The Landlord's Appreciation of Musk.

A gentleman and lady were travelling in Michigan, and having missed the stage, were compelled to take a private conveyance from the town of Souderi to Thomastown.—The lady had with her a beautiful lap dog, which she carried in her lap on an embroidered mat. During the ride the husband discovered that he had no handkerchief, when the lady lent him hers, which was fashionably scented with musk. About half way between the two towns the carriage broke down, in the midst of a dark rain, and they were obliged to take refuge in the half way house—a "one horse" log tavern, consisting of two rooms—a bar-room and lodging-room. The lady laid her lap-dog on its mat before the fire, and herself and husband took seats. In a short time the gentleman had occasion to use his handkerchief, and took it out, leaving it on his knee when he got through with it. In a few moments the landlord opened the door, put his head in, looked around, went out, came in, gased at the dog—his nostrils all the time up-turned in intense disgust. He finally appeared satisfied, went to the outside door, opened it, came back with a bound, seized the lap-dog by the tail, and hurled him howling through the open door full ten rods into the forest. The wife fainted; the husband rose to his feet, terribly enraged, and wanted to know what he did that for?

"That's my dog," continued he, furiously.

"Don't care a cuss whose dog it is," said the man, gruffly and impetuously; "I ain't going to have no such blasted smelling varmint that's been fighting with a skunk around my tavern!"

The husband and wife vacated the house instantly, and proceeded on their way in the rain, with the fragments of their ill-used dog, who had got into such "bad odor."

☞Washington Irving used to relate the following story:—An old gentleman of the old school, a somewhat pompous patriot (belonging, if we remember rightly, to the order of "Cincinnati," or the "Washington Benevolent Society," and decorated with a white satin ribbon badge, on which was imprinted an engraved likeness of the Pater Patriæ,) was to be called upon at the end of the regular toasts to step out upon the balcony of the hotel, where "Fourth of July" was being celebrated, and address the clamoring crowd. Full of good spirits, good wine, and a good dinner, he did so step out: but at first his tongue clove to the roof of his mouth; presently, however, it loosened and he spake thus: "Fellow citizens of Pascack, Nyack and Kaklac, seventeen hundred and seventy-six years ago, General"——"Hold on," said one of his fellow-citizens, "you don't mean seventeen hundred and seventy-six years ago; you mean"——"Silence!" exclaimed the irate, muddle-headed orator, "I know what I mean! Fellow-citizens, as I was saying, when this fellow interrupted me, seventeen hundred and seventy six years ago, General Washington, whom I wear in my button-hole, died."

His Length in Sausages.—Jonathan Long, a gawky six-footer—commonly called "Long John"—when on his way to market, always stopped for his breakfast at the tavern of Major P. The Major observed that John was a tremendous eater, and looked crab-apples at him, until he was tired, in the hope of inducing him to get his breakfast elsewhere. But it availed not. Long John was on hand.

"Major," said he, "can't I have some sassengers for breakfast?"

"Yes," replied the Major, gruffly, "you can have them if we've got enough in the house." He then bawled to the house maid and on her appearing—"There, Betty," said he, "go take the measure of this man, and fry him his length in sausages!"

☞A Jersey paper—the Bridgeton Chronicle—notices an organization of young men in that town styled "Zouave Oddities," who have banded together for the purpose of cutting and splitting wood for destitute families this ensuing winter. With wood-sawing horse, and axe in hand, they "storm" the premises, and reduce the wood to stove size with an alacrity unknown to those who "hire" for pelf.

Letters from Independence, Mo., published December 6th, received here, report that the army of Montgomery's men are contemplating to "run off negroes."

A little boy returning from Sunday school said to his mother, "Ma, ain't there a place chalked for little boys?" "No sir-ee-bobtail," replied the mother, "what do you want?" "Why, ma," said the boy, "the teacher said there was a place chalked for little boys in the next world, and I want to know where it is."

