Sixpence a Day,

ENOUGH FOR A FORTUNE.—A London paper states:—There is now in an Almshouse at Bristol an old man who states, that for sixty years he spent sixpence a day in drink, but was never intoxicated. How much would this sixpence a-day put by every year at five per cent. compound interest amount to in sixty years? enquired a thoughtful neighbor. Putting down the first year's saving (365 sixpences) equal to $43 54, he added the interest, and this went on, year by year, until he found that in the 60th year, the sixpence a day reached the startling sum of $14,336 28. Judge of the old man's surprise, when told that by saving his sixpence a day, and depositing it in a Savings Institution he might now, at the end of 60 years, have been worth that noble sum $14,336 28, which would have bought him a fine farm, or town mansion, and surrounded him with comforts and luxuries, and left a handsome estate to his children after him. He had, and hundreds now in our midst have, but to deposit sixpence a day in the FARMERS' AND MECHANICS' SAVINGS INSTITUTION OF ADAMS COUNTY, to accomplish this result.

The Only Preparation

HAVING PROOFS SO STRONG AND DIRECT AS TO EXPEL THE DOUBTS OF ALL.—For Statesman, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all who have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore. Read the following:

OAK GROVE, S. C., June 24th, 1859.

PROF. O. J. WOOD—Dear Sir:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was finally destroyed over the entire surface of the head. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and, as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy Hair Restorative, which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my most sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully,
M. J. WRIGHT, M. D.
Office of the Jeffersonian, Philippi, Va., December 12th, 1858.

DEAR SIR:—I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give it to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents. Yours, &c.,

THOMPSON SURGHNOR.

DR. WOOD—Dear Sir:—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

S. THALBERG.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

An Invention

THAT is not a humbug, may be seen at the Ware Room of SHEADS & BUEHLER—a Patent Washing Machine, about the utility of which there can be no mistake. It is undoubtedly the best Washing Machine that has ever been invented. It must speak for itself.—Township rights for sale on reasonable terms. Machines also for sale. Call and see it.

131 BALTIMORE ST., BALTIMORE, MD., Manufacturers of Improved Tight-stitch SEWING MACHINES,

for Families and Manufacturing Establishments. Let Manufacturers, Planters, Farmers, Housekeepers, or any other persons in search of an instrument to execute any kind of Sewing now done by machinery, make sure they secure the best, by examining ours before purchasing.

☞ Samples of Work sent by mail.

WHAT CONSTITUTES A GOOD SEWING MACHINE?

1. It should be well made, simple in its construction, and easily kept in order.

2. It should make a TIGHT LOCK-STITCH, alike on both sides of the material.

3. It should sew any and all materials that can be sewed.

4. It should be able to use Cotton, Thread, or Silk, directly from the spool.

5. It should be able to sew from coarse to fine, and from thick to thin, with rapidity, and without changing the tension.

6. It should be able to make the tension greater or less, on both the under and upper threads, and with uniformity.

7. It should have a straight needle; curved ones are liable to break,

8. The needle should have perpendicular motion. This is absolutely necessary for heavy work.

9. It should be capable of taking in the largest pieces of work.

10. It should be able to bind with a binder, hem with a hemmer; should stitch, fell, run and gather.

11. It should be always ready to work.

12. It should be capable of using the same size of thread on both sides of the work, and of using different colored thread or silk, above or below, to correspond with any two colors of cloth to be united.

13. It should be able to make a long or short stitch,

14. It should be able to fasten off the seam, and commence sewing tightly at the first stitch.

15. It should run easily and make but little noise.

16. It should have a wheel feed; none others are in constant contact with the work.

17. It should not be liable to get out of order.

18. It should not be liable to break the thread, nor skip stitches.

19. It should not be necessary to use a screw-driver or wrench to set the needle.

20. It should not be liable to oil the operator's dress.

21. It should not form a ridge on the under side, nor ravel out, nor be wasteful of thread, as is the case with ALL CHAIN-STITCH machines.

22. It should not be "more trouble than it is worth."

23. Finale, all of these advantages are possessed by our Sewing Machine.
