Frightful Railroad Accident.

MIRACULOUS ESCAPE OF THE PASSENGERS —HEROIC CONDUCT OF THE ENGINEER.

The passenger train due at Harrisburg on Saturday morning on the Penn-sylvania Railroad did not arrive until evening about five o'clock. It left Pittsburg on Friday afternoon nearly an hour after its usual starting time, owing to some detention on the connecting railroads, but everything seemed right until they arrived near Lilly station, some eight miles from Cresson, where the train was brought to a stop by the announcement that a freight train was on the track some two miles ahead. The passenger train was drawn over the mountains by two large locomotives, and in front of the passenger train was a very large freight train standing on the track on a high grade. It was drawn by a very large locomotive in front and another of the same class was pushing it in the rear.

The front locomotive had been detached from the train in order to aid the freight train ahead on the track, and the rear locomotive was also detached and taken down the grade in order to shift it on the other track. While this process was going on and when the rear locomotive was nearly down the grade and in front of the two locomotives drawing the passenger train, the engineer on the backing locomotive, Mr. Powell Sharp, discovered that the whole train was in rapid motion coming down the steep grade on his locomotive and the cars filled with passengers. He reversed his engine in an instant and rushed up the grade in order to meet the freight cars and stop their descent if possible. In this he was partially successful, but after a slight check of the freight cars the whole train came down on the passenger train, demolishing the locomotive with which Mr. Sharp had checked the progress of the train and also the two locomotives which were drawing the passenger cars.

This occurred about twelve o'clock on Friday night in the middle of the mountains, or rather a wilderness, and the scene can be easier imagined than described. The passengers in the train, mostly asleep in the dead hour of the night, were thus suddenly aroused and thrown from their seats violently, and yet wonderful to relate, a few of them were only slightly scratched about the face. These injuries were mostly sustained from the irons which are placed on the back of the seats on which the passenger rests his head.

The three locomotives were almost completely demolished. The passengers on the train took up a collection which reached five of six hundred dollars, to purchase a testimonial for Mr. Sharp, the engineer for his heroic conduct.—*Telegraph.*

GREAT FIRE.—*Destruction of the Second Largest Saw-Mill in the world, and about Four Hundred Thousand feet of Lumber.*—About half-past twelve o'clock on Saturday night the immense saw-mill of Langdon, Divin & Co., at the west end of this borough, commonly known as the "Big Water Mill," was discovered to be on fire, and before the flames could be checked it was burned to the water's edge, together with about four hundred thousand feet of sawed lumber. The night was excessively cold, and it was only by the utmost exertions that our firemen and citizens could prevent the flames from extending further into the millions of feet of boards piled upon the acres adjacent. The flames spread over the mill and consumed it so rapidly that an attempt to save any part of it or its contents was not to be thought of. The effort was made to save the sawed lumber on hand, and it was remarkably successful. So great was the light caused by the conflagration that the streets of the town were illuminated in every part, and at Sunbury—forty miles distant—the light was plainly visible upon the clouds. The mill extended from the north bank of the river to an island, and contained about one hundred and fifty saws. In size it was probably the largest saw-mill in the world, and its number of saws the second largest in the world. The loss is estimated at $50,000. The property destroyed was partly insured. All parties present agreed that the fire was the work of an incendiary. —*Lycoming Gazette.*

DEATH OF ADMIRAL LAVALETTE.—On Tuesday evening, at the residence of his son-in-law, in Philadelphia, died Rear Admiral Elie A. F. Lavalette, U. S. N. in the seventy third year of his age. His actual service amounted to more than fifty years since he entered the navy as a sailing master, June 25, 1812, being appointed from Pennsylvania, though a native of Virginia. On February 28, 1849, he was commissioned as captain, and during the Mexican war, in 1847, he commanded the frigate Congress, and, with the Portsmouth likewise under his command, captured the town of Guaymas, near the head of California Gulf. In the capture of Mezatlan, late in the same year, he also assisted, and became Governor of the town. In the year 1859 he was last at sea, and in the recent organization of the navy was made a rear admiral on the retired list. His death will be much lamented by both his civil and professional brethren.

