Universal Clothes Wringer.

SELF-ADJUSTING AND ADJUSTABLE, WITH COG-WHEEL REGULATOR.

FOR SALE BY
SHEADS & BUEHLER,
GETTYSBURG, PA.

From innumerable recommendations, we gather the following:

Letter from Mrs. Henry Ward Beecher, in 1861.

I am most happy to speak in the very highest terms of the "Universal Clothes Wringer." The hardest part of "washing-day" work is, in my opinion, the wringing; and the inventor of this machine may have the satisfaction of feeling that he has changed one of the most toilsome parts of woman's work into a very attractive amusement. The handles looks upon it as a great blessing, and upon it as among the most useful articles in the house.

DYSPEPSIA, DYSPEPSIA, DYSPEPSIA.

I, ELIZABETH BRANSON, of Brandywine Dell formerly of Old Chester, Del., do certify that for one year and a half I suffered every thing but death from an awful disease called Dyspepsia. My whole system was prostrated, and I had no appetite and various horrible feelings. I could not get my food to [illegible] I would [illegible] that I must die. I have had [illegible] from four and often eight days; under this immense suffering, my mind seemed entirely to give way. I had dreadful horrors and evil forebodings. I thought everybody hated me, and I hated everybody; I could not bear my husband nor my own children, everything appeared to be horror stricken to me; I had no ambition to do anything; I lost all my love of family and home; I would ramble and wander from place to place, but could not be contented; I felt that I was doomed to hell, and that there was no heaven for me, and was often tempted to commit suicide, so near was my whole nervous system destroyed, and also my mind, from that awful complaint, Dyspepsia, that my friends thought best to have me placed in Dr. Kirkbride's Hospital, West Philadelphia; I remained there nine weeks, and thought I was able to be home a few days my dreadful complaints were as bad as ever. Hearing of the wonderful cures performed by Dr. Wishart's Great American Dyspepsia Pills and his treatment for Dyspepsia, my husband called on Dr. Wishart and stated my case to him. He said he had no doubt he would cure me. So in three days after I called and placed myself under the Doctor's treatment, and in two weeks I began to digest my food, and felt that my disease was fast giving way, and I continued to recover for about three months, and at the present time I enjoy perfect health of body and mind, and I most sincerely return my thanks to a merciful God and Dr. Wishart, and to his great American Dyspepsia Pills and Pine Tree Tar Cordial that saved me from an Insane Asylum and premature grave. All persons suffering with Dyspepsia are at liberty to call on me or write, as I am willing to do all the good I can for suffering humanity. ELIZABETH BRANSON.

DYSPEPSIA! DYSPEPSIA!

Dr. Wishart:—I have been a constant sufferer, with Dyspepsia for the last eighteen years, during which time, I cannot say that I ever enjoyed a perfectly well day. There were times when the symptoms were more aggravated than at others, and then it seemed it would be a great relief to die. I had at all times an unpleasant feeling in my head, but utterly my sufferings so much increased that I became almost unfit for business of any kind; my mind was continually filled with gloomy thoughts and forebodings, and if I attempted to change their current by reading, at once a sensation of icy coldness in connection with a dead weight, as it were, rested upon my brain; also, a feeling of sickness would occur at the stomach, and great pain to my eyes, accompanied with which was the continual fear of losing my reason. I also experienced great lassitude, debility and nervousness, which made it difficult to walk by day or sleep at night. I became averse to society, and disposed only to seclusion, and having tried the skill of a number of eminent physicians of various schools finally came to the conclusion that, for this disease at my present age (45 years) there was no cure in existence. But, through the interference of Divine Providence, to whom I devoutly offer my thanks, I at last found a sovereign remedy in your Dyspepsia Pills and Tar Cordial, which seems to have effectually removed almost the last trace of my long list of ailments and bad feelings, and in their place health, pleasure and contentment are my everyday companions. A POSITIVE CURE FOR DYSPEPSIA.

HEAR WHAT MR. JOHN H. BABCOCK SAYS,

No. 1028 Olive Street,
Philadelphia, Jan. 22d, 1863.

Dr. Wishart—Sir:—It is with much pleasure that I am now able to inform you that, by the use of your great American Dyspepsia Pills, I have been entirely cured of that most distressing complaint, Dyspepsia. I had been grievously afflicted for the last twenty-eight years, and for ten years of that time have not been free from its pain one week at a time. I have had it in its worst form and have dragged on a most miserable existence—in pain day and night. Every kind of food that I ate filled me with wind and pain, it mattered not how light, or how small the quantity. A continued belching was sure to follow. I had no appetite for any kinds of meats whatever, and my distress was so great for several months before I heard of your Pills, that I frequently wished for death. I had taken everything that I had heard of for Dyspepsia, without receiving any benefit; but on your Pills being recommended to me by one who had been cured by them, I concluded to give them a trial, although I had no faith in them. To my astonishment, I found myself getting better before I had taken one-fourth of a box, and, after taking half a box, *I am a well man, and can eat anything I wish*, and enjoy a hearty meal three times a day, without inconvenience from anything I eat or drink. If you think proper, you are at liberty to make this public and refer to me. I will cheerfully give all desirable information to any one who may call on me.

