

very active for Fremont.) from which we quote: "Out of the present crisis there are two paths that open before us, and only two—One is through violence and revolution. When the public opinion has become so general, when the spirit of the people is so high, and when the time has come when we must break it in two, and let right and justice go free—Revolution is God's remedy."

Hear another political man and Black Republican stamper, the Rev. Dr. Kirk, of Boston. "The doctrine that a negro is not a man, and the doctrine that the negro is a man, have now come to the death struggle, and the nation will hear with every convulsive struggle of the contest. Nothing will give more satisfaction to the masses of the people than to see the nation united in the support of a single electoral ticket."

Some of the English papers are fairly glowing over the prospects of the election of Lincoln. A sectional President they think will work the much desired destruction of the United States Government. The London Chronicle very accurately says: "Elect Lincoln, and the first blow to the separation of the United States is given."

Indictment for poisoning Thayer—A man in Mercer county, Ohio, who put arsenic in his watermelons, and thus killed five persons who were degrading on his vines, has been indicted for manslaughter.

St. Domingo, and before the Republic of North America, rent into fragments, has become a thing of the past, a fact only in the past of history. There is no political organization in this country that has the power to resist and roll back the wave of fanaticism. This organization is the national Democratic party. Firmly planted in the hearts of the American people, descended from the paper and letters days of this Republic, contemporary with Washington, and Jefferson, and Jackson, it stands forth to-day, as it has ever stood, the champion of the Constitution and of the Union. It has encountered and overthrown the Black Republican disunion party upon one battlefield. Let the conservative men of the country now rally to its standard, and it will again meet, overthrow, and vanquish its dangerous enemy to the Republic, and give peace and security to the Union.

An extra train of cars will be run for the occasion from Gettysburg to New Oxford and back, starting at 6 o'clock. Fare only 40 cents for the round trip. (Oct 29, 1860.)

UNION NOW AND FOREVER!

FREEMAN ADAMS, YOUR COUNTRY CALLS!

By order, JACOB BRINKERHOFF, Chairman Dem. Co. Com.

The Ticket.

We give the Reading Electoral Ticket—our plauso from the commencement of the Presidential contest—on our first page, in a corrected, and prominent, form. This is the only Democratic ticket in the field, and will receive the votes of all Democrats throughout the Commonwealth.

Beware of Spurious Tickets!

It is not improbable that the two Opposition candidates elected in this county on the 9th inst., succeeded through the instrumentality of mixed tickets. Democrats must see to it in the future, that a similar game be not again successful. EXAMINE EVERY NAME!

The Day of Election.

The time for holding the Presidential Election in every State, except South Carolina, is the first Tuesday after the first Monday of November. This year it comes on Tuesday, the 6th day of November.

The Skies Brighten!

The political sky looks much brighter now than it did ten days ago, and if the reaction, which has commenced, goes on for the week which remains of the Presidential campaign, the Democracy of Pennsylvania will have no reason to be ashamed of their vote after the ballots are counted off. Then let us urge our fellow-Democrats all over the county to roll up their sleeves and go to work without delay. Work, work, WORK, should now be the order of the day.

The Duty of Democrats.

The adverse result of the election on the 9th may dampen the ardor of Democrats and lead them to think that further efforts are useless, and that the November election may be left to take care of itself. But this should not be the case. Democrats should by no means lesson their energy or activity as regards the November election. On the contrary, greater efforts should be made, and there should be a determination to do all that can be done at the November election. Many are persuaded, have allowed themselves to be misled, and we are sure before the next election comes, they will return to the fold from which they have strayed. Pennsylvania cannot embrace Lincoln-Republicanism. Democrats, it is your duty, then, to rally for the November election as if nothing had occurred to make you doubt as to success. Organize thoroughly in your districts, and from this day let every Democrat work as if success in November were certain. Exert every energy, and let every effort be made to do our whole duty in November. Urge, denounce, and work. Preserve your party organization and rally for the Reading Electoral ticket.

The Lincolnite leaders here must be getting scared. They have issued a call for any number of meetings during the present week, in order to get their followers fully worked into the Abolition crusade. They know that their creed is not popular with the people, and hence this desperate effort to force down their throats in the person of Abe Lincoln.

Several articles in type deferred—among them a list of the members of the Legislature.

Rally for the Reading Electoral Ticket!

