The weight of the tongue on the horses' plow in stirring fallow ground, or in plowing corn stubble.

There are no wheels on either shoe, but slides, which conduct the cutter bar smoothly and ensily over the roughest ground, and also

prevent all clogging in the near shoe as it passes over the cut grass, to which the necessarily small wheel attached to any shoe is ofter liable. The ease with which the machine can b thrown in and out of gear, whether in motion or standing, is unsurpassed.

When the machine is out of gear the cutter

bar can very easily be folded up, when the machine is as portable as a gig or fulky. THE ONLY PERFECTLY COMBINED M. CHINE. It cuts well at a very slow motion; no chine can exceed it in this respect.

The drive wheels have the cogs on the inte liability to break and wear.

The gearing is effectually projected from sand and dirt. The journals run is iron boxes

babbeted; except the pitman box, which is of composition.

The machine can be changed from a Mower to a Reaper, and back again in fitten minutes ADVANTAGES AS A REAPER!

The grain is delivered at the side of the plat-

form, (which is the only true method of de-livery,) entirely out of the way of the next round, so that the whole field can be cut with out binding a gavel.

The Raper is as light of draft as the Mower

The weight of the Machine being all upor The weight of the Machine being all upon the two driving wheels, instead of one, the Machine is not so liable to sink in soft ground, having a bearing surface of ten inches.

The weight of the carriage is well as that of the latest styles, at very low prices. Per-New Tailoring

The weight of the carriage is well as that of the latest styles, at very low prices. PerSTABLISHMENT.-GEO. F. ECKENBODE,
FASHIONABLE TAILOR,
adopts this method of informing his friends and the driving wheels, by which the following advantages are gained: lst. The wheels do not comprising Men's fine Calf Boots, Men's Baltin on the ground, causing the knife to clog.
