The Bedford Congressional District. Among the Congressional Districts the Dem cerate will redeem this full is the one composed of the counties of Adams, Franklin, Pulton, Bedford and Juniata. The conferees of all but the latter have been instructed to support Hon. W. P. SCHELL, of Bedford, so that his nomination will in all probability be made unantmous on the first or at farthest the second lallot. The Opposition in the district have for some time feared this result, and for weeks their papers, as well as many out of the district, have been applying the bellows extensively in behalf of Mr. McPherson, the Opposition candidate. Mr. Schell is a firm and consistent Democrat and has already attained a popularity second to no man in the region in which he resides. When he ran for Senator in a district which has given 2,-000 Opposition majority, he had 700 in his own county, and a majority of over one hundred in Huntingdon county, His course as a Senator was approved by his constituents, and if they had re-nominated him, instead of resolving to compliment him with higher honors, he would have been re-elected by an

increased majority. For Congress, he will sweep Bedford and Juniata with a majority of not less than 1,200, and he will hold Mr. McPherson exceedingly level in his own county, while the latter's majority in Franklin can in no possible event exceed a few hundred. The election of Mr. Schell is a foregone conclusion. Nobody is better satisfied of this fact than McPherson himself. - Harrisburg Patriot & Union.
