THE CLEVELAND CONVENTION. Call for a Mass Convention of Abolitionists to Nominate a Presidential Candidate in Opposition to the Nominee of the Baltimore Convention.

To the People of the United States: After having labored ineffectually to defeat as far as was in our power the critical moment when the attention of the people must inevitably be fixed upon the selection of a candidate for the chief magistracy of the country; after having interrogated our consciences and consulted our duty as citizens; obeying at once the sentiment of a nature conviction and a profound affection for the common country, we feel ourselves impelled, on our own responsibility, to declare to the people that the time has come for all independent men, jealous of their liberties and of the national greatness, to co-operate together, and unite to resist the swelling invasion of an open, shameless and uncontrained patronage which threatens to engulf under its destructive wave the rights of the people, the liberty and dignity of the nation.

Deeply impressed with the conviction that, in a time of revolution, when the public attention is turned exclusively to the success of armies, and consequently less vigilant of the public liberties, the patronage derived from the organization of an army of a million of men, and the concentration of affairs which seeks to control the remotest parts of the country in favor of its supreme chief, constitute a danger seriously threatening to the stability of republican institutions; which has been acquired nearly the force of law by the concentration of time, ought to be inflexibly adhered to in the approaching elections. We further declare that we do not recognize in the Baltimore Convention an essential condition of a truly national convention. Its proximity to the center of all interested influences of the Administration, its distance from the center of the country, its mode of convocation, the corrupting practices to which it has been and inevitably will be subjected, do not permit the people to assemble there with any expectation of being able to deliberate at full liberty. Convinced as we are, that in presence of the critical circumstances in which the nation is placed, it is only in the emergency and emergency of the people that the general safety can be found; satisfied that the only way to go is to indicate a central position to which every one may go without too much expenditure of means and time, and where the assembled people, far from all administrative influence, may consult freely, and deliberate peaceably with the presence of the greatest possible number of men whose known principles guarantee their sincere and unfeigned devotion to the rights of the people and to the preservation of the true basis of a Republican government; we earnestly invite our fellow citizens to unite at Cleveland, Ohio, on Saturday, the thirty-first of May next, for the purpose of electing a Presidential Convention to the approaching Presidential election.

Olschun, Mo., of the People's Committee.

The new movements to call out the militia of the several States, and the change and remarks, is a lamentable necessity, indeed the necessity exists. Labor in those States was already in demand far beyond the supply, to prosecute the routine of agricultural operations through the spring months. Such a drain as that now proposed will materially affect the production of cereals in the Northwest, and reduce, in a ratio exactly corresponding with the extent of its influence, the wealth ordinarily received by the country through the channels of our domestic industry. The inconsistency of the Administration and its followers was never better exemplified than in this proceeding. It is only a few weeks since the Republican leaders and leaders of the State, through enough men under his control to drive the rebels into the Gulf of Mexico, yet these same editors and politicians are now trembling for fear of a probable invasion of the Northern States at the hands of the very rebels whom they have had in imagination "starved," "crippled," "exhausted," their "backs broken," and on their "last legs," a dozen times over within the last six months.

The Journal of Commerce says forcibly: "If the radicals retain power after this Administration's term is ended, we venture to prophesy the end of the American republic, and a radical party teaching and exercising the absolute powers of a majority over a minority."