"Sir," said the Editor of a paper to a subscriber who had called to settle his account, "I am sorry to say that I am unable to pay you the amount you have against me, as I am in the most destitute circumstances." "Well, sir," replied the subscriber, "I am sorry to hear it, but I am in the same fix myself."

Gettysburg Foundry.

THE subscriber, having purchased the Foundry of Messrs. Zorbaugh, Sloat & Co., (formerly Warrens' Foundry,) has commenced business, and is now prepared to offer to the public a larger assortment of Machinery than has heretofore been offered, such as THRESHING MACHINES, Clover Hullers, Fodders Cutters, Corn Shellers, and Morgan's late improved Horse Rake. Also, STOVES, such as Cook Stoves, three different kinds; and five different sizes of Ten-plate Stoves. Likewise Mill and Saw-mill Castings, and all kinds of Turning in Iron or Wood.

☞REPAIRING of all kinds on Machinery and Castings will be done to order on short notice. Patterns made to order: Plough Castings ready made; PLOUGHS, such as Seyler, Witherow, Plocher, Woodcock, and many others not mentioned here; and eight different kinds of IRON FENCING, for Cemeteries, Porches or Yards.

Also, Mortising Machines, one of the best now in use. This machine works with a lever by hand; any little boy can manage it.

Call and examine our stock; no doubt but what we can please. Persons ought to see it their advantage to buy machinery of any kind at home, where it is manufactured, so that they can very easily get any part replaced or repaired.

The Only Discovery

WORTHY OF ANY CONFIDENCE FOR RESTORING THE BALD AND GRAY.—Many, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Prof. Wood's preparation, and have been forced to leave the field to its resistless sway. Read the following:

Bath, Maine, April 18th, 1859.

Prof. O. J. Wood & Co.: Gents:—The letter I wrote you in 1856 concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous enquiries touching the facts in the case. The enquiries are, first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third, does my hair still continue to be in good order and of natural color? To all I can and do answer invariably yes. My hair is even better than in any stage of my life for 40 years past, more soft, thrifty, and better colored, the same is true of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when if care were used by wiping the face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it has, no doubt been basely imitated and been used, not only without any good effect but to absolute injury. I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face: and to prove this fact, I send you a lock of my hair taken off the past week. I received your favor of two quart bottles last summer, for which I am very grateful: I gave it to my friends and thereby induced them to try it, many were skeptical until after trial, and then purchased and used it with universal success. I will ask a favor, that you send me a test by which I can discover fraud in the Restorative, sold by many, I fear, without authority from you. A pure article will insure success, and I believe where good effects do not follow, the failure is caused by the impure article, which curses the inventor of the good. I deem it my duty as heretofore, to keep you apprised of the continued effect on my hair, as I assure all who enquire of me of my unshaken opinion of its valuable results. I remain, dear sir, yours. A. C. RAYMOND.

Aarons Run, Ky., Nov. 30, 1858.

Prof. O. J. Wood: Dear Sir:—I would certainly be doing you a great injustice not to make known to the world, the wonderful, as well as the unexpected result I have experienced from using one bottle of your Hair Restorative. After using every kind of Restoratives extant, but without success, and finding my head *nearly destitute of hair*, I was *finally* induced to try a bottle of your Hair Restorative. Now, candor and justice compel me to announce to whoever may read this, that I now possess a new and beautiful growth of hair, which I pronounce richer and handsomer than the original was. I will therefore take occasion to recommend this invaluable remedy to ALL who may feel the necessity of it.

Respectfully yours.

REV. S. ALLEN BROCK.

P. S.—This testimonial of my approbation for your valuable medicine (as you are aware of) is unsolicited:—but if you think it worthy a place among the rest, insert if you wish; if not destroy and say nothing. Yours, &c.,

REV. S. A. B.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

PRACTICAL CALCULATOR.

Rohrer's Practical Calculator,

A Book of plain Rules and Calculations for *Business Operations*, by MARTIN M. ROHRER, Practical Surveyor and Conveyancer. New Edition. Published by J. B. LIPPINCOTT & Co., Philadelphia.