The Straight Ticket electoral ticket being withdrawn, because Democratic ticket remains in the field, for the support of the Democratic party. This is the Reading Electoral Ticket, regularly formed at Reading, by the regular Democratic State Convention, in March last, before the Charleston and Baltimore Conventions. In their Presidential preferences the Electors are divided, some being for Douglas and some for Breckinridge—almost equally. If elected, however, we are perfectly willing to confide in their honor, that they will cast their votes so as most surely to defeat the Sectional Republicans and benefit the country.

Democrat of Adams county! you have yourself sworn in the late contest. Your country again calls upon you for your patriotic services. A sectional party, with Lincoln as its standard, is seeking possession of the Government at the imminent peril of our Union. The South is determined to defend, to the last, her constitutional rights, and the Republicans are just as intent on crushing them. We are therefore threatened in the event of the success of Lincoln, with bloodshed and all the horrors of civil war. AWAKE! STAND TO YOUR ARMS. Rally for the Reading Electoral Ticket, irrespective of your differences. On every Democratic, conservative vote for this ticket, give more than the majority you gave Foster, and whatever may be the result, you will have done your duty and washed your hands of every responsibility.

Union.

The union of the Democrats of this State upon the Reading Electoral Ticket has had a most depressing effect upon the Opposition. Before this sensible action was taken, the Opposition calculated that Abe Lincoln, although unpopular because an Abolitionist, would, without effort, sweep everything before him, through division in the Democratic ranks. Now, however, their tune is changed. There is commotion in the wigwam. The game is not as sure as they expected. And well may they be alarmed. "The sober second thought" is already at work among the people, and forcing them to the inquiry, "May not dreadful consequences ensue upon the election of an Abolitionist?" "May not this glorious fabric of government be rent in twain by the success of a class of men who have long since threatened violence to it unless negro slavery be abolished?" "May not general ruin follow?" "May not even servile, bloody war come of it?"

Armed Wide Awakes!

Here in Pennsylvania the Abolition orators and editors try to cheer at the alarm bell in the South. They say "there is no danger—it is all a humbug; elect Lincoln and the South will all be united." No danger! No danger! The Republicans, by their act, give the lie to their own declarations. What means this drilling of Wide Awake companies? What necessity is there for teaching men the manual, and making them acquainted with military tactics in time of profound peace? John Brown's desperadoes in Kansas—the men who stole negroes in Missouri, and murdered men, women and children—were called "Wide Awakes." They had an object in view, not only in Kansas but in Virginia. They accomplished their object as far as they could, and finally their leader and a portion of his band expelled their crimes upon the gallows. The Lincoln Wide Awakes have also an object in view; that object, SIMON SAYS, is to "humble the South and root out slavery." Already the Wide Awakes have commenced to arm themselves. A few evenings since, some two hundred Wide Awakes paraded in the city of Washington, and according to Foxwar's Washington correspondent, "Occasionally" each man carried a six-barrel revolver! What for? For the purpose of letting Southern men see that Lincoln and his party were determined to carry out their sectional doctrines at all hazards, and at any sacrifice. Has it come to this? Are we to submit to a military despotism?

A Fraudulent Victory!

CURTIN'S MAJORITY IMPORTED!

The most stupendous and audacious frauds were perpetrated by the Black Republican wire-workers at the recent State election. In almost every election-district in the State where there was a Republican majority in the election-board, numbers of fraudulent votes were polled. In some such districts in our own county, the TEN DAY LIST was swelled to the number of fifty and sixty! In Philadelphia, we are informed by a gentleman who resides in that city, and who at the late election acted as a watcher at one of the precincts, there were at least 10,000 fraudulent votes polled for the Republican candidates. This was done by importing votes from New Jersey and New England and having their names put upon the Ten Day List. In Bradford, Tioga and Erie counties, thousands of votes were cast for Curtin, by persons shipped over from New York. In Allegheny and Lancaster counties the same game was played. The vote of these places shows it. Take up the Census reports and in most of them you can't find within a thousand or two as many voters as there are votes polled, and this, too, in the face of the fact that a considerable number of voters never turn out to the election. On the 6th of November next, these imported votes will be needed in New Jersey and New York, and the fraudulent majority of Curtin in Pennsylvania can be reduced to nothing if every Democrat rallies to his post.—Bedford Gazette.

