vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take varjous names, according to the organs it stacks. In the lungs, Scrolla produces tubercles, and finally Consumption; in the glands, swellings which suppurate and be-come ulcerous sores; in the stomsch and bowels, derangements which produce indi-cention durancies and line architecture. gestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the These, all having the same organic states same remedy, viz., purification and invigora-tion of the blood. for one year and a half I suffered everything but death from that awful disease called Dysis compounded from the most effectual antipepsia. My whole system was prostrated with dotes that medical science has discovered for weakness and nervous debility; I could not digest my food; if I are even a cracker or the this afflicting distemper, and for the cure of the disorders it entails. That it is far supesmallest amount of food, it would return just rior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, as I swallowed it; I became so costive in my bowels that I would not have a passage in less than from four and often eight days; under this immense suffering, my mind seemed enis indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, no ambition to do anything; I lost all my love of family and home; I would ramble and wan-Sgit Rhenm, Scald Head, Coughs from tuberculous deposits in the lungs, White der from place to place, but could not be contented; I felt that I was doomed to hell, and Swellings, Debility, Dropsy, Neuralgia, Swellings, Deblitty, Dropsy, Neuraigia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in ALER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be heared the directions for its use and some that there was no heaven for me, and was ofmy mind, from that awful complaint, Dyspepadelphia; I remained there nine weeks, and thought I was a little better, but in a few days my dreadful complaint was raging as bad as ever. Ilearing of the wonderful cures per-formed by Dr. Wishart's Great American Dys learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some pepsia Pills and his treatment for Dyspepsia, my husband called on Dr. Wishart and stated my case to him. He said he hid no doubt he would cure me. So in three days after I callone who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victime far more subject to discase and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these sconsiderations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER's SARFAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alternitive power. By its aid you may protect yourself from the suffer-ing and danger of these disorders. - Purge Delaware county, Pa. Dr. Wishart's Office, No. 10 North Second out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus, expels the distempers which lurk within the system or burst out on any part of it. We know the public have been dereived

by many compounds of Sarsaparilla, that promised much and did nothing; but they Dr. Wishart :-- I have been a constant sufpromised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more ef-tional than any other which has ever been able to them. most unfit for business of any kind; my mind was continually filled with gloomy thoughts