THIS Work contains 204 pages, and upwards of 500 Rules and Examples, entirely and thoroughly PRACTICAL, such as arise every day in the common pursuits of Business. It has already passed through a number of Editions in rapid succession, and is pronounced by all classes of business men to be the HANDIEST BOOK OF REFERENCE, pertaining to calculations, that has ever been published.

Every Example in the book IS WORKED OUT IN FULL, and stated in a plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in readily solving it; in a word, the general arrangement of the CALCULATOR is so simple, that any one who knows how to ADD, SUBTRACT, MULTIPLY, or DIVIDE, can easily solve any ordinary example that arises in business, or arrive at the true result of any estimate required.

The chief aim of the author has been to eschew theory and philosophy in figures, aiming only at facts and simplicity, believing that business men care little about spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able AT A MOMENT, by reference, to arrive at the TRUE RESULT. The CALCULATOR differs in this respect from all Arithmetics of the day and kindred works—it is a key to practical business calculations—it is, in the hands of the business man, what the key to mathematical works is in the hands of the teacher in the school-room—it facilitates time and correctness.

The Work treats of the Measurement of Land, of Lumber, of Brick and Brick Work, of Stone & Stone Work, of Grain and Grain Bins, of Coal & Coal Bins, of Wood, of Solids, of Circular, Square, or Irregular Vessels, of Cisterns and Vats, of Roofing, of Plasterers', Painters', Glaziers', Pavers', Plumbers', Paper Hangers', and Upholsterers' Work. It treats of Currency and of Foreign and Domestic Exchange, of the Decimal System, of Reduction and its extended application to Business, of Simple and Compound Interest, and their entire application to Business transactions, with the laws and usages governing and regulating the same, together with numerous commercial Forms,—of Legal Tender, of Partial Payments on Notes, of Banking and Bank Discount, of Equation of Payments and of Partnership Accounts, of Assessment of Taxes, of Weights and Measures, of Square and Cubic Measure, of the Square Root and its Application to Business, of Surface, or Excavation, and of many other important practical matters not within the scope of an advertisement to mention.

It is just the Book for the Farmer, the Mechanic, the Artisan, or the Professional man. It has proven a valuable auxiliary to the Lawyer, the Justice of the Peace, the Conveyancer, and Real Estate Broker, to the Assessor, the Banker, the Clerk, to the Civil Engineer and the Surveyor, to the Carpenter and Bricklayer, to the Stone Mason and the Plasterer, to the Paper Hanger and Upholsterer, to the Paver and the Tiler, &c., &c.; each and all will find it adapted to their various wants better than any book published.

Sixpence a Day,

ENOUGH FOR A FORTUNE.—A London paper states:—There is now in an Almshouse at Bristol an old man who states, that for sixty years he spent sixpence a day in drink, but was never intoxicated. How much would this sixpence a-day put by every year at five per cent. compound interest amount to in sixty years? enquired a thoughtful neighbor. Putting down the first year's saving (365 sixpences) equal to $43 54, he added the interest, and this went on, year by year, until he found that in the 60th year, the sixpence a day reached the startling sum of $14,336 28. Judge of the old man's surprise, when told that by saving his sixpence a day, and depositing it in a Savings Institution he might now, at the end of 60 years, have been worth that noble sum $14,336 28, which would have bought him a fine farm, or town residence, and surrounded him with comforts and luxuries, and left a handsome estate to his children after him. He had, and hundreds now in our midst have, but to deposit sixpence a day in the FARMERS' AND MECHANICS' SAVINGS INSTITUTION OF ADAMS COUNTY, to accomplish this result.

Dr. Mott's

CHALYBEATE RESTORATIVE

PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case.

Invaluable in all maladies in which it has been used, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bedridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for *Piles*, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costiveness.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by druggists and dealers. Will be sent free to any address on receipt of
