Notice to Teachers.

Estray Heifer.

THE peculiar taint or infection which we call Schorula lurks in the constitutions of multitudes of men. It either produces or is produced by an Cn-feebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and is special the vital forces in their vigorous action, and leaves the system to fall into disorder and

decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the red of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indirection describes and lines completites on gestion, dyspepsia, and liver complaints; on the skin, cruptive and cutaneous affections. These, all having the same origin, require the anne remedy, viz., purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous discuse.

Ayer's Sarsaparilla is compounded from the most effectual anti-

dotes that medical science has discovered for

dotes that incurrent science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Aven's American Almarkac, which is furnished if the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made of the remarkable cures which it has made incre subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Aver's BARSATABILLA, although it is composed of incredicute. Some of which exceed the fast more subject to disease and its fatal results ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purgo out the foul corruptions that rot and fester out the four corruptions that for and tester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this zeniedy strandates the vital functions, and thus expels the distempers which lurk within the system or burst out

on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S CHERRY PECTORAL. The World's Great Remedy for Coughs, Colds, Incipient Con-sumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

fleshy. I can produce a number of my old consumptive patients now enjoying good health weighing nearly 200 pounds. I will conclude by relating three currs I have made in New York, and which are all different, and wish any one who feels any interest in the matter to visit them. First is Mrs. Farlow, resuling then at No 107 Houston afreet. Her husband called upon me at my rooms, 32 Bond street, and wished me to call and see her. He said I could do no good; that he had had all the too far gone with Consumption to be cared; but she had heard or some great cures I had made, shid he desired to gratify her wishes.—
I called, and found her lying confined to her bed in the last stage of brouchial consumption, and without boubt must have died soon.
I examined her lungs, found both bronchial tubes very much affected, but no chvitles had formed, her cough was very severe, the spit-box was half full of thick pus., Pulse 140, legs swollen very much; and worse than all, she had chronic diarrhosa. Her bowels had been moved eleven times that day. I told her that she had lungs enough to be cured, but that this diarrhoea had been of long standing, and her stomach was in such an ulcersted con-dition that I was affaid nothing could be done.

gradually improving, and in about two months she came to my rooms very much frightened, she came to my rooms very much frightened, saying that the tumor had nearly stopped running, and was healing up, and that every doctor had told her that if it ever healed it would conse her death. I told her that the disfisse had all left her system, and nature would heal the ulcer up. They are now healed, and have been for about a year, and she is as hearty and rolfs to sure the second results. and robust a woman as you will find in a day's walk. She is glad for any one to call on her, and takes great pains to visit any one that she
