

**Local & General.**

**A Mixed Party.**—The editor of the Washington Democrat, in his distress and anguish of mind, published the following:  
**Wanted.**—Loop poles, shoe pegs, old boots, cut fish, saur trout, corn husks, saw dust, porcupine quills, buckskin hats, knives, blades, marbles, watch keys, matches, fire crackers, pea nuts, snappers, turtles, old straps, pig ears, tooth picks, cigar stumps, walnuts, old gum shoes, mowing scythes, wagon wheels, drums, files, jews harps, old shoe strings, horse shoes, bees in the hive, old pocket books, (full of money,) postage stamps, bank checks, shuipsters, good bank bills, and all others, at this office in payment of subscription, etc., at the highest market value.

**The Arlington Estate to be Sold.**—The Alexandria Gazette of Monday says:  
The Arlington estate, in this county, lately occupied by Gen. Robert K. Lee, and the Curtis Mill property adjoining, are advertised by John Hawhurst, W. F. Boland and G. W. Watson, "commissioners," to be sold for unpaid taxes, &c., under recent acts of the Congress of the United States. The tax due on the Arlington estate is \$92 07; penalty, \$46 04; on the mill property, \$9 45.

**Mrs. Lincoln's Mother in Richmond.**—Mrs. Todd, of Kentucky, the mother of Mr. Lincoln, arrived in this city on the steamer Schultz, Thursday night, having come to City Point on a flag of truce. She goes South to visit her daughter, Mrs. Helm, widow of Surgeon General Helm, who fell at Chancellorsville. Todd is about 70 years of age and resides in the South, all her daughters being there, except the wife of Lincoln, who is in Washington, and Mrs. Kellogg, who is at present in Paris.—Dispatch.

**Republican Treason.**—Extraordinary developments have recently been made in New York. Henry B. Stanton, the Deputy Collector of the Port, and other prominent Black Republican officials of Mr. Lincoln's, have been detected in the act of sending merchandise and supplies in violation of law, to the rebel authorities at Richmond, of course receiving large pay and profits from Jeff. Davis' government. Some rich exposures are expected. Here we have another evidence of the honesty and loyalty of the Lincoln office holders. Nothing is too dishonorable for them to do if they can fill their pockets with money.

**General Rosecrans thus speaks,** in a letter just published: "As for the infamous lies which are put forth through the press to blast my reputation, such as disability, mental disease, the use of opium, disobedience of orders in not advancing when ordered, in waiting for reinforcements, etc., etc., if I thought they came from our government, I would despise of a nation headed by such a government. That the people will accept them, or that God will prosper their authors, I do not believe."

"It is not in a splendid Government, supported by powerful monopolies and aristocratic establishments, that the people will find happiness, or their liberties protected; but in a plain system: void of pomp, protecting all and granting favors to none."—Andrew Jackson.

**A pompous parish clergyman** felt his dignity mightily offended by a chubby faced lad, who passed him without touching his hat.

"Do you know who I am, that you pass me in that unmannely way? You are better than that taught, I think."

"Why, may be it is so, master, for you teaches me, but I feeds myself!"

**Tom Thumb** arrives on a quarter of a million. This is but a fair illustration of the strange freaks of fortune, these topsy-turvy times. It seems much easier to make a fortune by littleness than by greatness.

**The 'foyal' men in the revolution** were Tories. Those who want to be so extremely loyal now, ain't much better.

**A contemporary** wants to know how the Republican party makes itself out a Union party, when its leaders all declare "it is neither possible nor desirable to save the old Union."

**The police** are after the perpetrator of the following conundrum: Why is a lovely young lady like a hings? Because she is something-to-e-lore.

**A doleful sound.**—Listening to your "better half" scraping the bottom of the flour barrel.

**As the true gentlemen** will appear even in rags, so true genius will shine out, even through the coarsest style.

**Reflect calmly—resolve prudently—perform promptly.**

**New Warehouse.** 100,000 BISHOPS OF GRAIN AND PRODUCE WANTED, at the new Grain and Produce House, adjoining the adjacent Warehouse, Chas. C. Tucker's establishment. The highest market price will always be paid in cash.

**WE USE** We shall do our best to give satisfaction in all cases. **McCURDY & DIEHL**, Gettysburg, May 11, 1863. ly

**READY ROOFING,** NO. 73 MAIDEN LANE, NEW YORK. This article is made of an extremely thick and strong woven fabric, invented and manufactured expressly for our own use, and is several times thicker than the cotton sheeting commonly used in all other composition roofing, and consequently far more durable. From the superior thickness of this cloth, it receives, in saturation, a far greater amount of the water-proof composition, and when finished with the fire-proof coating on the surface, presents the most completely finished—and, we are confident, most durable—roofing now known. It needs no final coat applied on the roof, as all other kinds do. IT IS "READY" TO NAIL DOWN. It is manufactured and put up in rolls about one hundred feet long, and three feet wide; requiring only to be unrolled, and nailed on the roof. In this convenient and finished state, it is especially worthy the attention of HARDWARE MERCHANTS, TINNERS, BUILDERS, and all who buy to sell again. We do not hold out to such the prospect of enormous profits immediately, but we offer a really mercantile article, in demand every where, and at all times. WE CALL ATTENTION TO A FEW POINTS! 1st. It costs only about half as much as tin, and is twice as durable. 2d. It is adapted to all kinds of roofs, whether steep or flat. 3d. It is not affected injuriously by heat or cold. 4th. Any ordinary workman can apply it. 5th. It is not the "cheapest" roofing. 6th. It is the best roofing. This Roofing has been used in every variety of climate, from Canada to California, and we can most positively recommend it to be entirely proof against the changes of heat and cold that are so destructive to many other kinds of Roofing. IT WILL NOT SOFTEN AND RUN IN HOT WEATHER. IT WILL NOT CRACK IN COLD WEATHER. It is a perfect protection against fire from the falling cinders and fragments from burning buildings adjoining this Roofing. It is so elastic and strong that the SHINKING OF ROOF-BOARDS does not injure it. It is particularly valuable on Factories, Foundries, Sugar Refineries, Distilleries, and all buildings where the air is impregnated with gases or moisture, which rapidly corrode, from the inside, all tin and metal roofs. FOR STEAMBOAT DECKS, CAL-TOPS, PLAZAS, and all roofs used for walking on, this article answers far better than any metal roof—as it will bear such usage without cracking or breaking. It is easily applied over old SHINGLE ROOFS, WITHOUT REMOVING THE SHINGLES. Also the GUTTERS can be formed of this material, saving the expense of METAL ONES. The cost of applying it is very light, and any ordinary roofer can be finished in the same day.
