In speaking of Haldeman's course, It is, perhaps, the very best thing that could have happened to the Democracy of the State, and for the plan of compromise agreed upon by the State Committee, that the bolters should have determined to place themselves in the attitude of an organized rebellion against the only regular State organisa tion of the party. The question now comes home directly to the Democracy of Pennsylvania whether they will allow a foreign power, not of their creation, on which they have conferred no authority, to interfere in our State politics, and crush out our State organization: In other words, has the authority of our Sate organization departed, and become centralized at Washington? Are we no longer our own masters? Are we incompetant to making our own domestic affairs, and has the once proud Democracy of Pennsylvanist become subject to the will and direction of one man, [Richard J.
