VARIOUS.

JOHNSON A FOREIGN ENEMY.

The Republican party maintains, as sound legal doctrine, that Tennessee is not now a state of the United States, but is *de facto* a state of the Confederate States. It insists that principles of public law announced by the Supreme Court in certain cases of prize—that of the schooner Crenshaw, among others—lead irresistibly to the conclusion that *every* citizen of Tennessee is to-day an enemy of the United States—an alien enemy—a foreign enemy—a belligerent enemy. It approves and adopts the application of those principles by Mr. Justice Betts in the case of Leory M. Wiley, and by Mr. Justice Nelson in the federal court for Minnesota. The Lincoln party made these views of public law, in respect to citizens of Tennessee, a part of its creed in the circular letter of its executive committee convening the Republican convention at Baltimore, for it expressly announced that delegates would be received in that convention only from states represented in the Congress of the United States. Mr. Whiting, law adviser of the War Department, has been an elaborate and most conspicuous vindicator of these theories of the enemy status of each and every citizen of a seceded state. And yet the Lincoln convention of Baltimore nominates, as its candidate for Vice President, Johnson, who, under the call of the convention, could not have been a member of it, even if his appointment thereto was attested by the signature of every man in the State, and who, according to Republican law, is a foreign enemy of the Union! This is odd enough when considered in its mere political relations, but it is passing strange when viewed in its strictly legal aspect.

In the case of Leroy M. Wiley, it was determined, by Mr. Justice Betts, on application of District Attorney Smith, and after solemn argument, that the statement of Wiley's counsel, in the claim filed in court to certain shares of railroad stock libeled for confiscation, that the claimant was a resident of Eufaula, in the State of Alabama, precluded Wiley from making claim to his property, and defending it in a court of justice. He could not even have standing in court to make proof of his loyalty, because the admission that he was a citizen of a seceded state was conclusive against it. The court said it would not permit a citizen of a seceded state, like Alabama or Tennessee, to come into a judicial tribunal of the Union for any purpose.

Therefore Andrew Johnson, in case of a proceeding in a court of the United States to forfeit his horse (found in a loyal state), upon the allegation that it was enemy's property, could not get into court to prove that the horse was his property, and that he was a loyal citizen. The Republican party, in order to prevent any seceded state from being again represented in our Congress until, as a condition precedent, slave-labor is forever abolished in such state, is compelled to assert that such exclusion of Johnson is right in law. And yet, these Republican gentlemen propose to make a Vice President of a man who is so much an alien enemy that he cannot be permitted to pass the threshold of a loyal court of justice! Such is the statesmanship of Lincoln and his partisans! Such is the inevitable political and legal confusion of a war prosecuted chiefly in the interest of Africans! Who can wonder that government greenbacks are not worth fifty cents on the dollar?—Continue Lincoln in power long enough, upon such theories, and a hatful of federal notes will not buy a breakfast!—*World.*

A "Loyal Man" Trippel Up.—A good story is told of Dr. Wilbur, a member of the Board of Enrollment in the Third District. A drafted man presented himself for examination who was so deaf that it required the utmost power of the Doctor's lungs to make him hear. The doctor stooped down and commenced a critical examination of one of the drafted man's knees, remarking in a low tone, "that is sufficient to exempt any man." "Glad to hear you say so," said the deaf man, who had suddenly recovered his hearing! "What did you say was the trouble with my knee, Dr. Wilbur?"

"It is perfectly sound and good," replied the doctor; "I was only examining your ears."

The man paid his three hundred dollars, and was exempt. It was afterwards discovered that he was the leading Republican in his township, the chief actor in all the party movements, and clamorous for the war to go on until slavery should be entirely rooted out, if it took every man and every dollar.

The German Press.—It is stated that there are only six German Republican papers in the West which advocate the cause of Lincoln, while twenty-six have hoisted Gen. Fremont's name, and the rest seem to favor him above all other candidates. In Illinois, Mr. Lincoln's home, there is only one German paper—the Chicago *Staats Zeitung*—supporting his claims.

