## A LAST CARD.

# More About the Army Fraud.

The secret of the seizure of the army vote of New York, by order of Mr. Lin-coln, is to be found in despatches like those which we print below. Unable to control the soldiers in their choice, the Alministration is determined, by confiscating their votes, to maintain itself in power, in defiance of the popular will. The boxes containing the very ballots referred to in these despatches, have been taken charge of by Mr. Lincoln's deputies, and if they ever design to give them up, it will only be after they have stuffed them with enough fraudulent votes to control the result. We conv from the New York Ecoress. It is well to say, that the statements here given were published before the vote was confiscated, and probably furnished Mr. Lincoln with the information which decided him to seize the boxes, and to destroy returns an fatal to his political prospects:

"The voting in the army on James River, is now nearly over, and the result of the jority for General McClellan. The New York 69th voted all but one for McClellan. The 24 Corps voted 1,680 Democratic, to have been sent by mail. The 10th Corps is reported to have given a decided Democratc majority. The New York army vote is thought decidedly favorable."
