## Various,

A HUNDRED YEARS TO COME. Where, where will be the birds that sing Ahundred years to come?

The flow'rs that now in beauty spring, A handre byears to come? The rosy lip, the lofty brow, The heart that beats so gayly now? D where will be love's beaming eye,

Joy's pleasant smile, and sorrow's sigh? A hundred years to come? A hundred years to come? Where? where? where? a hundred years to

come? Who'll throng for gold this crowded street,

A hundred years to come? Who'fl tread this church with willing feet,

A handred years to come ! Pale, trembling age, and flery youth, And childhood, with its heart of truth? The rich, the poor, on land and sea-

Where will the mighty millions be? We all within our graves shall sleep, A hundred years to come? No living sonl for us will ween.

A hundred years to come ; But other men our lands will till. And others then our streets will fill.

While other birds will sing as gay-As bright the sun shing as to-day.

MODES OF PERDING STRAW. The discussion upon modes of economis

ing the Food of Stock continues with unabated vigor, under the pressure of a short root crop and high prices for oil cake and many other feeding materials. Mr. Lawrange, of Citencester, describes his plan of paing chaff as follows: "We find that, tahaing chaff as follows: "We find that, taking a score of bullocks together fattening, sher conjume per head per diem 3 bushels of chaff mixed with just half a hundred."

HAMEETSBURG ST. ALWAYS AHEAD.

THIS WAY FOR BARGAINS.—JOHN L. HOLT ZWORTH has just returned from the weight of pulped roots, exclusive of cake or sorn; that is to say, rather more than 2 bushels of chaff are mixed with the roots, and given at two feeds, morning and evening, and the remainder is given with the cake, &c., at the middle of the day feer, thus: We use the steaming apparatus of Stanley of Peterborough, consisting of a boiler in the centre, in which the steam is generated; and which is connected, by a pipe on the left hand, with a large galvanpipe on the left hand, with a large galvan- ings, Tobacco, Cigars, and Notions of every pipe on the left hand, with a large galvan-ized iron receptable for steaming food for Don't forget the place. Chambersburg

mixed with water is made into a thick soup. Adjoining this is a slate tank of sufficient size to contain one food for the entire lot of bullocks feeding. Into this tank is laid chaff about one foot deep, upon which a few ladles of soup are thrown in a boiling state; this is thoroughly mixed with the chaff, with a three-grained fork, and pressad down firm; and this process is repeated until the slate tank is full, when it is covered down for an hour or two before feeding time. The soup is then found entirely

softened and prepared for ready digestion." AGRICULTURAL STATISTICS.

absorbed by the chaff which has become

has only just been printed, it appears that the Brace of an accounting of the establishment of legitimate Offices and Counting-House, representing the Brace of Illinois produced the largest ing different departments of Trade and Company of wheat and Indian corn of any quantity of wheat and Indian corn of any merce, and a regular Bank of Deposit and is-State in the Union, vis: 23.837.003 bushels sue, giving the student all the advantages of of wheat and 119,474,777 bushels of Indian shortest possible time and most effective man-

Pennsylvania produced the most rye and buckwheat, 5,474,788 bushels of the former and 5,572,024 of the latter.

New York produced the most oats, potatoes, hay, butter and cheese.

Ohio produced the most wool and wine; 617 gallons of the latter.

Kentucky the next largest quantity; the of Accountant and Proprietor in the various former 123,958,312 pounds, and the latter Departments of Wholesale and Betail Trade,

and 13,439,772 gallous of the latter.

en o'clock, two soldiers kicked against the deer of Mr. John Meil, on Pitt street, and demanded admittance, alleging that they had a warrant to search the Donse has being a serious practical system.

Diplomas awarded upon the completion of the Commercial Course, which sembraces all except the higher sets of Banking, Manufacturing, Railroading, &c. warrant to search the Douse, but being refused admittance, they swore they would burst the door oper, but before they could carry out their threat, Mr. Mell made his appearance and domanded their authority. This they refused: to give, but attempted to force their way into TATLENATIONAL CHAIN OF the honse, when one of them received a blow which laved him on the pavement. The other one then shot at Mr. Mell, doing him no injury, however, and both beat a hasty retreat—the New York, Brooklyn, Albany, Troy. Provione, at least, with such proofs of the enemy's
dence, Portland, Hartford, Burlington,
Newark, Rochester, Buffalo, Toronto, strength as to warn him against midnight raids on peaceful citizens - Carlisle Democrat.

THE peculiar taint or infection which we call Schorula lurks in the constitutions of multitudes of men. It either produces or is produced by an en-feebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their igorous action, and caves the system to decay. The scrofulous contamination is va-

decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, flith and flithy habits, the depressing vices, and, alove all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the injunities of the fathers upon their seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and be-come ulcerous sores; in the stoudch and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutageous affections. These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you canno have health; with that "life of the flesh" healthy, you cannot have scrofulous digense. Ayer's Sarsaparilla

is compounded from the most effectual anti-dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it Evil, or Glandular Swellings, Tumors. Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspensia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYLE'S AYERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to come one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of ALRES BARSAPARILLA, although it is composed of ingredients, some of which exceed the bast of Saraparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and ferer in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expuls the distenspers which lurk within the system or burst out

on any part of it.
We know the public have been deceived by many compounds of Sorrora ella, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of ats surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more ef-fectual than any other which has ever been

AYER'S CHERRY PECTORAL; The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages

of the disease. This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept than assure the public that its quanty is acpute to the best it ever has been, and flat it may be relied on to do all it has ever done.