☞ A prominent member of the Union League in New York, who was poor when the war commenced and who wants it continued for 20 years, came out the other day in Broadway in a coach and four, with as many servants in livery as could be accommodated. Close by was his wife in a separate carriage drawn by two horses—with servants in livery as above. Next came another carriage with like appointments, containing the children of the very distinguished couple!

He is of opinion that the "Smutty joker" makes a most excellent President.

☞ The editor of the Lewisburg *Argus* (Democratic) having been drafted, the ladies of the town raised a collection to help him pay his commutation, and presented him with the handsome sum of $212.

☞ The office-holders resolve first to sustain the proclamation of the President, which abolishes slavery, and then they want the Constitution amended so as to abolish it. As a matter of taste, we suggest that one abolition is sufficient, and their desire for another only shows that they have no confidence in the first.

☞ The profligacy in the departments at Washington is considered the result of the force of example. The Secretary of State having boasted of his little bell, the followers of the Administration provided themselves each with a little bells.

☞ Why are Government contractors (political abuse "to the contrary notwithstanding,") good, sincere Christians? Because they pray in earnest.

☞ The Government may tax our matches, but we challenge the world to match our wits.

An Interesting History

OF DR. SCHENCK'S OWN CASE,

WHILE LABORING UNDER CONSUMPTION,

And how he Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills act on the System in Curing that Disease, and the

GREAT SUCCESS ATTENDING IT!!!

The above is a correct likeness of Dr. Schenck taken many years ago, after he had recovered from Consumption by a course of his "SCHENCK'S PULMONIC SYRUP." The likeness, although it does not represent him anything like as bad as he was at the worst, yet it is in strong contrast with the hale and vigorous looks of the Portrait below, which is the true likeness of him at the present time. The contrast between these two portraits is *so great* that many would not believe them to be the same person. Yet there are hundreds of persons, in and around Philadelphia, who will recognize both portraits to be true representations. When the first was taken he weighed 167 pounds; at the present time his weight is 220 pounds.

NEW YORK, Wednesday, March 30, '64.

TO THE PUBLIC:

Thirty years ago I was in the 1st stages of Pulmonary Consumption, and given up to die. I resided in Philadelphia, and Dr. Joseph Parrish, then of this city, ordered me to Moorestown, N. J., a distance of nine miles, which took me two days to get there. On my arrival I was put to bed, and there laid for many weeks. This was my native place, where all my family lived and had died of Consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my family go that way, and thought I was to go, too. Then I heard of the remedies I now offer to the public, which cured me. It seemed to me that I could feel them penetrating my whole system.

They soon ripened the matter on my lungs, and I would spit off more than a pint of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain, night sweats—all began to leave me, and my appetite became so great that it was with difficulty I could keep from eating too much. I soon gained my strength and I have been growing in flesh ever since. For many years I have enjoyed uninterrupted good health, keeping the liver and stomach healthy with the Seaweed Tonic and Mandrake Pills, as I am of a *bilious temperament*. My weight is two hundred and twenty pounds. On my recovery people would send for me, far and near, to see if their cases were like mine. For this purpose I pay professional visits in the large cities. *The consumptives* wish to see the one that makes these medicines, and who was cured of consumption by them. To make new lungs, is impossible; but cavities in the lungs and chronic ulcerations of the bronchial tubes can be healed. Such cases are dying hourly under the ordinary treatment of physicians, and just such are cured by the proper use of Schenck's Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills.

