ter I wrote you in 1836 concerning your valua-ble Hair Restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous enquiries touching the facts In the case. The enquiries are, first, is it a fact of my habitation and name, as stated in the communication ; second, is it true of all therein It Toll contained ; third, dues my hair still continue to be in good order and of natural color? To all I can and do answer invariably yes. My hair is even better than in any stage of my life for 40 years past, more soft, thrifty, and better boldred; the same is true of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequen abguion of the fice, when if care were used by wiping the size in close connection with the whiskers, the same result will follow as the hair.' I have been in the receipt of a great pumber of letters from all purts of New England, Asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it fas, no doubt been basely mitated and been used, not only without any good effect, but to absolute injury. I have not used any of you Restorative of any account for some months and yet my hair is as good as ever, and hun dreds have examined it with surprise, as I am how 6] years old aud not a gray hair in my head or on my face! and to prove this fact. I will ask a favor, that you end me a test by which I can discover fraud in the Restorative, sold by many, I fear, with-out authority from you. A pure article will insure success, and I believe where good effects do not follow, the failure is caused by the impure article, which curses the inventor of the good."