The Star admits that the Wide Awake justification here on Friday evening a week was a "farce." It says there were but "about 80 Wide Awakes in the procession." Our count was 72—so the Star for once comes pretty near the truth. It will be recalled that an "immense demonstration" of Wide Awakes was promised, and we know that the worst went out to the country the day after the non-sensational performance that from 400 to 600 Wide Awakes had been in the line!

Let every Mechanic and Workman read the article on our first page entitled "Mechanics and Workmen," and consider well its truths. To vote for Lincoln is to vote for BLACK OVER WHITE LABOR—to reduce the wages of white men, by bringing black in competition with them. READ AND REFLECT!

A National Epitaph—Many years ago Elwood Fisher predicted the epitaph which in future ages would be inscribed upon our political tablet would read as follows: "Here lies a people, who, in striving to give liberty to the negro, lost their own freedom."

"Ultimate Extinction?"

"Those small party newspapers and politicians who charge Abraham Lincoln with being in favor of negro equality, charge what is notoriously untrue."—Neville.

ABRAHAM LINCOLN has left no room for doubts about his understanding of the intentions of the party that support him. He says frankly that "THE AIM OF THE REPUBLICAN PARTY IS TO PUT SLAVERY IN PROGRESS OF ULTIMATE EXTINCTION." If this is not Abolitionism, we would like to know what is.

Lincoln and his party being therefore in favor of the Abolition of Slavery, and being, moreover, as the more bold among them tell us, determined to carry out their programme in spite of all obstacles, it becomes us to inquire into the effect of the policy they propose for the government of the country. Their leading idea is the "EXTINCTION OF SLAVERY," the absolute liberation of every slave in the South, the setting free of four millions of negroes who are now held as slaves.

Does any one suppose that these negroes, if set free, would remain in the South and work for their late masters for wages? Some of them might, but the most of them would not. Suddenly freed from all restraint and placed in a condition of freedom which they could not appreciate, they would flock to the North, erroneously believing that here they could live without labor and attain a degree of consideration and comfort which they could never know in their old home.

In the general stampede of Southern negroes that would follow the extinction of slavery, Pennsylvania would be overrun.—She would get off well if she escaped with fewer than five hundred thousand of them.—Lying right on the edge of the slave line, they would swarm over her hills and through her valleys, not leaving an acre of her soil untrampled by them.

As citizens of Pennsylvania and white working men of the North, we object to having our places usurped by liberated slaves.—Therefore we oppose the election of LINCOLN, whose programme embraces the Abolition of Slavery and the spread of free negroes over the Northern States. We call upon our mechanics and workmen, as they value their own welfare and wish to maintain their dignity as free white laborers, and not permit themselves from the degrading and injurious competition of free negro labor, to vote for and against the Abolition party, of which ABRAHAM LINCOLN is now the chosen representative.

Our State is far from being lost. If the Democracy throughout the different counties go to work and determine to increase their majorities, all may yet be well. A change of 17,000 votes will give us the State. What party will Adams contribute in creating that change? By the way, had all the counties in the State done as nobly as Adams in the late contest, the result would have been far different. The Democracy there deserve much credit, and while I deeply regret the defeat of two excellent candidates, I cannot but express joy at the success of the rest of the ticket. A little more effort and the whole ticket would have been elected. When, however, we recall the desperate efforts made to defeat Messrs. Picking and McIntire, and the dishonorable means resorted to, to accomplish that end, any other result was scarcely to be anticipated. While great credit is due to the Democracy for their efforts in accomplishing the election of an large a portion of the ticket, great credit is likewise due to the Star and Sentinel in obtaining that result.—Their persistent abuse and bitter personal attacks did much towards strengthening the power of reflex action.

I have written more than I designed and must close. Truly yours, PAUL.

Democrat, Rally Against the Enemy.

A cordial rally of the whole Democratic party may, by zealous and well-directed efforts, enable us to turn back the foul and turbid tide of Black Republicanism. It is, at all events, worth a trial. One battle does not, as it did in Pagan times, decide the fate of a nation. One defeat did not conquer Washington, and induce him to renounce the Revolutionary struggle. He persisted after successive disasters and for seven years, until success crowned his efforts. We owe it to our country, as patriots, to oppose this formidable enemy. The more formidable it is, the more dangerous it is, and the more important does it become to oppose it. We cannot crush it at once, and in the next election, we may at least cut it down and diminish its numbers. To retire before it would be cowardly. Then up at the enemy like men and patriots. Let us plant our flag and battle fearlessly for the Constitution, the Union and the Democratic party. Let us to work and remember that the "darkest hour is just before the dawn of day."