I am now a healthy man, with a large cavity in the middle lobe of the right lung, the lower lobe very much hepatized and complete adhesion of the pleura. The left lung is sound, and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicians do not cure consumption is they try to do too much; they give medicines to stop the cough, to stop chill, to stop night sweats, hectic fever, and, by so doing, they derange the whole digestive power, locking up the secretions and eventually the patient sinks and dies. After I make a careful examination of the patient with the Respirometer, and find lungs enough left to cure, I direct the patient how to use the three remedies. Remove the cause and they will all stop of their own accord. No one can be cured of consumption, liver complaint, dyspepsia, catarrh, canker, ulcerated throat, unless the liver and stomach are made healthy. In New England this canker, chronic catarrh, ulcerated throat, elongation of uvula, is more prevalent than in any other section of the country. This is frequently caused by a foul stomach.—You may burn it out with caustic time and again, and all they will get is *temporary relief*. Correct the stomach and liver, and they will heal up themselves.

Good nutrition is the remedy. If you have any disease in any part of the body, it will remain there and decay more and more until you can get the stomach in the condition to digest food and make new blood to take the place of diseased matter. This is the only way to heal cavities in the lungs and ulcerated bronchial tubes. Correct the stomach and liver, and nature will do the healing. Many persons have an idea that certain medicines are great purifiers of the blood. When blood is once diseased it cannot be purified; it is diseased the same as the diseased matter in the system; but get the apparatus in order, the liver and stomach, and give it plenty of nourishing food it will make new blood, which will take the place of that which is diseased.

Schenck's Pulmonic Syrup is one of the best preparations of iron in use, it is a powerful tonic of itself, and when the Seaweed Tonic dissolves the mucus in the stomach, and it is carried off by the aid of the Mandrake Pills, the Pulmonic Syrup is made into blood. This is the only way to cure consumption. If I cannot get a good appetite, and food does not digest, I cannot cure the patient. Never mind the cough; remove the cause and it will stop of itself. This is the most trouble I have with my patients at my rooms. They say, "Doctor, I feel stronger; I can eat; my night sweats are better, and I feel better every way; but my cough is so bad yet;" and they are astonished to hear me say that does not matter; remove the cause and the cough will stop of itself. Schenck's Seaweed creates a good appetite in about nine days, when there is no lung disease, unless the liver is so congested that the Mandrake Pills cannot unlock the ducts of the gall bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stomach healthy and there is less danger of consumption or any other disease. It is hard to take cold when those organs are healthy. Those that are bilious, low spirited, dreary, feeling stupid, coated tongue, poor appetite, nervous, stomach full of wind, everything that is eaten lies heavy, loss of memory, try one bottle of SCHENCK'S SEAWEED TONIC and one box of SCHENCK'S MANDRAKE PILLS. It is only a cost of one dollar and twenty-five cents, with full directions. This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that enjoys ordinary health, by using the Seaweed Tonic and Mankrake Pills occasionally, must get the digestive organs in such a healthy condition that they become healthy. I can produce a number of my old consumptive patients now enjoying good health, weighing nearly 200 pounds. I will conclude by relating three cases I have made in New York, and which are all different, and wish any one who feels any interest in the matter to visit them. First is Mrs. Farlow, residing then at No. 107 Houston street. Her husband called upon me at my rooms, 32 Bond street, and wished me to call and see her. He said I could do no good; that he had had all the best medical attendance, and all said she was too far gone with Consumption to be cured; but she had heard of some great cures I had made, and he desired to gratify her wishes.—I called, and found her lying confined to her bed in the last stage of bronchial consumption, and without doubt must have died soon. I examined her lungs, found both bronchial tubes very much affected, but no cavities had formed, her cough was very severe, the spit-box was half full of thick pus. Pulse 140, legs swollen very much; and worse than all, she had chronic diarrhœa. Her bowels had been moved eleven times that day. I told her that she had lungs enough to be cured, but that this diarrhœa had been of long standing, and her stomach was in such an ulcerated condition that I was afraid nothing could be done. She insisted I *should try and do* what I could for her, observing that she could not last long in the condition she was in, and I could not make her any worse. I gave her first a dose of my Mandrake Pills, and the Tonic and Syrup freely. That was on Tuesday, and by the next Sunday the diarrhœa was carried off, her appetite had returned and she could sit up in bed and eat her dinner. She is now well, and gave me a long certificate, certified to by the Rev. Dr. Dowling.

