## RUSSELL'S SCREW POWER COMBINED REAPER AND MOWER,

WITHOUT COG GEARING. THE LIGHTEST DRAFT MOWER IN THE WORLD.—It is the object of Farmers in purchasing a Machine to buy the best and cheapest. Both these objects will be attained by buying Russell's Screw Power. The great amount of *power lost in overcoming the friction of all Cog-geared Harvesters is saved in the Screw Power, by which we can offer the lightest draft* Mower and Reaper in the world. This fact has been fully demonstrated by the various tests by Dynamometer and otherwise, to which the machine has been subjected during the last two seasons. Among the various points of superiority in this machine are the following:

The use of open malable iron guards, with a steel plate or face, ground to a cutting edge. This with the knives, gives a perfect sheer cut. Double Hinged Finger Bar.—No Mower can do good work, on all kinds of meadows, without a flexible bar. This bar can be raised and secured fastened, while passing from field to field. Patent Adjustable Reel, performing its work equally as well upon rough ground as upon a level field. There is no side Draft, or weight upon the horses' necks. New and peculiar form of shoe, which will not clog when mowing, with a light play when the Reaper is attached. The subscriber who is Agent for this machine has fully tested it the last season, in wheat, grass, clover and oats, and feels satisfied that all who see this machine work will have no other. A specimen machine can be seen by calling on the subscriber, near Gettysburg, on the Harrisburg road.

WILLIAM WIBLE, Agent.

CERTIFICATES.—We certify that we went to the farm of William Wible last harvest, for the purpose of examining the work done by him with Russell's Screw Power Mower and Reaper. We found Mr. Wible cutting some of the very worst kind of lodged grain, and feel satisfied it could not have been done better by any other machine. It is the lightest draft machine we ever saw.

PHILIP WEAVER,
GEORGE BOYER.

We certify that we saw Mr. Wible mow with the above machine both in standing and lodged grass, with but one span of horses, and we consider it the best mower we ever saw.

GEORGE BOYER,
GEORGE DEARDORFF.
