(\$2,500,000,000) which sum, it is fair to presume, Mr. STEV-ENS and his fellow-members of the Committce of Ways and Means estimated the public debt would amount to by the time the assessment and collection of the tax could be

made.

If we are wrong, we trust some Republican editor, of financial proclivities, will set us right, and show why a tanof \$150,000,000 was levied to pay the interest for one year on a debt of \$500,000,000. According to our notion of figures this is reckoning interes at 30 per cent., and, therefore, looks like rank usury!