Yours, respectfully, JOHN H. BABCOCK.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. These cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is compounded of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

An Interesting History

OF

DR. SCHENCK'S OWN CASE,

WHILE LABORING UNDER CONSUMPTION,

And how he Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills act on the System in Curing that Disease, and the

GREAT SUCCESS ATTENDING IT!!!

The above is a correct likeness of Dr. Schenck taken many years ago, after he had recovered from Consumption; by a course of his "SCHENCK'S PULMONIC SYRUP." The likeness, although it does not represent him anything like as bad as he was at the worst, yet it is in strong contrast with the hale and vigorous looks of the Portrait below, which is the true likeness of him at the present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons, in and around Philadelphia, who will recognize both portraits to be true representations. When the first was taken he weighed 95 pounds; at the present time his weight is 224 pounds.

NEW YORK, March 30, '64.

TO DR. SCHENCK:

Thirty years ago I was in the first stages of Pulmonary Consumption, and given up to die. I resided in Philadelphia, and Dr. Joseph Parrish, then of this city, ordered me to Moorestown, N. J., a distance of nine miles, which took me two days to get there. On my arrival I was put to bed, and there I laid for many weeks. This was my last place, where all my friends lived, and I dreaded Consumption more than Death. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to wind up my affairs. He had seen all my family go that way, and thought I was to go, too. Then I heard of the remedies I now offer to the public, which cured me. It seemed to me that I could feel them penetrating my whole system.

They soon ripened the matter on my lungs, and I would spit off more than a pint of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain, night sweats—all began to leave me, and my appetite became so great that it was with difficulty I could keep from eating too much. I soon gained my strength and I have been growing in flesh ever since. For many years I have enjoyed uninterrupted good health, keeping the liver and stomach healthy with the Seaweed Tonic and Mandrake Pills, as I am of a bilious temperament. My weight is two hundred and twenty pounds. From my recovery people would send for me, far and near, to see if their cases were like mine. For this purpose I my professional visits in the large cities. The consumptives wish to see the one that makes these medicines, and who was cured of consumption by them. To make new lungs, is impossible; but cavities in the lungs and chronic ulcerations of the bronchial tubes can be healed. Such cases are dying hourly under the ordinary treatment of physicians, and just such are cured by the proper use of Schenck's Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills.

I am now a healthy man, with a large cavity in the middle lobe of the right lung, the lower lobe very much hepatized and complete adhesion of the pleura. The left lung is sound, and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicians do not cure consumption is they try to do too much; they give medicines to stop the cough, to stop chill, to stop night sweats, hectic fever, and, by so doing, they derange the whole digestive power, locking up the secretions and eventually the patient sinks and dies. After I make a careful examination of the patient with the Respirometer, and find lungs enough left to cure, I direct the patient how to use the three remedies. Remove the cause and they will all stop of their own accord. No one can be cured of consumption, liver complaint, dyspepsia, catarrh, canker, ulcerated throat, unless the liver and stomach are made healthy. In New England this canker, chronic catarrh, ulcerated throat, elongation of uvula, is more prevalent than in any other section of the country. This is frequently caused by a foul stomach.—You may burn it out with caustic time and again, and all they will get is temporary relief. Correct the stomach and liver, and they will heal up themselves.

Good nutrition is the remedy. If you have any disease in any part of the body, it will remain there and decay more and more until you can get the stomach in the condition to digest food and make new blood to take the place of diseased matter. This is the only way to heal cavities in the lungs and ulcerated bronchial tubes. Correct the stomach and liver, and nature will do the healing. Many persons have an idea that certain medicines are great purifiers of the blood. When blood is once diseased it cannot be purified; it is diseased the same as the diseased matter in the system; but get the apparatus in order, the liver and stomach, and give it plenty of nourishing food it will make new blood, which will take the place of that which is diseased.

