KILLING, A TIGER. A SCENE IN INDIA. [To an ex-officer of the British army in India

we are indebted for the subjoined narrative of an exciting advinture which he once had with a royal tiger, and which we give as nearly as possible in his own words:] a day, when attendance will be given and

along the upper branches of the trees, and stream is welling from his breast! He reols | PLANTING STRAWBEBRIES IN THE deepening the shadows below; the twitter —he is faint—but turns to seek his fevenge. of the few birds that yet flew and fluttered. There is one barrek yet—he must have the among the leaves, seemed to me the warp contents of that. Now he crouches—now. I ing notes of preparation for the approach-ing darkness; the very air had settled to a down he comes, right above ny head; and fame of a candle; and there was that sin-flame of a candle; and there was that sin-tiger and man, all come to the ground to gular sense of the pulsation and breathing gether, the living entangled in the light framework, vines and bushes. The beast growis and flounders-but the of nature herself, which all dwellers in soltude have so often felt aml heard.

Paler and more yellow and chasily now man keeps silent and still. After shitle, became the light of the dying day, and the beast becomes silent and still, and the deeper, darker and more fearing grew the shadows that were closing around every man ventures to move. Carefully he works his head up through

object, seemingly walling them in from the rubbish, and sees a broad sheet of silmy view. For a few moments the dying very light streaming calmly over his dead sun seemed to linger, as if for a last, sud farewell, and then to suddenly sink from the world, over which was rapidly drawn the pall of darkness, if not of death. A minute lefter, and then list of day allowed the pall of the list of day allowed taken. the world, over which was rapidly drawn the pall of darkness, if not of death. A minutz before, and the light of day played callify over the great forest and thick junasleep, and sleeps soundly until wakened by the cries of the natives in the morning,

by the cries of the natives in the morning, who fear the master is dead. No; it was only the cow and the tiger that died that night. The master, you see is ready to go back in triumph, to tell his story, and get a native tom tom serenade blossoms, and so gliding down to the rich, blossoms and so gliding down to the rich, black earth—but now, having come with the suddenness almost of the extinguishing of a lamp, night-black, rayless night-was upon the scene, reigning supreme over the mysterious, swful depths of that uncultivafor his during exploit!

from persons not taking the precaution to

From want of this many rush into the very faws of death, when a single moment's calm reflection would have pointed out a certain and easy means of escape. It is the more necessary to fix in the mind a general course of action in case of being in a house while it is on fire, since the most dangerous configurations occur at dead of night; and at the monuent of being aroused from a sound sleep, the brain is apt to become so as to let the plants grow up without him-too confused to direct the badily move-the surface. The fruit buds are formed in the spring, sound sleep, the brain is apt to become so as to let the plants grow up without him-to confused to direct the badily move-the surface. The fruit buds are formed in the spring, sound sleep, the brain is apt to become so as to let the plants grow up without him-the and if these are injured during the ex-

upward or downward, get into a front room; if there is a family, see that they are all collected here, and keep the door closed

This wilds of Amitaelia and Childennia in thus been peopled in our day in the same way that the Spaniards peopled South America years ago.

HINTS FOR HOUSEWIVES.

As a general rule, it is most economical to buy the beat articles. The price is, of bourse, always a little higher; but good articles spend best. It is a sacrifice of money to buy poor flour, meal, sugar, molauses, butter, cheese, lard, etc., to say nothing of the injurious effect upon the healVi

Deally. Of West India sugar molasses, the Santa Cruz and Porto Rico are considered the best. The Havana is seldom clean.----White some from Brazil is sometimes very good. Refined sugars usually contain most of the sacharine substance, therefore there is probably more economy in using losf, crushed and granulated sugurs than we

sheuld at first suppose. Butter that is brude in September and TWO DOLLARS A-YEAR. October is the best for winter use. Lard should be hard and white, and that which NO. 3. is taken from a hog not over a year old is best.

best. Rich cheese fecls soft under the pressure of the finger. Ont which is very strong is neithor good nor healthy. To keep one that is cut, tie it up in a bag that will not admit fires, and hang it in a cool dry place. iny persons believe that spring is the H mould appears on it wipe it off with a dry cloth.

