AN IMPORTANT CASE.

The Rights of the Public on Side-Walks.—An important case has recently been decided by Judge Butler, in the Chester county Courts, relative to the rights of persons on side-walks. In the case damage was claimed by Plaintiff for the death of his son, caused by falling into a cellar, the opening of which was on the premises of the defendant and in front of the property along the side walk. Judge Butler addressed the Jury as follows, defining the rights of the public and the responsibility of property holders:

One owning property along a public street or highway must so use it as not to interfere with public travel, or endanger the safety of travellers. For the purposes of his business or to improve his property, he may place obstructions on the street, or may dig a pit therein; but if he do so, it is his duty to guard it by fences, covering or otherwise, as will protect the public against the danger of accident in regard thereto; and if he fail in this, and an individual be injured thereby, without *carelessness on his own part*, such owner of property shall be responsible in damages to the extent of the injury sustained. If a man build his house a few feet back from the line of the street, as in the case before us, pave the ground in front of it, and throw it all out to the public, he for the time, and until he recalls, giving the public a license to travel thereon for the time being, makes it part of the street; and in regard to it he is required to observe the same care for the public travel as respects cellar ways or openings therein as if it were a part of the highway as laid out by law. But more than this, if a man dig a pit on his own land, close along side of a public highway, even without throwing the ground, wherein it was dug, out on the public travel, (as by paving it in connection with the street) and leaving it, without proper guards to protect travellers from the risk of injury, he is guilty of such carelessness as will make him responsible to any one who may be injured by falling or driving therein *without fault* of his own.

We therefore charge you, gentlemen, that for the defendant to make, or maintain, an opening from the basement or cellar of the building occupied by him, extending out into the travelled way, in front of the same, without proper guards or covering, to persons falling therein, and being injured, would be carelessness—such disregard of his obligations to the public as would subject him to an action for damages, which might be sustained thereby.

☞Mr. Collamer disclaimed being one of a committee to attempt to dupe the people by making such a bill as the Senator from Massachusetts accused him of. He thought this rather discourteous, and that there had been a great deal of domineering here, like the crack of a slave driver's whip.—*Remarks in Congress.*

Mr. Collamer has hit upon the right expression, and applied it rightly. In spite of all that has been said on the Abolition side about "the crack of the slave driver's whip," the lash never was used more cruelly or authoritatively than these same Abolitionists in and out of Congress have used it, on all those—Democrats and Conservatives—who did not and do not choose to bow down to the negro idol.

It was, and is, torture to good and true men—conscientious patriots—to be called "traitors"—but what are the drivers of the Abolition juggernaut? Their compassion is not for the white man, nor for our bleeding country: nor are any sufferings but those of the negro worthy of a mitigating thought, in their opinion!—*Patriot & Union.*

☞Among our men who fought for the Union at Pittsburg Landing, was Henry Clay—grandson of the illustrious Statesman—a son of Henry Clay who fell at Buena Vista. It is not always that great men have their talent or patriotism reflected in their off-spring. But the gallant Harry of the West still lives in the lovalty of some of his descendants. Daniel Webster's son Fletcher, is also in the Union service.—*Republican Paper.*

If the Republican party had listened to the counsels of Clay and Webster years ago, the country would now be prosperous and happy, and there would be no occasion for the sons of those great men, nor of any body else's, per ling their lives, and pouring out their blood on the battle field. We are paying dear enough for negro philanthropy and sectional agitation.—*Carlisle Volunteer.*

☞The Washington correspondent of the New York *Evening Post*, in a letter dated the 21st ult., says:

"The news made public to-day of the sharp fight at M'Dowell, Virginia, and the advance of the rebels up the valley toward Winchester, shows plainly why General Banks moved back thirty miles upon Strasburg. To have remained longer at Harrisonburg would have ensured his capture.—We have the old story—the rebels outnumber our forces here as well as at every other point. There is some dissatisfaction, I hear, in official quarters at the apparent lack of effective troops when such an enormous army is on the pay-rolls. Six hundred thousand men are *paid for* every month, and if less by one hundred thousand can be found it follows that somebody pockets the money. It is said to be impossible to ascertain the number of troops actually in the service. This is the reply of the War Department to Congress when information upon the subject is asked for. The size of the army *on paper*, according to the pay rolls, is easily ascertained, but the actual number in the field it is very difficult to learn."