The Wide Awake Gun Captured!

Although the Wide-Awakes have won the grand battle, they came off "second best" in some of the minor skirmishes. For example, they were badly beaten in Berks, and one of the results of that defeat was the loss of their cannon—the handsome little brass piece that has barked so loud and snarl at all the Wide-Awake meetings, parades and justifications in general, that have disturbed the peace and quietness of our city for the last month or two. The owners of the cannon, with more real than knowledge, offered it as a wager against \$20 that the Opposition candidate for Probationary would be elected. They were promptly taken up by Mr. Wm. Rhoads, jr., a Democrat whose true pluck won't be stamped, and we need not add that Mr. Rhoads was the gun! The Wide Awakes were, for once, caught napping. They surrendered with as much discretion as they could muster, and the prize now adorns a conspicuous shelf in the "Old Jail" store. It has been thoroughly cleaned from the soot of Black Republican powder, and will be reserved for the better use of celebrating future Democratic triumphs. When the Wide Awake inquires "who shot the dog?" would it be considered impertinent to ask them to return, "who lost the gun?"—Reading Gazette.

The Star is forced to admit that Hamlin, who is the Abolition candidate for Vice President, did vote against the Homestead Bill, but endeavors to "let him down" by declaring that he "was then a locust." This is a most humiliating acknowledgment, and only takes Hamlin "out of the frying pan to put him into the fire." The Star managers must keep a closer watch over the columns of that paper.

Democratic Success in Dauphin.—In the midst of the general disaster, the Democracy of Dauphin have achieved a local triumph of which they may be proud. They have elected Mr. Lewis Heck, a firm Democrat, to the Legislature, over John Wallower, Jr., and helped to elect Jacob D. Boss, Esq., Independent, Sheriff, over Jacob D. Hoffman, the Republican candidate. This is a signal and deserved rebuke to the leaders and managers of the Republican party in that county.

Letter to The Compiler.

PHILADELPHIA, Oct. 24, 1860.

MR. EDITOR:—Presuming that a letter from this city may not be altogether unacceptable to some of your readers, I have concluded "to drop you a line." The only subject at present claiming attention here is politics. It is the all absorbing theme and those who are either unable or unwilling to appreciate and discuss it must depend on little to interest and amuse them.

The Democracy of the city are preparing to conduct the remaining part of the campaign with much greater earnestness than was before exhibited. The result of the recent election has taught them a lesson, the good results of which will not be lost. Unless the "signs of the times" prove altogether deceptive, our majority here will be largely increased; and this opinion, I assure you, is based upon authority derived from reliable sources. By the expenditure of large sums of money and a resort to other means, the Opposition succeeded in getting a much larger vote here than was anticipated, but their plans are now fully understood and will be frustrated in November.

The recent withdrawal of the Douglas Electoral ticket is regarded as an extremely propitious and as indicating a determination on the part of the Democracy to join hands against the common enemy. The course pursued by Jan. W. Forney and his venal hirelings, in supporting Curtin, is regarded by both wings of the party as a virtual acknowledgment of their having gone into the camp of the enemy, and many of those whom they wished to lead with them, openly denounce the traitors, and will labor earnestly for the success of the Reading Electoral ticket.

Our State is far from being lost. If the Democracy throughout the different counties go to work and determine to increase their majorities, all may yet be well. A change of 17,000 votes will give us the State. What party will Adams contribute in creating that change? LOCAL MATTERS.

AN EARNEST CALL.

Our financial affairs have been, to some extent, neglected, for the past five or six weeks, and, as a consequence, obligations have accumulated on our hands—among them a heavy paper bill. These debts we must now meet, and to do so, a call upon our delinquent patrons is imperative. Will not our friends except those who wish to be left in the lurch, give us "a lift" without delay?—especially those whose accounts have been running for some years. If such indebtedness may be a part, we should soon feel ourselves comfortably "out of the woods." We cannot afford to keep up week after week, and year after year, paper, type, ink and labor, without an occasional "paying up" on the part of our patrons. We, therefore, indulge the hope that all indebted for subscription, advertising and jobbing will see the propriety of immediately furnishing us with "material aid," and act accordingly.