best time to plant strawberries; but the Phio Farmer scems to be of a different opinion, and gives the following directions

kept in a cool dry place. The best rice is large, and has a clear, fresh look. Old rice sometimes has little for fall planting: "When plants are well set in the fall, they will fruit the next season, as it is the fall growth of the roots which supports black insects inside the kernels. The small white sago, called pearl sago,

the plant for next year's fruiting. Go into is the best. The large brown kind has an earthy taste. These articles, and tapicon, ground rice etc., should be kept covered. The cracked cocon is the best; but that your garden today, and pull up a straw-berry plant which has fruited this season, and you will see the old stock of roots dead and black, and from the crown of the root which is put up in pound papers is often beneath, a set of new roots putting out : these must make a good full growth or you

FALL.

Very good. To select nutmegs, pick them with a pin-If they are good, the oil will instantly spread around the purcture. Keep coffee by itself, as its odor affects will get no considerable crop of fruit next, year; and transplanting now causes a less jar in the natural condition of the plant, than if taken up at any other period of the

other articles. Keep tea in a close, chest

year. "Clicose for planting young runners that or canister. Oranges and lemons keep best wrapped close in soft paper, and laid in a drawer of are well rooted; then on a cloudy day pro-ceed with your work. Draw a line where you desire to plant and mark a place for linen. When a cask of molasses is bought, draw

the row; spread out the roots evenly on all sides, set in so as to bring the dirt well off a few quarts, else the fermentation produced by moving i. will burst the cask. Bread and cake should be kept in a tim

and get hold of her right hand." The young man did so, and then and there, with his cradle on his shoulder, the stump of his pipe in one hand, his whetstone in the other, clad in homespin overalls sion he was called to perform a very important surgical operation on a young man living in the country. Arriving there he found collected a large number of neighbor-ing farmers and others, who had come from and frock, the squire performed the ceremony.

"Wounder und Killed."-It takes but little curionity to witness the operation. He ob-served that the house was scantily furnish-"Woundedand Rilled."---It takes but little space in the columns of the daily papers, but oh! what long household stories_and biographies are every one of these strange names we read over and forget! Killed and wounded! Some eye reads the name, to whom it is as dear as life, and some heart is struck or broken by the blow made by some name among the list. It is our Henry, or our James, or our John; that lies with his poor lunbs at the hospital, or dead still, and with gine hy face on the battle field. Alas for the eyes that read ! 'lle was my pretty boy, that I have sung "He was my pretty loy, that the unversing to sleep so many times in my arms!" says the poor mother, bowing in anguish that cannot be uttered. "He was my brave, noble husband, the father of my little-or-phan children!" sobs the stricken wife.--He was my darling brother, that I was proud of !" murinus the sister, amid tears ; and so the terrible stroke falls on the homes throughout the land. "Wounded and killed !" Every name in that list is a lightning stroke to some heart, and breaks the thunder over some home, and talls a

There are good reasons for believing that old was the first metal with which man long black shadow upon some hearth became acquainted. Its peculiar properstone.

became acquainted. Its peculiar proper-ties render it the best for the purpose of being worked by a primative people. Gold is the only metal which is found in a me-tallic state, such as wo see it used in the arts and manufactures. The process of exarts and manufactures. The process of ex-tracting all the other metals from their honors. Her only dress was a white veil, natrix or ore is so tedious and dufficult expressive of Irankness, candor and modthat without gold it is probable our forelath. [sety; and her symbol was two right hands ers would have had no metals at all to use. joined, or sometimes two figures holding We who live at this period of the world's each other by the right hand; whence, in history can well believe how litt.e advance- all agreements among the Greeks and Boinistory can well believe how little advance-ment could be made in civilization without mans, it was usual for the parties to take a metal of some kind. Now thosy quickness which we recognize as metalic in the high-intention to adhere to the compact; and thus we see, even in this single instance, a proof of the Creator's wisdom in the adoption of a mens to an end which we determine the realized.