Mrs Bartholomew, 83 West Forty-fifth street, came to my rooms with a tumor on her liver. She was low-spirited, skin sallow, tongue coated, bowels costive, no appetite, and fast sinking into the grave. The said tumor had been running over fourteen years. I gave her Syrup, Tonic and Pills, and told her to take them just as the directions were printed. She came back to my rooms, 32 Bond street, in two weeks, somewhat better; her tongue had begun to clean a little around the edges, her skin whiter and her eyes brighter, and the tumor discharging very offensive matter, much faster than it had ever done before. She kept gradually improving, and in about two months she came to my rooms very much frightened, saying that the tumor had nearly stopped running, and was healing up, and that every doctor had told her that if it ever healed it would cause her death. I told her that the disease had all left her system, and nature would heal the ulcer up. They are now healed, and have been for about a year, and she is as hearty and robust a woman as you will find in a day's walk. She is glad for any one to call on her, and *takes great pains to visit any one* that she hears has anything like her case, and tries to get them to come and see me.

The next case is Miss Scofield, from Stamford, Conn. Mrs. Bartholomew got her down *to see me*, and she has been ever since at her house. When she first came to my rooms, she was much emaciated with a distressing cough, spitting large quantities of blood. I examined her lungs with the respirometer, and in all my *practice never found one* with one lung so far gone and the other lung so sound. I could not give much encouragement. I thought she would die; but to my astonishment the Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills all seemed to go right to work. The lung is all healed over, leaving a cavity as large as a goose egg; good appetite, fine spirits, and has gained some thirty-five pounds in weight. She has some cough yet, which I do not think will leave her before June. I should think it would be of great interest to some unprejudiced physician to visit these cases, particularly Miss Scofield, or any of them who have been cured by my medicines. They are numerous in New York; but the above three all differ from each other; and if my medicines are doing what I represent they are, they should have the credit and the afflicted know where and how they may be cured. J. H. SCHENCK, M. D.

Dr. J. H. Schenck can be found at his principal office, No. 39 North 6th Street, Philadelphia, every Saturday, from 9 A. M. until 5 P. M., to give advice, free of charge; but for a thorough examination he charges three dollars. Price of the Pulmonic Syrup and Seaweed Tonic each $1.25 per bottle, or $6 the half dozen. Mandrake Pills 25 cents per box, and are for sale by all Druggists and Dealers.

DR. WISHART'S PINE TREE TAR CORDIAL,

IS THE VITAL PRINCIPLE OF THE PINE TREE,

obtained by a peculiar process in the distillation of the tar, by which its highest medicinal properties are retained.

HAVE YOU A COUGH? HAVE YOU SORE THROAT? Have you any of the premonitory symptoms of that most fatal disease, CONSUMPTION?

Those who should be warned by these symptoms generally think lightly of them until it is too late. From this fact, perhaps more than any other, arises the sad prevalence and fatality of disease which sweeps to the grave at least "one sixth" of death's victims.

Consumption has destroyed more of the human family than any other disease, and the best physicians for many years have despaired of a cure, or a remedy that would heal the lungs, but for more than two hundred years the whole medical world has been impressed that there was a mysterious power and efficiency in the Pine Tree Tar to heal the lungs; therefore they have recommended the use of Tar Water, which in many cases had a good effect; but how to combine medical properties so as to heal the lungs, has ever been a mystery until it was discovered by Dr. L. Q. C. WISHART, of Philadelphia, Pa., the proprietor of "Wishart's Pine Tree Tar Cordial."

