The surious question falls. You go and sea the girl you love, To drive your cares away;

You kiss, and then she sweetly says, Oh! "How is gold to-day ?"

"Ah yes, I thought so," resumed the former, turning to his companion, or attache, and pointing to the old war steed with that interest with which he was known ever to regard fine horses. "I thought it could be no other. Just glance at his leading points -shapely head, arched neck, deep chest, haunches, and limbs. I have seen Col. It was earnestly hoped by many, that,

after the subsidence of the excitement naturally incident to an important presi-dential election, we would—and especially those professing Christians-be inclined to kindlier and more charitable dispositions; and greater tolerance in regard to political differences, as it is impossible, even were it desirable, for all to think alike; and it cannot but be deplored by all right-think ing men, that this intolerant spirit should first display itself in one of the leading and

most influential churches in our city.

The sympathy for Mr. Steck, who is the victim of this unchristian spirit, will not be confined to those who agree with him po litically, either inside or outside of the church, but will extend to the liberal and enlightened Christians of all denominations in this community, and elsewhere; and in withdrawing our membership from the First Evangelical Lutheran Church, and in organizing St. John's Church, we have not en actuated by any unchristian feeling toward those with whom we were formerly associated, but an unwillingness to submit to a spirit of political intolerance, which, if allowed to go unrebuked, must prove fatal to all religious organizations and destroy their influence for good—must loose the very bonds of our social system, and arouse antagonisms which would eventually in-solve us in violence and ruin. We disclaim all connection with any political party, and desire only the preaching of the gospel of Christ and the advancement of his kingdom. Such is our purpose and aim, and such we know will be the course of our worthy pastor, whatever aspersions or misrepresentations may be made ties interested in defeating the new church enterprise, and however much we may regret the manifestations of such a spirit from those professing to be followers of the Prince

Mr. Johnson. Redress! It is not full redress, but it is such as the President can give. Full redress can only be obtained by sueing the wrong doer, if he be worth the amount of indemnity.

### TREASURY "RATS."

A Beautiful Development.—Rather a rich development has been made in the Post Office Department latterly, of which I have seen no account except a vegue hint in the Chronicle, though it is known generally about town. The facts in the case, which I have obtained from the most authentic sources, are as follows: Grun Adams, late Auditor of the Post office Department, and John F. Sharre ta, his chief clork, had been in the habit of selling the waste paper of the department, which accumu rapidly, to dealers, and putting in their own pockets. During to they have sold over \$5,000 worth, not one dime of which have they ever paid into the Treasury: They even went farther. They cut down the wages of the laborer who had been employed to prepare the paper for selling, from \$40 a month to \$50 a quar-ter. They said that in the present rebell-

ion, when the country was reeling under such a terrible load of expense and debt, it was the duty of every public officer to save what he could to the Government, and make all the sacr fice possible to save his blending country. They, therefore, with great reluctance, reduced the poor devil's wages twenty dollars a quarter, and mournfully put the same in their pockets. They then divided their ill gotten gains and left ... pears in it which puts the after in an entire it is citizens the least freedom would toler tight. As an act of justice to Mr. S., who has hosts of friends in this city, and to show the reason for the Telegraph's attack, we give below the communication entire:

# A FAMILY JAR.

A rebellion has broken out in the royal family of England. The Princess Mary, of Cambridge, it is corrently rumored, has married Viscount Hood. According to the royal marriage act, a member of the royal family cannot marry without the consent of the sovereign or giving notice to the Privy Council, and even when this notice is given the marriage may be declared illegal by act of Parliament. Queen Victoria pos-itively refused her sanction, as she has in-variably done every time the poor Princess has had an offer, and the latter; who is now thirty-one, and has no time to lose has now it was the Frestlent's duty to administer gustice, and in doing so he believed he gustice, and give all ces. Whether Parliament will eventually take the part of the royal rebel, or of the offended Queen, is still uncertain; but meantime, we are constrained to recognize Mrs. Hood, as a belligerent and very determined female, who can safely defy Victoria to make her an old maid again by not of Parliament.

Horrible Barbarity in Japan.-The Paris Galignani has received a letter from Hallon to the effect that the Prince of Nagatto, having refused to pay the war indemnity stipulated in the treaty of peace signed by him, the criminal tribunal of Yeddo had decided that his two palaces should be rased to the ground and his servants put to death. This sanguinary sentence was approved by the Mikado and Tycoon, the temporal and/ spiritual sovereigns of Japan. The number sentence was 420 men and 215 women and his war, they would never have engaged children. The Prince himself besought the nit.
