Many, not only of the people, but physicians of every school and practice, are daily asking, me, "What is the principle or cause of your success in the treatment of Pulmonary Con-

While this is effected by the powerful alterative (changing from disease to health) properties of the Tur Cordial, its healing and renovating principle is also acting upon the irritated surfaces of the lungs and throat, penetrating to each diseased part, relieving pain, subduing inflummation, and restoring a healthful tendency.