Many, not only of the people, but physicians of every school and practice, are daily asking me "What is the principle or cause of your success in the treatment of Pulmonary Consumption?" My answer is this:

The invigoration of the digestive organs—the strengthening of the debilitated system—the purification and enrichment of the blood, must expel from the system the corruption which scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the *irritated surfaces of the lungs* and throat, penetrating to each diseased part, relieving pain, subduing inflammation, and restoring a healthful tendency. Let this two-fold power, the healing and the strengthening, *continue to act in conjunction with Nature's* constant recuperative tendency, and the patient is saved, if he has not too long delayed a resort to the means of cure.

I ask all to read the following certificates. They are from men and women of unquestionable worth and reputation:—

Dr. Wishart—Dear Sir—I had a very dreadful cough and sore *throat for one year, and my* whole system was fast giving way, and I was prostrated on my bed with but little hope of recovering. My disease baffled the power of all medicines, and in a short time I must have *gone to my grave, but thank God, my daughter-in-law* would not rest until she went to your store, No. 10 N. Second street, and related my case to you, purchased one bottle of your Pine Tree Tar Cordial and I commenced *to use it, and in one week I was much better,* and after using three bottles I am perfectly well, a wonder to all my friends, for they all pronounced me past cure. Publish my case if you think proper.

REBECCA HAMILTON,

No. 1321 Wylie Street, Philadelphia.

Dr. Wishart's Pine Tree Tar Cordial is an infallible cure for Bronchitis, Bleeding of the Lungs, Sore Throat and Breast, Inflammation of the Lungs.

Mr. Ward says:

Dr. Wishart—Sir—I had Bronchitis, Inflammation of the Lungs, Shortness of Breath, and Palpitation of the Heart in their worst forms; I had been treated by several of the most eminent physicians in Philadelphia, but they could not stop the rapid course of my disease, and I had despaired of ever being restored to health. I was truly on the verge of the grave. Your Pine Tree Tar Cordial was highly recommended to me by a friend; I tried it, and I am thankful to say that after using four large, and one small bottle, I was restored to perfect health. You can give reference to my house, No. 968 N. Second street, or at my office of Receiver of Taxes, from 9 A. M. to 2 P. M., *corner of Chesnut and Sixth streets.*

JOHN WARD.

Read the following from Utica:

Dr. Wishart—Dear Sir:—I take pleasure in informing you through this source that your Pine Tree Tar Cordial, which was recommended for my daughter by Dr. J. A. Hall, of this city, has cured her of a cough of more than five months' standing. I had thought her beyond cure, and had employed the best of medical aid without any benefit. I can cheerfully recommend it to the public as a safe and sure remedy for all those similarly afflicted, as I know of many other cases besides that of my daughter that it has entirely cured of long standing coughs.

Yours respectfully,

JOHN V. PARKER,

Daguerrean Artist,

The above are a few among the thousands which this great remedy has saved from an untimely grave.

We have thousands of letters from physicians and druggists who have prescribed and sold the Tar Cordial, saying that they have never used or sold a medicine which gave such universal satisfaction.

The Pine Tree Tar Cordial when taken in connection with Dr. Wishart's Dyspepsia Pills, is an infallible cure for Dyspepsia.

The Pine Tree Tar Cordial will cure Coughs, Sore Throat and Breast, Bronchitis, Asthma, Whooping Cough, Diptheria, and is also an excellent remedy for diseases of the kidneys, and female complaints.

Quaker City Business College

N. E. Corner Tenth and Chesnut Streets,

PHILADELPHIA,

UNDER THE MANAGEMENT OF

L. FAIRBANKS, A. M.,

for the last four years Principal and chief business manager of BRYANT & STRATTON'S Commercial College.

A MODEL BUSINESS COLLEGE,

Conducted on a new system of Actual Business Training, through the establishment of legitimate Offices and Counting-Houses, representing different departments of Trade and Commerce, and a regular Bank of Deposit and Issue, giving the student all the advantages of actual practice, and qualifying him in the shortest possible time and most effective manner for the various duties and employments of business life.