☞The Emancipationists all speak of the Abolition of slavery as if it were to be a punishment of the South. We firmly believe that in the end it would prove to be a greater "punishment" to the North.

☞There was great excitement in Baltimore on Monday last, and some violence, but the police force was increased, and order soon happily restored.

☞"Fraud upon the Treasury is Treason against the Government." The above is printed in capitals at the head of the speech of Mr. Van Wyck, Republican M. C., from the State of New York. If that is so, we have only to say that *traitors* are quite abundant.

The Sham Union Movement.—D. S. Dickinson characterizes the pretended Union movement, got up by the N. Y. Legislature, in a happy phrase. He says he found the mock Union men "were engaged in drawing and shading a doctrinal platform—seeing how far they could depart from the Republican creed without missing it, and how near they could come to the Democratic principle without hitting it."

☞The President, *in virtue of an Act of* Congress, has taken military possession of all the Railroads in the United States, and notifies the officers of said roads to hold themselves in readiness for the transportation of troops and munitions of war, to the exclusion of all other business.

☞The Homestead Bill has passed both Houses of Congress and has been signed by the President. It is therefore a law of the land.

☞Old uniforms made of "shoddy" are in demand, to be manufactured into blotting paper. We doubt if they will ever blot out the remembrance of the sins of certain contractors.

Purify the Blood.—Not a few of the worst disorders that afflict mankind arise from the corruption that accumulates in the blood. Of all the discoveries that have been made to purge it out, none have been found which could equal in effect AYER'S COMPOUND EXTRACT OF SARSAPARILLA. It cleanses and renovates the blood, infuses the vigor of health into the system and purges out the humors which make disease. It stimulates the healthy functions of the body and expels the disorders that grow and rankle in the blood. Its extraordinary virtues are not yet widely known, but when they are it will no longer be a question what remedy to employ in the great variety of afflicting diseases that require an alterative remedy. Such a remedy, that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Our space here does not admit certificates to show its effects. But the trial of a single bottle will show to the sick that it has virtues surpassing anything they have ever taken. Sufferers from Scrofula, Scrofulous Swellings and Sores, try it and see the rapidity with which it cures. Skin Diseases, Pimples, Pustules, Blotches, Eruptions, &c., are soon cleaned out of the system.

St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ringworm, &c., should not be borne while they can be so speedily cured by AYER'S SARSAPARILLA.

Syphilis or Venereal Disease is expelled from the system by the prolonged use of this Sarsaparilla, and the patient is left as healthy as if he had never had the disease.

Female Diseases are caused by Scrofula in the blood, and are generally soon cured by this Extract of Sarsaparilla. Price $1 per bottle, or 6 bottles for $5.

For all the purposes of a family physic, take Ayer's Cathartic Pills, which are everywhere known to be the best purgative that is offered to the American People.

DYSPEPSIA.—This is a very distressing complaint, and gives the patient more suffering than almost any other disease: in fact, it is a combination of many complaints in one. The symptoms are numerous, and are of the nature of almost all other complaints combined.—From this fact arise the very many cases where the disease is mistaken for some other, and so improperly treated. The first symptoms—indigestion, flatulency, loss of appetite, heartburn, headache, etc., if neglected, almost always awaken some dormant disease, and send the poor sufferer to a premature grave. What you must first do is to cleanse the blood and regulate the bowels; do this with the "Mountain Herb Pills," and you can bid defiance to dyspepsia. Judson's Mountain Herb Pills are sold by all Medicine Dealers. [May 26. 3m

LABOR SAVING WASHING MACHINE.—The undersigned is now building and offering for sale, G. W. TOLHURST'S IMPROVED WASHER, at Gettysburg, and intends to supply them to those persons throughout the county who desire a labor-saving machine.

This machine is gotten up on an entirely new principle, and is considered by those who have seen it in use, the best that has ever been brought before the public.

Among the many advantages of this machine over all others may be mentioned the following:

1st. Its simplicity of construction, making it almost impossible to get out of order.

2d. Its speed, which astonishes alike the operator and the looker on.

3d. The facility with which it adapts itself to the bulk or quantity of clothes desired to be washed.

4th. It washes equally well the finest and lightest fabric, or the coarsest and heaviest, such as bed-quilts, comforts, blankets, &c.

5th. Can be managed by a child from 10 to 12 years of age.

6th. Consumes ½ less soap than any other process of washing.

7th. Will last as long as any other tub with same care.

8th. Saves half the labor.
