THE peculiar taint or call Schorula lurks in the constitutions of either produces or is produced by an en-feebled, vitiated state of the blood, such that huid becomes inof the blood, wherein that fluid becomes inleaves the system to

decay. The scrofulous contamination is variously caused by mercurial disease; low hving, disordered digestion from unhealthy food, impure air. filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla Ayer's Sarsaparilla

is compounded from the most effectual anti-

is compounded from the most effectual anti-dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far supe-rior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is irrilismately from the greet multitude. is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to discase and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSATARILLA, although it is composed of ingredients, some of which exceed the best of Saršaparilla in alterative power. - By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out

on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing;; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the care of the effect of afflicting diseases it is intended to reach.

Although under the same name, it is a very different medicine from any other which has been beforg the people, and is far more effectual than any other which has ever been

AYER'S CHERRY PECTORAL, The World's Great Remedy for

sumption, and for the ralief of Consumptive patients in advanced stages of the disease. This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been and that it may be relied on to do all it has ever done. heal up themselves.

Good nutrition is the remedy. If you have any disease in any part of the body, it will remain there and decay more and more until you can get the stomach in the condition to remain there and decay more and more until you can get the stomach in the condition to digest food and make new blood to take the place of diseased matter. This is the only way to heal cavities in the lungs and ulcerated bronchial tubes. Correct the stomach and liver, and nature will do the healing. Many persons have an idea that certain medicines are great purifiers of the blood. When blood is once diseased it cannot be purified; it is diseased the same as the diseased matter in the system; but get the apparatus in order, the liver and stomach, and give it plenty of nourishing food it will make new blood, which will take the place of that which is diseased.

Schenck's Pulmonic Syrup is one of the best

NOTICE OF REMOVAL.

LAWRENCE D. DIETZ & CO., respectfully beg leave to notify their friends, customers and the public generally, that they have removed from No. 151 Franklin street, to the commodions four-story Warehouse, NO. 308 BALTIMORE STREET, between Howard and Liberty, where they will or the future conduct the Wholesale Business, solely in Hosiety, Trimmings,

Furnishing Goods.

Perfumery, Notions,

Stationery, Cutlery,

Tovs. &c.. &c.

in the control by those who have a knowledge of his will be all pleases of the service of the control of the co

consumptive patients now enjoying good health, weighing nearly 200 pounds. I will conclude, by relating three cures I have made in New York, and which are all different, and wish any one who feels any interest in the matter any one who see is any interest in the matter to visit them. First is Mrs. Farlow, residing then at No. 107 Houston street. Her husband called upon me at my rooms, 32 Bond street; and wished me to call and see her. He said I could do no good; that he had had all the best medical attendance, and all said she was. too far gone with Consumption & be cured; but she had heard or some great cures I had made, and he desired to gratify her wishes.—
I called, and found her lying confined to her bed in the last stage of brouchial consump-tion, and without doubt must have died soon, I examined her lungs, found both bronchial tubes very much affected, but no cavities had formed, her cough was very severe, the spit-box was half full of thick pus. Pulse 140, legs swollen wery much; and worse than all, she had chronic diarrhea. Her bowels had

fleshy. I can produce a number of my old

recognize both portraits to be true representated, bowels costive, no appetite, and fast sinktions. When the first was taken he weighed ing into the grave. The said tumor had been 107 pounds; at the present time his weight is running over fourteen years. I gave her 220 pounds. Syrup, Tonic and Pills, and told her to take them just as the directions were printed. She came back to my rooms, 32 Bond street, in two weeks, somewhat better; her tongue had begun to clean a little around the edges has skin whiter and her eyes brighter, and the tumor discharging very offensive matter, much faster than it had ever done before. She kept gradually improving, and in about two months she came to my rooms very much frightened, saying that the tumor had nearly stopped running, and was healing up, and that every doe-tor had told her that if it ever healed it would ause her death. I told her that the disease had all left her system, and nature would heal the ulcer up. They are now healed, and have been for about a year, and she is as hearty and robust a woman as you will find in a day's walk. She is glad for any one to call on her, and takes great pains to visit any one that she hears has anything like her case, and tries to get them to come and see me. The next case is Miss Scofield, from Stam-

ford, Conn. Mrs. Bartholomew got her down to see me, and she has been ever since at her house. When she first came to my rooms, she was much emaciated with a distressing cough, spitting large quantities of blood. I examined her lungs with the respirometer, and in all my practice never found one with one lung so far gone and the other lung so sound. I could not give much encouragement. I thought she would die; but to my astonishment the Pul-

make immediate payment, as we are desirous

and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicians do not cure consumption is they try to do too much; they give medicines to stop the cough, to stop chill, to stop night sweats, hectic fever, and, by so doing, they derange the whole digestive power, locking up the secretions and eventually the particular of the par
