on the measures resorted to for the purpose of suppressing the insurrection at Happer's Ferry, and the precautions deemed nuceasary and proper in Washington and at other points. An opposition press at Cincinnati, for instance, emblazons as its heading of the socount the words " F. F.
