FOR MILCH COWS.

The property this Powder possesses in in-

reasing the quantity of Milk in Cows, gives it an importance and value which should place it in the hands of every person keeping a Cow. By actual experiment it has proven that it will increase the quantity of Milk and Cream twenty per cent., and make the Butter firm and sweet. In lattening Cattle, it gives them an appetite, loosens their hide and makes them thrive much faster.

HOGS.

FOUTZ'S CELEBRATED Horse and Cattle Louders. These Powders will strength-en the Stomach and Intestines, rom offensive s bealthy state. sure preventive of Lung Fever, and a certain remedy for all Discuses incident to the Horse, such as Glan-

leaves the system to decay. The scrofulous contamination is vanecay. The scrottious contamination is variously caused by mercurial disease, low living, disordered digestion from unliealthy food, impure air, flith and flithy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parants to children units descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs at attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and be-come ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood you cannot have health; with that "life the flesh" healthy, you cannot have scrofulous disease.

eebled, vitiated state

hat fluid becomes in-

the vital forces in their

impetent to sustain

of the blood, wherein

Ayer's Sarsaparilla is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and sor of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to discase and its fatal results than are licality constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Saraparilla in alterative power. By its and you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remode attractions for the viral

liar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Narsaparilla, that promised much and did nothing; but they this. Its virtues have been proven by abonclant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more ef-fectual than any other which has ever been

AYER'S CHERRY PECTORAL, The World's Great Remedy for Coughs, Colds, Incipient Con-sumption, and for the relief of Consumptive patients in advanced stages

of the disease. This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

fleshy. I gan predess a una track any old consumptive patients now enjoying good health, weighing neafly 200 pounds. I will conclude by relating three cures I have made in New York, and which are all different, said wish any one who feels any interest in the matter to visit them. First is Mrs. Farlow, residing then at No. 107 Houston street. Her husband called upon me at my rooms, 32 Bond street, and wished me to call and see her. He seld and wished me to call and see her. He self! I could do no good; that he had had all the best medical attendance, and all said she was too far gone with Consumption to be cared; but she had heard or some great cures I had made, and he desired to gratify her wishes.—I called, and found her lying confined to her bed in the last stage of brouchial consumption, and without doubt must have died soon. I examined her lungs, found both broughtst tubes very much affected, but no eavities had formed, her cough was very severe, the spite box was half full of thick pus. Pulse 140, legs swollen very much; and worse than all, she had chronic diarrhoss. Her bowels had been moved eleven times that day. I told her that she had lungs enough to be cured, but that this diarrhoen had been of long standing, and her stomach was in such an ulcerated condition that I was atraid nothing could be dene. She insisted I should try and do what I could The above is a correct likeness of Dr. Schenck for her, observing that she could not last long taken many years ago, after he had recovered in the condition she was in, and I could not

fsons, in and around Philandelphia, who will some was low-spirited, sain sainow, on gue contracted by the free representations. When the first was taken he weighed ing into the grave. The said tumor had been 107 pounds; at the present time his weight is 200 pounds.

Syrup, Tonic and Pills, and told her to take them just as the directions were printed. She came back to my rooms, 32 Bond street, in two week', somewhat better; her tongue had be-gun to clean a little around the edges her

skin whiter and her eyes brighter, and the tumor discharging very offensive matter, much faster than it had ever done before. She kept gradually in proving, and in about two months she came to my rooms very much frightened, saying that the tumor had nearly stopped run-ning, and was healing up, and that every doc-tor had told her that If it ever healed it would cause her death. I told her that the disease had all left her eystem, and nature would head the ulcer up. They are now healed, and have been for about a year, and she is as kearty and robust a women as you will find in a day's alk. She is glad for any one to call on her, and takes great pains to visit any one that she hears has anything like her case, and tries to get them to come and see me.

The next case is Miss, Scoffeld, from Stam-ford, Conn. Mrs. Bartholomew got her down to see me, and she has been ever since at her house. When she first came to my rooms, she was much emacated with a distressing cough, spitting large quantities of blood. I examined her lungs with the respirometer, and in all my New York. Wednesday, March 39, '64.

TO THE PUBLIC.

Thirty years ago I was in the last stages of Pulmonary Consumption, and given up to die. I resided in Philadelphia, and DraJoseph Parrish, then of this city, ordered me to Morestown, N. J., a distance of unine miles, which took me two days to get there. On my service, we would she to my astonishment the Pultoni, N. J., a distance of unine miles, which took me two days to get there. On my service, and sometime, she surried and the content of the the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Aver's offer to the public under the name of br. Thornton, who attended my tather in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my tumlike to the remedies I now offer to the nublic, which cuted me. It seemed to me. Then I heard of the remedies I now oner to York: but the above three an uncertions of the public, which cuted me It seemed to me other; and if my medicines are doing what I that I could feel them penetrating my whole represent they are, they should have the credit

that inches these medicines, and who was the there's apport extended to us. Our cured of consumption by them. To make new lungs, is impossible; but cavities in the lungs and chronic ulcerations of the bronchial tibes can be healed. Such cases are dying bourly under the ordinary treatment of physicians, and instance are cured by the program of the lungs to settle our business without delay.

ALEXANDER COBEAN, Jan. 30, 1864. JOHN CULP.

under the ordinary treatment of physicians, and just such are cured by, the proper use of Schenck's Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills.

I am now a healthy man, with a large cavity in the middle lobe of the right lung, the lower lobe very touch hebatized and complete adhesion of the pleura. The left lung is spund, and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicians do not cure consumption is they try to do too much; they give mediately and successor—where Bargains may be had.

Feb. 8, 1864.
