THE "EXCELSION WASHER !", is acknowledged by all who see it, to be the nost complete, and without exception, the nost perfect Labor-Saving Washing Machine ever before invented. Its superiority over all oth-ers consists in the simplicity and darghility before invenses. A simplicity and darability of to his own parameters consists in the simplicity and darability of the several things are to be especially observed. Several things are to be especially observed. Several things are to be especially observed. The patient must use the mellicine according to directions; ite must avoid taking cold, and to directions; ite must avoid taking cold, and to directions; ite must avoid taking cold, and to directions; the must avoid taking cold taking s well as a grown person, except for very heavy goods. In a word this is the machine that is destined to take the place of every other this is destined to take the piece of every wher now in use. Hersons intending to get a ima-chine will find it greatly to their advan-tage to examine this one before purchasing. 50
