By Saturday's Mails.

WAR NEWS.

☞From Washington, we have a semi-official contradiction of the sensation story current here on Friday, to the effect that a battle had been fought on the Potomac, and disaster to the Union cause had resulted.

☞By way of Fortress Monroe we have rebel papers of Wednesday last. The rebels state that our forces only took 7,000 prisoners at Fort Donelson, and that Floyd saved all of his command except the Thirtieth Mississippi regiment, and the Guy and Jackson batteries. Senator Simms, of Kentucky, offered a resolution in the rebel Congress, which was referred to the Committee on Military Affairs, pledging the last man and the last dollar, for the purpose of prosecuting the war till their independence is acknowledged.

☞It is reported that the rebel troops still hold Cumberland Gap, but they expect an early attack from our forces. The communication between Fort Pulaski and Savannah has been entirely cut off by our forces, who have erected three heavy batteries. The cotton and tobacco planters have held a meeting in Richmond for the purpose of consulting together about destroying the crops before they fall into Federal hands. No action was taken; but we see that a bill has been introduced into Congress compensating all those who burn their crops for "patriotic reasons." All the prisoners captured at Roanoke had arrived at Raleigh, having been released on their parole.

☞General Nelson is in command of our forces at Nashville, General Buell being still on the north bank of the river. It is said that Governor Harris was driven out of Nashville by the Union men, the latter having become bold at the near proximity of our forces.

☞A despatch from St. Louis informs us that the Memphis papers of the 19th state that General Polk had issued orders the previous day that the Memphis and Ohio Railroad should be torn up and the bridges destroyed preparatory to the evacuation of Columbus and the demolition of its fortifications. The troops were to fall back to Island No. 10, on the Mississippi river, a place said to have strong natural positions, and one that can be impregnably fortified. No doubt this news is true, as the movements of Generals Halleck and Buell's armies have made the evacuation of Columbus a military necessity on the part of the rebels.

☞The Governor of Alabama has called for twelve more regiments, which must be obtained. The Governor of Georgia also calls for twelve regiments, and states that, if the requisition is not filled by the 4th of March, a draft will be ordered.

☞A private letter received in Washington from Paris states that Yancy has left for Alabama, via Havana, taking with him a large supply of cheap but durable goods, for the clothing of negroes. It is stated that he is fully satisfied that none of the great Powers of Europe will recognise the Confederate Government.

☞Gen. Halleck has issued a general order, threatening to hang all persons found guilty of poisoning food, as in the case at Muldrown, Arkansas. Officers of rebel forces guilty of such acts will be put in irons.

Great Fire at Boston.

Boston, February 25.—A fire, which occurred here last night, was one of the greatest ever known in Boston. It burnt from ten o'clock to three this morning. The gale from the north west was blowing heavily, with snow and hail, and the firemen had a severe night of it. Two firemen were killed by falling walls, and one was badly injured. The entire range of buildings on the north side of Easton avenue from Commercial street to Water, including East Boston, Old Ferry slip and the large, six-story building known as the Exchange Hotel, with 800 bales of cotton, were destroyed. Five vessels at the wharf were towed out and saved. The total loss is probably half a million. Some estimates are higher.—During the night the tower of the Roman Catholic Church, East Boston, was blown down.

☞Forney's *Press* says:—The purpose of the allied intervention in Mexican affairs has been construed in some quarters to mean something more than mere conquest of the unhappy republic. The Washington correspondent of the New York *Evening Post* says: "It is suspected at the State Department that the purpose of those Powers, after having got complete possession of Mexico, is to operate against this Government, and in favor of rebellion from that point. It is further believed that the rebel commissioners in Europe are in favor of the allied occupation of Mexico, with the understanding that the new Government which is to be constructed will acknowledge the independence of the Southern Confederacy."

Uncle Abe.—A good story is told of uncle Abe and Col. Weller:

"Mr. President," said Col. Weller, "I have called on you to say that I most heartily endorse the conservative position you have assumed."

President, "I am heartily glad to hear you say this."

"Yes," said Weller, "I desire an appointment to aid in this work."

"What do you want?" asked Abraham.

"*I desire to be appointed Commodore in the Navy,*" said Weller.