To such as pay promptly, we renew our thanks—earnest, heart-felt thanks—and commend their example to all others for imitation.

PROPERTY SALES.

MR. GEORGE BRUNN, on Monday last, purchased the farm of Mr. ISAAC T. SCHAEFER, in Cumberland township, for \$6,000—170 acres.

MR. JOHN RIMMART has purchased the property of Mr. GEORGE BUSMAN on the York turnpike, for \$2,000, cash—about 20 acres.

MR. BARRON has bought the farm of Mr. JOHN SOKER, in Mount Pleasant township, for \$2,200, cash—118 acres.

MR. PHILIP DORRICH has purchased a new brick house (not quite finished) and lot of ground, of Mr. JOHN HARRERT, in New Oxford, for \$1,475, cash.

MR. HENRY STRIMCOCK, of Franklin township, placed on our table, one day last week, a mammoth Turpie, measuring 20 inches in circumference and weighing four pounds, strong! This is the "whopper" of the season. Can anybody beat it?

B. W. RILEY, Esq., formerly of this county, has been appointed Postmaster at Middleburg, Carroll county, Md., in the place of John Cross, resigned.

A Demagogue in a Tight Place.

John Covode, a representative in Congress from the State of Pennsylvania, who attained some notoriety by his unjust and persistent attacks upon the administration, got into a very tight place week before last while making a speech at Kittanning. During his speech, his friend, Dr. Burchleigh, suggested: That he, Covode, had been charged with writing letters to Republicans prior to the primary election, soliciting their aid in securing his nomination. In answer to this Covode solemnly raised his right hand, and said:—"SO HELP ME GOD, I never wrote to, or aided any person, or gave any money to any one, in Armstrong county, to secure my nomination." He had scarcely uttered this impious oath, when A. J. Elliott, Esq., deputy sheriff of Armstrong county, who was standing in the crowd, rose and pronounced the assertion of Covode false, stating that he (Covode) had written to him (Elliott) to aid in securing his nomination. Mr. Elliott subsequently produced the letter itself, in Covode's own handwriting, and made affidavit that the letter was sent by Covode to him about the first of May, directing a pass to go to the Chicago Convention. Mr. Elliott is a man of high standing in Armstrong county, and several prominent citizens of that county testify that his statements are worthy of implicit confidence.

Catholic Priest Murdered and Robbed.

The Clarksville Jeffersonian says that there has been a report in that place for several days, which seems to obtain a general credence, that the Rev. Mr. Mochell, a Catholic priest, who has been stationed in that vicinity for the past year, was brutally murdered in Stearns county, Tennessee, one day last week, and that he further stated that the murderers, of whom there were three, said his mule, which led to the discovery of the murder and the arrest of one or more of the wretches who perpetrated the crime.

St. Joseph, October 22.—California dates of the 10th inst., and Oregon of the 7th inst., have been received by the pony express. On the 8th inst., news reached San Francisco by telegraph that the Oregon Senatorial election took place on Salem on the 22d inst. On the 10th inst., J. Nesmith, a Douglas Democrat, was elected for the long term, and E. D. Baker, Republican, for the short term, five years, by a union of the Republicans and Douglasites, against the Democrats. Baker is a non-intervention Republican, with views similar to Eli Thayer. Mr. B. received 26 and Mr. Nesmith 27 votes.

The Prospect in New York.

In a letter written by the eloquent Chas. O'Connor, Esq., of New York, on the 8th inst., to a friend in Tennessee, the following paragraphs occur: "We feel morally certain of defeating the Black Republicanism in this State. That accomplished, the failure of the candidates is inevitable. We have laid all our party feet except those which bind us to the Constitution and secure its inviolability to secure truth that if New York can be saved the whole country will be safe and have written upon our banner 'Union for the sake of the Union.' All the conservative men of our State are now united in the support of a single electoral ticket."

Some of the English papers are fairly glowing over the prospects of the election of Lincoln. A sectional President they think will work the much desired destruction of the United States Government. The London Chronicle very accurately says: "Elect Lincoln, and the first blow to the separation of the United States is given."