☞By the steamer Persia, arrived at New York, we have three days later advices from Europe. She left Liverpool on the 8th instant and Queenstown on the 9th. Some of the papers were again giving currency to mediation rumors. The Paris correspondent of the London Times gives one to the effect that overtures have been or are to be made by France to the Russian Government, with a view to taking into serious consideration the state of affairs in America; the disastrous effects of the civil war on Europe generally; and whether the time has not now come for the Powers to make a move toward mediation or recognition of the Confederate States." The London Herald also gives currency to a similar rumor. The depredations of the pirate Alabama were engaging the attention of the Liverpool Chamber of Commerce.

☞The following decision has been made by the Commissioner of Internal Revenue, in regard to harness and upper leather:—1st. The tax on harness leather is seven mills, per pound, and is to be paid but once, whether the leather is tanned and finished by the same parties, in the same place, or by different parties, in different places. 2d. Finished or curried upper leather, except calfskins made from rough leather, hemlock tanned, or from rough leather, tanned in whole or in part with oil, on which rough leather the tax of seven mills, or one cent per pound, as the case may be, has already been paid, and is not subject to an additional tax in consequence of such finishing or currying, wherever the latter may be done.

LABOR SAVING
WASHING MACHINE—

The undersigned is now building and offering for sale, G. W. TOLHURST'S IMPROVED WASHER, at Gettysburg, and intends to supply them to those persons that about the country who desire a labor-saving machine.

This machine is gotten upon an entirely new principle, and is considered by those who have seen it in use, the best that has ever been brought before the public.

Among the many advantages of this machine over all others may be mentioned the following:

1st. Its simplicity of construction, making it almost impossible to get out of order.

2d. Its speed, which astonishes alike, the operator and the looker on.

3d. The facility with which it adapts itself to the bulk or quantity of clothes desired to be washed.

4th. It washes equally well the finest and lightest of bric, or the coarsest and heaviest, such as bed-quilts, comforts, blankets, &c.

5th. Can be managed by a child from 10 to 12 years of age.

6th. Consumes ½ less soap than any other process of washing.

7th. Will last as long as any other tub with same care.

8th. Saves half the labor.

May 12, 1862. S. SHERRY.

Certificate.

ADAMS COUNTY, PA.—We, the undersigned, hereby certify that we have used, and are using now, G. W. Tolhurst's Improved Washing Machine, and are fully satisfied that it is just the Tub Mr. S. Sherry represents it to be, and supersedes anything of the kind we have ever seen as yet; combining, as it does, great speed with little labor, and performing its work in the most satisfactory manner.

We, therefore, recommend it to every family in the county with great pleasure.

Fancy Furs!

JOHN FARBIRA, No. 718 Arch St., below Eighth, south side, Philadelphia, importer and manufacturer of and dealer in all kinds of FANCY FURS, for Ladies' and Children's wear. I desire to say to my friends of Adams and the surrounding counties that I have now in store, one of the largest and most beautiful assortments of all kinds and qualities of FANCY FURS, for Ladies' and Children's Wear, that will be worn during this Fall and Winter.

My Furs were purchased in Europe, previous to the rise in Sterling Exchange and the New Duty imposed on all Furs, imported since the first of August.

I would also state, that as long as my stock lasts, I will offer it at prices proportionate to what the goods cost me; but it will be impossible for me to import and manufacture any more Furs, and sell them at the same prices, owing to the unsettled state of the affairs of the Country.

☞Remember the name, number and street.

Godey's Lady's Book

FOR 1863.—GREAT LITERARY AND PICTORIAL YEAR.—The publisher of Godey's Lady's Book, thankful to that public which has enabled him to publish a magazine for the last thirty-three years of a larger circulation than any in America, has made an arrangement with the most popular authoress in this country—MARION HARLAND, authoress of "Alone," "Hidden Path," "Moss Side," "Nemesis," and "Miriam," who will furnish a story for every number of the Lady's Book for 1863. This alone will place the Lady's Book in a literary point of view far ahead of any other magazine. Marion Harland writes for no other publication. Our other favorite writers will all continue to furnish articles throughout the year.

