in the prayer books of these sects, are not generally understood by those not belonging to she above churches. They are abbreviations of the Latin phrase, viz .- Jesus Hominum Sulvator," which signifies, "Jesus the saviour of man." Some may ask why the letter I is used instead of J? Because formerly there was no letter J in the Roman alphabet; then I was 65 and 167 Baltinoge Street, used where I now is. Many of our readers can probably remember having seen the name of John spelled Ihon.

The peculiar taint or infection which we call Scropula lurks in the constitutions of multitudés of men. It either produces or is produced by an en-feelded, vitiated state of the blood, wherein that fluid becomes incompetent to sustain competent to sustain resonant the vital forces in their vigorous action, and igorous action, and leaves the system to

decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tuborcles, and finally Consumption; in the glands, swellings which supparate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion descential and liver computations. bowels, derangements which produce indi-gestion, dyspepsia, and liver complaints; on the skin, eriprive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "hie of the flesh" healthy, you cannot have scrofulous disease. Ayer's Sarsaparilla

is compounded from the most effectual anti-dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far supe-rior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is iadisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Fornale Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Ayer's AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those eases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years apperfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Allies Sarsararilla, although it is composed of ingredients, game of which exceed the best of Sarsoparies in alterative power. By its aid you may protect yourself from the suffer-ing and danger of these disorders. Purge out the foul corruptions that not and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its pecu-liar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they

will neither be deceived nor disappointed in this. Its virtues have been proven by abunant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been activated to the control of t

Schenck's Pulmonic Syrup's one of the best preparations of iron in use, it is a powerful tonic of itself, and when the Seaweed Tonic dissolves the mucus in the stomach, and it is carried off by the aid of the Mindrake Pills, quality offords, the Pulmonic Syrup is made into blood. This is the only way to care consumption. It I ton. is the only way to cure consumption. If I cannot get a good appetite, and food does not digest, I cannot cure the patient. Never mind digest, I cannot cure the patient. Never mind the cough; remove the cause and it will stop of itself. This is the most trouble I have with my patients at my rooms. They say, "Doctor, I feel stronger; I cannot at; my night sweats are better, and I feel better every way; but my cough is so bad yet;" and they are asjonished to hear me say that does not matter, remove the cause and the cough will stop of traits. See where I seed a good or itself. remove the cause and the cough will stop of itself. Schenck's Segreed creates a good ap-petite in about nine days, when there is no lung disease, unless the liver is so congested that the Mandrake Pills cannot unlock the ducts of the gall bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stomach dealthy and off. Keep the liver and stomach fealthy and there is less danger of consumption or any other disease. It is hard to take cold when those organs are healthy. Those that are billious, low spirited, dreary, feeling stupid, coated tongue, poor appetite, nervous, stomach full of wind, everything that is caten lies heavy, loss of memory, try one bottle of SCHENCK'S MANDRAKE TELS. Cuiled upon me at my rooms, 32 Bond street, and wished me to call and see her. He said
I could do no good; that he had had all the best medical attendance, and all said she was too far gone with Consumption to be cured but she had heard of some great cures I had and and he desired to gratify her wishes.

I called and found her lying confined to he,
bed in the last stage of brouchial consumption, and without doubt must have died soon I examined her lungs, found both bronchis trubes very much affected, but-no cavities had formed, her cough was very severe, the spit-box was half full of thick pus. Pulse 140, legs awollen very much; and wome than all, she had chronic diarrhon. Her bowels had been moved eleven times that day. I told her that she had lungs enough to be cured, but that this diarrhow had been of long standing, and her stomach was in such an ulcerated con-dition that I was afraid nothing could be done. She insisted I should try and do what I could The above is a correct likeness of Dr. Schenck, for her, observing that she could not last long taken many years ago, after he had recovered in the condition she was in, and I could not

Strup. Tonic and Pills, and told her to take
them just as the directions were printed. She came oack to my rooms, 31 Bond street, in two weeks, somewhat better; her tongue had neweeks, somewhat better; her tongur man ne-gun to clean a little around the edges her skin whiter and her eyes brighter, and the tumor discharging very offensive matter, much faster than it had ever done before. She kept gradually improving, and in about two months she came to my rooms very much frightened, saying that the tumor had nearly stopped run-ming, and was healing up, and that every doc-tor had to'd her that if it ever healed it would cause her death. I told, her that the disease had all left her system, and pature would heal the ulcer ap. They are now healed, and have been for about a year, and she is as hearing and robust a wom in as you will find in a day's walk. She is glad for any one to call on her, nd takes great pains to visit any one that she lears has anything like her case, and tries to t them to come and see me.

ford, Conn. Mrs. Bartholomew got her down to see me, and she has been ever since at her house. When she first came to my rooms, she man much emociated with a distressionary new much emociated with a distression cough, putting large quantities of blood. I examined her lung, with the respirometer, and mail my mactice never found one with one lung so far me and the other lung so sound. I could not 🔹 🕻 tive much encouragement. I thought she tould die; but to my astonishment the Pulpone Syrap, Seaweed Tonic, and Mandrake Mils all seemed to go right to work the lung Hall healed over, leaving a cavity as large as physician to visit these coces, particularly Miss Sofield, or any of them who have been cored Sofield, or any of them who have been cured by m, medicines.
