The Loudon correspondent of the Cambridge Independent gives the following statement from the Boy. &. Martin, of Trowbridge, as his authority for the paragraph which has been going the rounds of the journals in relation to the gure of diabetes; Some years and, in the course of my pastoral work. I met with a middle aged anan of this town (Trowbrige.) veterinary surgeon, who was thus afflicted (i. e., with diaances.) He had long been given up by the 2th. Ne doctor, and appeared to be on the very verge at night. of the grave. Just at t'at time I heard of a of the grave. Just at that time I heard of a nethod of cure that had been adopted by a Lusheran clergymau in Germany with remarkable success, and through the kindness of a friend I obtained the receipt. It is simply this:

The taking of fresh barm or yeast three or four times a day, at the same time meeting the waste a perfect cure. We warrant a cure in every a perfect cure.

For some time after adopting it very little charge, on reseipt of money. improvement was preceptible; he persevered, however, and although his recovery was slow, he was, under the Divine blessing, at length perfectly restored. In several other cases, too, It has been successful, and among others is the formerly of Old Chester, Del., do certify that, for eac year and a half L suffered everything fresh and good, not stale or sour. It may be fresh and good, not stale or sour. It may be taken at seven o'clock in the morning, again at seven o'clock in the morning again at seven o'clock in the morning again at seven a cracker or the at eight in the evening. Two tablespoonfulls sach time, mixed in a tea cup or tumbler with a little cold water; say the barm and the water about equal proportions. As the disease has such a fearful effect in reducing the system, this must be counteracted, as far as possible, by strengthening diet, chiefly of animal food, which should be confined to small quantities and often.

SAMUEL BOTT,

43 South Third St., Philadelphia, Pa. June 13, 1864. ly

THE peculiar taint or infection which we call Schopula lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein of the blood, wherein that fluid becomes inthat find occomes inlike competent to sustain
the vital forces in their
vigorous action, and
leaves the system to
fall into disorder and

decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filty habits, the American international content of the conten the depressing vices, and, above all, by the veneral infection. Whatever be its origin, it is hereditary in the constitution, descending in from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsis, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" v. vou cannot have scrot

Ayer's Sarsaparilla & mpounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Formale Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Aver's AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to discase and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Aven's SARSAPARILLA, although it is composed of of Saraparilla, among it is composed on ingredients, some of which exceed the best of Saraparilla in alterative power. By its aid you may protect sourcelf from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its pecu-liar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out

on any part of it. We know the public have lieen deceived by many compounds of Karsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more ef-fectual than any other which has ever been

AYER'S CHERRY PECTORAL, The World's Great Remedy for Coughs, Colds, Incipient Conougns, Colds, Incipient Col sumption, and for the relief of Consumptive patients in advanced stages of the disease;

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the least it ever has been, and that it has be relied of to do all it has ever done.

Correct the stomach and liver, and they will

J. S. CRAWFORD. ical up themselves.

Good nutrition is the remedy. If you have A. Cobean & Co. any disease in any part of the body, it will remain there and decay more and more until you can get the stomach in the condition to digest food and make new thood to take the LAWRENCE D. DIETZ & CO., place of diseased matter. This is the only respectfully beg leave to notify their friends, way to heal cavities in the lungs and ulcerated bronchial tubes. Correct the stomach and have removed from No. 151 Franklin street, to liver, and nature will do the healing. Many the commodions four-story Warehouse, persons have an idea that certain medicines NO. 308 BALTIMORE STREET, are great purifiers of the blood. When blood is between Howard and Liberty, where they once diseased it cannot be purified; it is dis- for the future conduct the Wholesale Basieased the same as the diseased matter in the ness, solely in system; but get the apparatus in order, the liver and stomach, and give it plenty of nourshing food it will make new blood, which will

take the place of that which is diseased. Schenck's Pulmonic Syrup is one of the best Toys, &c., &c.
preparations of iron in use, it is a powerful to which they invite the attention of city and tonic of itself, and when the Seaweed Tonic country purchasers, feeling confident of their dissolves the mucus in the stomach, and it is ability to offer inducements in prices and tarried off by the aid of the Mandrake Pills, the Pulmonic Syrup is made into blood. This is the only way to cure consumption. If I ton. Address cannot get a good appetite, and food does not digest, I cannot cure the patient. Never mind the cough; remove the cause and it will stop of itself. This is the most trouble I have with my patients at my rooms. They say, "Dootot, I feel stronger; I can ent; my night sweats are better, and I feel better every way; but my cough is so had yet." and they are atonmy cough is so bad yet;" and they are aston ished to hear me say that does not matter remove the cause and the cough will stop of itself. Schenck's Seaweed creates a good ap-petite in about nine days, when there is no lung disease, unless the liver is so congested that the Mandrake Pills cannot unlock the ducts of the gail bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stomach healthy and Full instructions accompanying each office enoff. Keep the liver and stomach healthy and there is less danger of consumption or any other disease. It is hard to take cold when those organs are healthy. Those that are bilious, low spirited, dreary, feeling stupid, coated tongue, poor appetite, nervous, stomach full of wind, everything that is eaten lies heavy, loss of memory, try one bottle of SCHENCK'S MANDRAKE PILLS. It is only a coat of one MANDRAKE PILLS. It is only a coat of one SEAWEED TONIC and one box of SCHENCK'S MANDRAKE PILLS. It is only a cogt of one dollar and twenty-five cents, with full directions. This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that enjoys ordinary health, by using the Seaweed Tonic and Mankrake Pillsoccasionally, must get the digestive organia in such a healthy condition that they become