THE BEST LADY'S MAGAZINE IN THE WORLD, AND THE CHEAPEST.

THE LITERATURE is of that kind that can be read aloud in the family circle, and the clergy in immense numbers are subscribers for the Book.

The Music is all original, and would cost 25 cents (the price of the Book) in the music stores, but most of it is copywrighted, and cannot be obtained except in "Godey."

Our Steel Engravings.—All efforts to rival us in this have ceased, and we now stand alone in this department, giving, as we do, many more and infinitely better engravings than are published in any other work.

Godey's immense DOUBLE SHEET FASHION-PLATES, containing from five to seven full length Colored Fashions on each plate.—Other magazines give only two. Far ahead of any Fashions in Europe or America. Godey's is the only work in the world that gives these immense plates, and they are such as to have excited the wonder of publishers and the public. The publication of these plates cost $10,000 more than Fashion-plates of the old style, and nothing but our wonderfully large circulation enables us to give them. Other magazines cannot afford it. We never spare money when the public can be benefited.

These fashions may be relied on. Dresses may be made after them, and the wearer will not subject herself to ridicule, as would be the case if she visited the large cities dressed after the style of the plates given in some of our so called fashion magazines.

Our Wood Engravings, of which we give twice or three times as many as any other magazine, are often mistaken for steel. They are so far superior to any others.

IMITATIONS.—Beware of them. Remember that the Lady's Book is the original publication and the cheapest. If you take Godey, you want no other magazine. Everything that is useful or ornamental in a house can be found in Godey.

TERMS, CASH IN ADVANCE.

One copy one year, $3. Two copies, one year, $5. Three copies, one year, $6. Four copies one year $7. Five copies one year, and an extra copy to the person sending the club, $10. Eight copies one year, and an extra copy to the person sending the club, $15. Eleven copies one year, and an extra copy to the person sending the club, $20.

And the only magazine that can be introduced into the above clubs in place of the Lady's Book is Arthur's Home Magazine.

SPECIAL CLUBBING WITH OTHER MAGAZINES.

Godey's Lady's Book and Arthur's Home Magazine both one year for $3 50. Godey's Lady's Book and Harper's Magazine both one year for $4 50. Godey, Harper and Arthur will all three be sent one year, on receipt of $6 00.

Thrilling Incidents

OF THE GREAT REBELLION;
OR,
THE HEROISM OF OUR SOLDIERS AND SAILORS.

ILLUSTRATED. 1 vol., 12mo. PRICE, $1.25.

The editors and the public are right in predicting that this will surpass, in graphic narrative, exciting interest, and successive popularity, all other histories of the War for the Union. In these will be the heroic daring, patient suffering, and hair-breadth escapes of our soldiers and sailors, and its incidents will form the theme of conversation at innumerable firesides for years to come. It will contain, in addition to its stirring details, the philosophical Analysis of the Causes of the War, by John Lothrop Motley, LL.D., Author of "The Rise of the Dutch Republic," etc., the dates of all the important events from the John Brown raid, and an accurate and revised account of the principal battles with engravings.

One-third the proceeds of all Subscriptions sent direct to us will be given for the Relief of Disabled Soldiers, and all persons who wish a copy of the work, and also to benefit the soldiers, should send their name and address at once. Also, any officer or private, or person in any section of the country, having knowledge of a heroic act or stirring incident, will oblige us by sending us an account of it.

Booksellers, Postmasters, and Canvassing Agents will be furnished with a Subscription Prospectus, on application to the Publishers.

Vinegar—Vinegar.

THE undersigned has commenced the manufacture of Vinegar, on Washington street, a few doors north of West Middle street, Gettysburg. He has been manufacturing this Vinegar for nearly one year, and it has given general satisfaction. The superiority of this Vinegar over all other manufactured Vinegar, consists in it being made entirely of grain, no acid of any kind being used in its composition, and free from everything injurious. It is strong, and at the same time pleasant to the taste, and has all the preservative qualities found in pure Cider Vinegar. He is prepared to wholesale this Vinegar in any quantity. Call and examine for yourselves. ADAM DIEHL.