NEW YORK Wednesday March 30, 164.

TO THE PUBLIC.
Thirty years ago I was in the last stages of Thirty years ago I was in the last states of Pullmantry Consumption, and given up to die. I reshied in Philade phia, and D. Joseph Parrish, then of this city, ordered the to Morestown N. J., a distance of nine miles, which took me two days to get there. Onmy arrival I was put to bed, and there land for many weeks. This was my active place, where all my family liked and had died of Consumption. Dr. Thornton, who attended my fathed in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my family liked and the died of Consumption ily go that wir, and thought I was to go too. Then I beard of the remedies I now-offet to the I don't the public, which ended me. It seemed to my the that I could feel them peucitating my whole system.

that I could feel them penetrating my whole statem. Come that I could feel them penetrating my whole statem. They soon ripened the matter on my lungs, and I would spit off more than a pint of offensive yellow matter every morning. As soon as that began to subside, my longia, fever, pain, might sweats—all began to feate me, and my appetite become so great that k was with difficulty I could been from earing too much. I soon gained my strong and I have been groating in fiels ever, since. For many cars I have enjoyed uninterpopted good health, keeping the liver and stonich healthy with the Seaved Tonic mad Mandrake Pills, as I am of a billoits temperament. My weight is two handered and twenty pounds. On my recovery people would send for me, for and near, to see if their cases were like mine. For this parpose I pay professional visits in the large cities. The consumptives wish to see the one that makes these medicines and who makes the set that the large of the constant o that makes these medicines, and who was for the liberal surpais extended to us. Our cured of consumption by them. To make new looks will be but a vite store; and we carned lungs, is impossible, but cavities in the lungs. By request those indebted to us to call and and chronic ulcerations of the brone hial tubes of the aled. Such cases are dying hourly under the ordinary treatment of physicians, and just such are cured by the proper use of Schonek's Pulmonic Same Same Touch and Julia 20, 1864. Julia CULP. Schenck's Pulmonic Syrup, Seaweed Tonic,

Scienck's Pulmonic Syrup, Seawerd Tonic, and Mandrake Pills.

I am now a healthy man, with a large cavity in the middle lobe of the right lung, the lower lobe very much healthy health lung is sound, healthy condition. The left lung is sound, and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicians do not cure consumption is they try to do too much: they give medicines to stop the cough, to stop chill, to stop chill, to stop the continuous of this friends and customers to hard.

fle-hy. . I can produce a number of my old DR. SCHENCK'S OWN CASE,
while Laboring under consumption,
and how his Pulmonic Syrup. Scawced Tonic, and
Mandrake Pills act on the System in
Curing that Disease, and the
GREAT SUCCEPSES APPENDING. called upon me at my rooms, 32 Bond street, and wished me to call and see her. He said I could do no good; that he had had all the best medical attendance, and all said she was too far gone with Consumption to be cured; but she had heard of some great cures I had made, and he desired to gratify her wishes.—
I called, and found her lying confued to her
bed in the last stage of broughful consumption, and without doubt must have died soon. I examined her lungs, found both bronchial tubes very much affected, but no cavities had formed, her cough was very severe, the spit-box was half full of thick pus. Pulse 140, legs swollen very much; and werse than all she had chronic diarrhess. Her bowels had been moved eleven times that day. I told her that she had lungs enough to be cured, but that this diarrhom had been of long standing, and her stomach was in such an ulcerated con-The above is a correct likeness of Dr. Schenck taken many years ago, after he had recovered from Consumption; by a course of mix "Schencks Pulsonic Strup." The likeness, although it does not represent him anything likeness had as he was at the worst, yet it is in strong contrast with the hale and vigorous looks of the Portrait below, which is the true likeness of him at the present time. The con-

that many would not believe them to be the same person. Yet there are hundreds of person, in and around Philadelphia, who will reconize both portraits to be true representations. When the first was taken he weighed to pounds; at the present time his weight is 220 pounds.

The said tumor on her lives, come to my rooms with a tumor on her lives, come to my rooms with a tumor on her lives, sons, in and around Philadelphia, who will show as low-spirited, skin sallow, tongue coafficient. When the first was taken he weighed to pounds; at the present time his weight is 220 pounds. running over fourteen years. I gave her Syrup, Togic and Pills, and told her to take them just as the directions were printed. She came back to my rooms, 32 Bon I street, in two week, somewhat better; her tongue had negun to clean a little around the edges her skin whiter and her eyes brighter, and the tumor discharging very offensive matter, much faster than it had ever done before. She kept gradually improving, and in about two months she came to my rooms very much frightened, saying that the tumor had nearly stopped running, and was healing up, an Athat every doctor had to'd her that if it ever healed it would cause her death. I told her that the disease. had all left her system, and nature would heal the ulcer up. They are now healed, and have been for about a year, and she is as hearty and robust a woman as you will find in a day's walk. She is glad for any one to call on her, and takes great pains to visit any one that she her sied arything like her case, and tries to get them to come and see me. The next case is Miss Scotield, from Stan-

ford, Conn. Mis. Bartholumew got her down to see me, and, she has been ever since at her house. When she first came to my rooms, she was much come ated with a frattering rough, her langs with the respiraneter, and in all my practice acree found one with one lung so lar
