### THE CONDUCT OF THE WAR. The New York Evening Post, a Black Re-

publican paper, very truly says:
"If government will attend closely to the what the decision—some with resignation fight the enemy, we shall hear less of arrests—and more with the apathy which results from fatalism.—Athany Atlas.

What a picture? The people calcused by repeated blows: the rebellion not crush for flapping their crinolines at the star of the wor, after a million and a half of solution; but to mass our armies and to solution have been offered up, with three bill rebellion; but to mass our armies and to solutions. At this rate, where are we to festations of sympathy with it which appear

in the free States. Taken from so loyal a source, we trust the nation slive as able-bodied men in the army. Laborers are getting scarce. The promises of the Administration have failed. The negro policy is bringing the country to disgrace and ruin. If the Administration, with the immense armies and sums of morey, and a vast mavy, that have been placed in their hands have produced present results, we could ask, how many more men and how much more mency will they dead that the source and the second present results, we could ask, how many more men and the second present results, we could ask, how many more men and the second present results, we could ask, how many more men and the second present results, we could ask, how many more men and the second present results and how much more mency will they decay the second present results and how much more mency will they decay the second present results and how much more mency will they decay the second present results and this enormous treasure squantered, and with the been placed in the lifetime of said Eliza fried in the lifetime of s what good result has been attained? VITROUT COG GEARING. THE LIGHTEST DRAFT MOWER IN THE WORLD,—It is the object of Farmers in purchasing a Machine to buy the best and chenpest. Both these objects will be attained by buying Russell's Serew Fower. The great amount of power lost in overcoming the friction of all Cog-genred Harvesters is saved in the Screw Power, by which we can offer the lightest draft Mower and Reaper in the world. This fact has been fully demonstrated by the various tests by Dynomogreter and otherwise, to which the machine has been subjected during the last two seasons. Among the various points of superiority in this machine age the following:

The use of open malable into guards, with a steel plate of face, ground to a cutting edge. This with the knites, gives a perfect sheet cut. Double linked Finger Bar.—No Moner, can do good work, on all kinds of meadows without a flexible bar. Thus bar can be mised and securely asstened, while passing from field to field. Patent Adjustable Reel, performing its work equally as well upon tough ground as upon a level field. There is no side Draft, or weight upon the horses' necks. New and peculiar form of Sline, which will not clog when mowing; with a tight play when the Reaper is attacked. The subscriber who is Agent for this machine has fully tested it the last section, in wheat, grain, on the subscriber, near Gettysburg, on the Harrisburg read.