Certificate.

WE, the undersigned, hereby certify that we have used in our families, for various purposes, the Vinegar manufactured and sold by ADAM DIEHL, and find it to be all that he represents it to be. We have fairly tested it and believe it to be superior in every respect, to any other manufactured Vinegar we have ever used, and would recommend it to all persons.

Something New!
BEAUTIFUL ILLUSTRATED MAP

ON THE PRESERVATION AND CULTURE OF FRUIT AND ORNAMENTAL TREES.

COPIES are being published, which contain many magnificent Engravings, such as Trees and various kinds of fine Fruit and Fruit Trees, some of the finest specimens that have ever been put on paper. The Fruit Trees are set with abundant burdens of fruit, similar to that which nature presents in proper season. The trees are represented as having their roots running through the soil in a natural position, and the Engravings of Trees are beautiful and grand. It also contains a fine Engraving which represents the innumerable thread-like roots of a vigorous tree running through and over the soil. The Root Engraving covers ten inches in diameter on paper, and also forms a magnificent engraving, which cannot help but prove gratifying to the eyes of all who may behold it. Such an engraving has never been printed on paper before. The engraving of roots not only proves valuable to the sight of the eye, but is designed to prove of great importance to all who take an interest in the cultivation of fruits and how to treat fruit trees properly.

A COPY contains Twenty-five different Engravings of Trees, Fruits, etc., composed of Evergreens, Forest, Apple, Peach, Dwarf Pyramid Pear and Cherry Trees, &c. The Fruit Engravings comprise Raspberries, Gooseberries, Blackberries, Currants, Grapes, Plums, Apricots, Pears, Peaches, Apples, etc., and are all colored by hand to represent the natural fruit, and are accompanied with printed matter of great importance, and forms a copy in size 32 by 40 inches, on map paper, with muslin back and face varnished.

A COPY, with its numerous engravings, will be gratifying to the eye, and forms an admirable ornament for the wall of the parlor, and will richly beautify any apartment with horticultural matter of much importance and interest. These copies are published at a very heavy expense. Twenty-five dollars have been paid to a scientific artist for forming the plates of single engravings of trees, roots, etc.

A COPY contains printed matter of much importance and great value. It will tell how to treat all kinds of Fruit Trees to render them very vigorous and productive, even in unfavorable seasons. It will tell how to prepare the soil without inconvenience before planting the trees in; to strengthen trees much in vigor, and to prove the productiveness of abundant crops, even in unfavorable seasons or locations, with proper and easy after treatment.

A COPY will tell how to prepare and plant all kinds of Fruit and Evergreen Trees, so as to prove successful, with scarcely ever proving a failure in a lot of many trees when properly treated as directed. It will tell how to train and plant Dwarf Pear Trees. It contains the most successful treatments for the culture of the Plum. It will tell how to train and cultivate the Grape.

A COPY will tell how to cultivate and treat Strawberries, Currants, Raspberries, Blackberries, Gooseberries, etc.

A COPY will tell how to treat Peach trees, to restore their roots healthy from the disastrous effects of worm insects. It will tell how to make use of an application over the soil surrounding the tree to protect the Peach and other tender fruits from the effects of being winter-killed in the bud. The same application also restores Peach trees from taking the yellows. The application has the beneficial effects to present the foliage of the trees healthy and the tree vigorous, and proves to the productiveness of luscious fruits. The application to be applied is not expensive. All have sufficient materials on their plantations.

A COPY will tell how to Preserve all kinds of Fruits with little or no sugar. It will tell how to keep Apples with much success. It will tell how to treat and manage Pears to mature perfectly, and to attain to the highest flavor.

A COPY presents its numerous pictures all at a glance, and forms such an ornament for the wall as will be admired by all lovers of art, drawn from nature's products.

These copies are published by