Schenck's Pulmonic Syrup is one of the best preparations of iron in use, it is a powerful tonic of itself, and when the Seaweed Tonic dissolves the mucus in the stomach, and it is carried off by the aid of the Mandrake Pills, the Pulmonic Syrup is made into blood. This is the only way to cure consumption. If I cannot get a good appetite, and food does not digest, I cannot cure the patient. Never mind the cough; remove the cause and it will stop of itself. This is the most trouble I have with my patients at my rooms. They say, "Doctor, I feel stronger; I can eat; my night sweats are better, and I feel better every way; but my cough is so bad yet;" and they are astonished to hear me say that does not matter; remove the cause and the cough will stop of itself. Schenck's Seaweed creates a good appetite in about nine days, when there is no lung disease, unless the liver is so congested that the Mandrake Pills cannot unlock the ducts of the gall bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stomach healthy and there is less danger of consumption or any other disease. It is hard to take cold when those organs are healthy. Those that are bilious, low spirited, dreary, feeling stupid, coated tongue, poor appetite, nervous, stomach full of wind, everything that is eaten lies heavy, loss of memory, try one bottle of SCHENCK'S SEAWEED TONIC and one box of SCHENCK'S MANDRAKE PILLS. It is only a cost of one dollar and twenty-five cents, with full directions. This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that enjoys ordinary health, by using the Seaweed Tonic and Mandrake Pills occasionally, must get the digestive organs in such a healthy condition that they become deshy. I can produce a number of my old consumptive patients now enjoying good health, weighing nearly 200 pounds. I will conclude by relating three cures I have made in New York, and which are all different, and will any one who feels any interest in the matter to visit them. First is Mrs. Farlow, residing then at No. 107 Houston street. Her husband called upon me at my rooms, 32 Bond street, and wished me to call and see her. He said I could do no good; that he had had all the best medical attendance, and all said she was too far gone with Consumption to be cured; but she had heard of some great cures I had made, and he desired to gratify her wishes.—I called, and found her lying confined to her bed in the last stage of bronchial consumption, and without doubt must have died soon. I examined her lungs, found both bronchial tubes very much affected, but no cavities had formed, her cough was very severe, the spit-box was half full of thick pus. Pulse 140, legs swollen very much; and worse than all, she had chronic diarrhœa. Her bowels had been moved eleven times that day. I told her that she had lungs enough to be cured, but that this diarrhœa had been of long standing, and her stomach was in such an ulcerated condition that I was afraid nothing could be done. She insisted I should try and do what I could for her, observing that she could not last long in the condition she was in, and I could not make her any worse. I gave her first a dose of my Mandrake Pills, and the Tonic and Syrup freely. That was on Tuesday, and by the next Sunday the diarrhœa was carried off, her appetite had returned and she could sit up in bed and eat her dinner. She is now well, and gave me a long certificate, certified to by the Rev. Dr. Dowling.

Mrs Bartholomew, 83 West Forty-fifth street, came to my rooms with a tumor on her liver. She was low-spirited, skin sallow, tongue coated, bowels costive, no appetite, and fast sinking into the grave. The said tumor had been running over fourteen years. I gave her Syrup, Tonic and Pills, and told her to take them just as the directions were printed. She came back to my rooms, 32 Bond street, in two weeks, somewhat better; her tongue had begun to clean a little around the edges her skin whiter and her eyes brighter, and the tumor discharging very offensive matter, much faster than it had ever done before. She kept gradually improving, and in about two months she came to my rooms very much brightened, saying that the tumor had nearly stopped running, and was healing up, and that every doctor had told her that if it ever healed it would cause her death. I told her that the disease had all left her system, and nature would heal the ulcer up. They are now healed, and have been for about a year, and she is as hearty and robust a woman as you will find in a day's walk. She is glad for any one to call on her, and takes great pains to visit any one that she hears has anything like her case, and tries to get them to come and see me.

The next case is Miss Scofield, from Stamford, Conn. Mrs. Bartholomew got her down to see me, and she has been ever since at her house. When she first came to my rooms, she was much emaciated with a distressing cough, spitting large quantities of blood. I examined her lungs with the respirometer, and in all my practice never found one with one lung so far gone and the other lung so sound. I could not give much encouragement. I thought she would die; but to my astonishment the Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills all seemed to go right to work the lung is all healed over, leaving a cavity as large as a goose egg; good appetite, fine spirits, and has gained some thirty five pounds in weight. She has some cough yet, which I do not think will leave her before June. I should think it would be of great interest to some unprejudiced physician to visit these cases, particularly Miss Scofield, or any of them who have been cured by my medicines. They are numerous in New York; but the above three all differ from each other; and if my medicines are doing what I represent they are, they should have the credit and the afflicted know where and how they may be cured. J. H. SCHENCK, M. D.

Dr. J. H. Schenck can be found at his principal office, No. 39 North 6th Street, Philadelphia, every Saturday, from 9 A. M. until 5 P. M., to give advice, free of charge; but for a thorough examination he charges three dollars. Price of the Pulmonic Syrup and Seaweed Tonic each $1.25 per bottle, or $6 the half dozen. Mandrake Pills 25 cents per box, and are for sale by all Druggists and Dealers.