The President replied—"Colonel, I did not think you had any experience as a sailor."

"I never had, Mr. President," said Weller; "but, judging from the Brigadier-Generals you have appointed in Ohio, the less experience a man has the higher position he attains."

Boiled Potatoes for the Army.—The Portland *Transcript* says that an establishment is in operation in that city, under a contract from Government, for putting up boiled potatoes for the use of the army. Fifty girls are employed in peeling the potatoes, after which they are washed and put up in air-tight cans.

☞The first execution under the laws of the United States, enacted more than forty years ago, punishing the slave trade as piracy, took place at New York, on Friday week. Capt. Gordon, of the slave ship *Erie*, tried and convicted of being engaged in the slave trade, was hung in the Tombs in that city on that day.

☞Ladies who have a disposition to punish their husbands should recollect that a little warm sunshine will melt an icicle sooner than a regular north-easter.

A Hard Fever and a Tough Story.—A friend in describing an attack of fever, said: The cold stage was so violent as to shake off the plastering; the hot stage so intense that the laths took fire, and he should certainly have perished in the flames, had not the profuse perspiration which followed extinguished the fire.

A Poser.—An exchange proposes the following: "We understand that Gen. Rosecrans has gone to Wheeling Virginia. Can he take it all at one load?"

☞A man advertises for "competent persons to undertake the sale of a new medicine," and adds that "it will be profitable to the *undertaker*." No doubt of it.

☞Orphan's Court to-morrow.

Special Notices.

Ayer's Sarsaparilla is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt Rheum, Scald Head, Syphilis and Syphilitic Affections, Mercurial Diseases, Dropsy, Neuralgia or Tic Doloreux, Debility, Dyspepsia and Indigestion, Erysipelas, Rose or St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with the pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass. PRICE $5 CENTS PER BOX.—FIVE BOXES FOR $1.

For sale by A. D. BUEHLER, and dealers every where. [Feb. 10, '62. 2m

DISEASES OF THE LIVER.—You may always know when your liver is out of order, or when you are what is called bilious, by any of the following symptoms: pain in the side and back, dizziness, dull headache, a bad taste in the mouth in the morning, sallow-colored complexion, yellowish tint in the eyes, costiveness, or diarrhœa of slimy dark color, low spirit and dismal forebodings. It is acknowledged by all physicians and others who have seen their action, that JUDSON'S MOUNTAIN HERB PILLS are a perfect cure for all bilious affections. So pleasantly do they search out and drive away the seeds of disease, that all persons living in a country where Fever and Ague, and all other bilious diseases are prevalent, will find they should never be without them. From two to four Pills each night on going to bed, will in a short time drive away the sickly yellow look of bilious persons, and bring to their cheeks a beautiful glow of perfect health. Judson's Mountain Herb Pills are sold by all Dealers in Medicine. [Feb. 24. 1m

GREAT DISCOVERY!—Ample tests, both by able practitioners and chemical analysis, have demonstrated the great value of Prof. De Grath's beautiful combination, called "ELECTRIC OIL," for the relief and cure of pain.—But the people themselves are rendering their verdict in a manner both unmistakable and satisfactory. More than two million bottles have been sold in a very short time—a great proportion of those who heard others recommend it, who had tried it. That it's a splendid discovery is every where acknowledged, and nothing like it was ever before prepared. The only genuine Electric Oil is Prof. De Grath's, which is to be had at all the respectable Druggists in the cities, and at wholesale and retail, at the proprietors' prices of the agent here. See advertisement.

☞SHEADS & BUEHLER'S store is well worthy a visit just at this time. We doubt whether, even in our largest cities, so fine a display of Stoves can be found. Their large room is full of Stoves of every pattern; also, every variety of Hollow Ware, Sheet-iron Ware, Tin Ware, Planished Ware, Japan Ware—embracing, indeed, everything in the house furnishing line. Also, Sausage Cutters, Sausage Stuffers, Lard Presses, &c., &c. They are prepared to sell wholesale and retail, Tin Ware and Sheet-iron Ware of their own manufacture—keeping a sufficient number of hands to supply any demand. Their assortment of Lumber is very large: also Coal of every kind.

$25!! EMPLOYMENT! [$75!
