The greative increased and increasing spirit of planting. as well as the degree of patronage extended to us, warrant us in greatly increasing our nurseries, so that we are prepared to offer for the autumn of 1860 and succeeding years, a much more extensive stock than ever offered before -cultivating from 35 to 40 acres, containing Paper of the newest patterns and designs. - ceveral hundred thousand trees at various Chized, Marble and Oak, velvet and plain borstages of growth, all of which are grown on der, decoration, fire board prints and window soil and under treatment best calculated to shades. The undersigned having accepted the above Agency for the sale of Fruit Trees in this county, takes this method of informing the Lublic, that those wishing to purchase trees will please take the subject into consideration before I call personally upon them, as I expect to canvass a portion of the county. All letters or east will also connect, by the morning train, upon the subject, addressed to me at Benders- with the mail train from Baltimore, which passes ille, or left at any of the Hotels in Gettysburg, will be attended to. Catalogues can be found at all the printing offices. Persons wishing to select from catalogues can there see them. I svill be in Gettyshurg during Court weeks, so that persons wishing to purchase fruit can see me. The cultivation of good fruit of all kinds has been entirely too much neglected in this county. The demand for good fruit is very much on the increase.