fleehy. I can produce a number of my old consumptive patients now enjoying good bealth weighing nearly 200 pounds. I will conclude by relating three cures I have made in New York, and which are all different, and wish any one who feels any interest in the matter to visit them. First is Mrs. Farlow, residing then at No. 107 Houston street. Her husband GREAT SUCCESS ATTENDING IT!!! called upon me at my rooms, 32 Bond street, and wished me to call and see her. He said too far gone with Consumption to be cured; but she had heard of some great cures I had made, and he desired to gratify her wishes.—
I called, and found her lying confined to her bed in the last stage of brouchial consumption, and without doubt must have died soon.
I examined her lungs, found both bronchial tubes very much affected, but no cavities had formed, her cough was very severe, the spit-bog was half full of thick pus. Pulse 140, legs swollen very much; and worse than all, she had chronic diarrhea. Her bowels had been moved eleven times that day. I told her that she had lungs enough to be cured, but that this diarrhoen had been of long standing, and her stomach was in such an ulcerated con dition that I was afraid nothing could be done She insisted I should try and do what I could for her, observing that she could not last long in the condition she was in, and I could not

> running over fourteen years. I gave her Syrup, Tonic and Pills, and told her to take them just as the directions were printed. She came back to my rooms, 32 Bond street, in two skin whiter and her eyes brighter, and the tumor discharging very offensive matter, much faster than it had ever done before. She kept gradually improving, and in about two months she came to my rooms very much to the state of saving that the tumor had nearly stopped running, and was healing up, and that every doc-tor had told her that if it ever healed it would cause her death. I told her that the disease had all left her system, and nature would heal the ulcer up. They are now healed, and have been for about a year, and she is as hearty and robust a woman as you will find in a day's She is glad for any one to call on he and takes great pains to visit any one that she

hars has anything like her case, and tries to get them to come and see me.

The next case is Miss Scofield, from Stam-ford, Conn. Mrs. Bartholomew got her down to see me, and she has been ever since at her house. When she first came to my rooms, she was much emaciated with a distressing cough, spitting large quantities of blood. 1 xamined her lungs with the respirometer, and in all my TO THE PUBLIC.

Thirty years ago I was in the last stages of gone and the other lung so sound. I could not Thirty years ago I was in the last stages of gone and the other lung so sound. I could not Pulmonary Consumption, and given up to die, I resided in Philadelphia, and Dr. Joseph Parrish, then of this city, ordered me to Morestown, N. J., a distance of nine miles, which took me two days to get there. On my arrival I was put to bed, and there laid for many weeks. This was my native place, where all my family lived and had died of Consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my fam. physician to visit these cases, particularly Miss Scofield, or any of them who have been cured ily go that way, and thought I was to go, too. I Scoffeld, or any of them who have been cured by my medicines. They are numerous in New the public, which cured me. It seemed to me that I could feel them penetrating my whole the public which cured me, they are they about have the credit represent they are, they about have the credit that I could feel them penetrating my whole system.

They soon ripened the matter on my lungs, and I would spit off more than a pint of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain.

ties. The consumptives wish to see the one that makes these medicines, and who was for the liberal support extended to us. Our boating, dec, and finally will act as Cashiar, lungs is impossible; but cavities in the lungs by request those indebted to us to call and that makes these incurrences, and was consumpted to us to call and chronic ulcerations of the bronchial tubes and chronic ulcerations of the bronchial tubes.

Jan. 30, 1864. JOHN CULP.

A Card.

I am now a healthy man, with a large cavity in the middle lobe of the right lung, the lower lobe very much hebatized and complete adhesion of the pleura. The left lung is sound, and the upper lobe of the right lung is in a tolerably healthy condition. The great reactions are tolerably healthy condition. The great reactions are tolerably healthy condition. The great reactions are great reactions and the adoption of the new patronize his successor—where Bargains may be had.

Stratton Byan I 6: NTERNATIONAL CHAIN OF COMMERCIAL COLLEGES, Established in the following cities:
PHILADELPHIA,

Business Education.

The Philadelphia College stands first in the State, both in point of reputation and local advantages. The point aimed at is, to place Commercial Education where it belongs—in the front rank of useful instruction. To this end, a most thorough course of business training is adopted and carefully enforced, under the personal supervision of competent Pre-fessors in the various departments. The most perfect system of practical training ever devised has been put in operation, and is suc-cessfully carried out, affording to students advantages such as have hitherto been considered pessible only in connection with the counting-house. After becoming proficient in the Science of Accounts, Penmanship, Commercial Calculations and Commercial Law, the student is advanced to the Practical Department, where he becomes an actual Book-keep er and Merchant; passes through the different Houses; acts insturn as Teller, Cashier, &c. learns the duties and responsibilities of each office, and becomes thoroughly informed, not the only in the forms which are in universal use,

Universal Clothes Wringer. SELF-ADJUSTING AND ADJUSTABLE, WITH COG-WHEEL REGULATOR:

GETTYSBURG, PA.

gather the following:
Letter from Mrs. Henry Ward Beecher, in 1861.
I am most happy to speak in the very highest terms of the "Universal Clothes Wringer." The hardest part of "washing-day" work is, in my opinion, the wringing; and the inventor of this machine may have the satisfaction of feeling that he has changed one of the most tollsome parts of woman's work into a very amusement. The laundress looks upon it as a great blessing. I look upon it as among the most useful articles in the house.
Brooklyn, October, 1861.

Price-\$7 00.