The Course of instruction in the Theoretical Department embraces Book-keeping, Commercial Calculations, Lectures on Business Affairs, Penmanship, Commercial Law, Forms, Correspondence, &c.

In the

BUSINESS DEPARTMENT

the student enters upon the Graduating Course, which includes a continuance in the above studies, with their practical application in all their details. He will in turn fill the position of Accountant and Proprietor in the various Departments of Wholesale and Retail Trade, Forwarding, Jobbing and Commission Business, Banking, Manufacturing, Mining, Steamboating, &c., and finally will act as Cashier, Book-keeper and Teller in the Bank, in each of which positions his previous knowledge will be put to the fullest practical test.

This Institution offers to young men numerous advantages not possessed by any other commercial college in the State. It is complete in all its appointments. It is the only Institution in the State conducted on actual business principles. The course of instruction is unsurpassed, and may be completed in about one half the time usually spent in other institutions, in consequence of an entirely new arrangement, and the adoption of the new practical system.

Diplomas awarded upon the completion of the Commercial Course, which embraces all except the higher sets of Banking, Manufacturing, Railroading, &c.

Stratton, Bryant & Co.'s

INTERNATIONAL CHAIN OF COMMERCIAL COLLEGES,

Established in the following cities:

PHILADELPHIA,

S. E. Corner of Seventh and Chesnut Sts.,

New York, Brooklyn, Albany, Troy, Providence, Portland, Hartford, Burlington, Newark, Rochester, Buffalo, Toronto, Cleveland, Detroit, Chicago, Milwaukee and St. Louis.

Thorough theoretical and practical instruction in all branches pertaining to a finished Business Education.

The Philadelphia College stands first in the State, both in point of reputation and local advantages. The point aimed at is, to place Commercial Education where it belongs—in the front rank of useful instruction. To this end, a most thorough course of business training *is adopted and carefully enforced*, under the personal supervision of competent Professors in the various departments. The most perfect system of practical training ever devised has been put in operation, and is successfully carried out, affording to students advantages such as have hitherto been considered possible only in connection with the counting-house. After becoming proficient in the Science of Accounts, Penmanship, Commercial Calculations and Commercial Law, the student is advanced to the Practical Department, where he becomes an actual Book-keeper and Merchant; passes through the different Houses; acts in turn as Teller, Cashier, &c., learns the duties and responsibilities of each office, and becomes thoroughly informed, not only in the forms which are in universal use, but in managing the affairs of business with system and despatch.

Scholarships issued at one point, are good, for an unlimited period, in the eighteen Colleges comprising the "chain."

Diplomas are awarded to those only who fulfill the prescribed course of study, and pass the requisite examination.

FISH'S

Lamp Heating Apparatus.

BOILING—FRYING—STEWING—STEEPING—WITH THE FLAME THAT LIGHTS THE ROOM.

☞ By the flame of a common lamp, at the cost of a cent's worth of oil, a very comfortable breakfast can be cooked.—*N. Y. Tribune.*

☞ Simple in construction; easily kept in order, ready for use in a moment, convenient to have on hand.—*Druggist's Circular.*

☞ Fish's Lamp is one of the most popular novelties of the day. The utility of it is unquestionable, a great saving is made in heating and cooking small articles, and can be made to cook meals for a great many persons, which is actually done on the ambulance cars which carry the sick soldiers.—*Scientific American.*

☞ For family use, hospital use, barracks, picnics, fishing, nursery, or sick room, it is an article of comfort beyond all proportion to its cost.—*Hall's Journal of Health.*

☞ I have tried the apparatus, and my wife and I proclaim the same a most valuable and indispensable article, and we now wonder how we could have so long done without it.—*Ed. Coal Oil Circular.*

☞ An economical contrivance for getting up heat at short notice for nursery and general household purposes. One important point is the saving in cost over coal fires:—*N. Y. Evening Post.*
