YBARNING FOR PEACE. Yearning for peacel the nation tires Of squandered wealth and slaughtered men, Pines for her cherished sons and sires, And longs for light and love again. Through clouds and nights and pathless deeps · We keep in faith our onward way, Peering beyond theirugged steeps

To catch one beam of breaking day. Yearning for peace ! the tear that floats In many a sad, but patient eye, The dirge we sing in funeral notes; The aching head, the swelling sigh,

The weary hand, the house bereft, The shattered hopes, the heart strings riven The infants-trourning ornhans left-No light but God, no home but Heaven, Cry for a master band to guide

The ship of State where peace prevails, Where, anchored, she may safely ride. Nor dread again the hostile gales,

Tun peculiar taint or n which we call Schorula lurks in the constitutions of either produces or is produced by an en-feebled, vitiated state of the blood, wherein that fluid bedomes in-competent to sustain

leaves the system to decay. The scrofulous contamination is va-riously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, fith and filthy labits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and be-come ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla . & is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, indisputably proven by the great multitude of publicly known and remarkable cures it made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire. Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesse and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Allie's Aulument Allies and Allies an Almanac, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that there reader may have access to some one who can speak to him of its herefits from personal experience. Scretula depresses the vital energies, and thus leaves its victims far more subject to discorp and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is relequate to its cure. This we now offer to the public under the name of Avi a's SARSAPARILLA, although it is composed of ingredients, some of which exceed the last of Sarseparala in rio retive power. Py its aid-you may protect yourself troo the suffering and danger of these disorders. Purge out the foul corruptions that not and fester in the blood, purge out the causes of disease, and vigorous beaith will follow. By its peculiar virtues this remedy stinulates the vital functions, and thus a pols the distingers which lurk within the system or burst outon any part of it.

We know the public have been decrived

by many compounds of Sursaporilla, that by many compounds of Sursaporilla, that by omised much and did nothing; but they will neither be described nor diseppointed in this. Its virtues have been proven by abandance of the surface o dant trial, and there remains no question of its urbussing excellence for the cure of the affliction diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been Before the people, and is far more ef-fectual than eny other which has ever been

I. ELIZABETH BRANSON, of Brandywine, Del., formerly of Old Chester, Del., do certify that, for one year and a half I suffered everything but death from that awful disease called Dys-pepsia. My whole system was prostrated with weakness and nervous debility; I could not digest my food; if I ate even a cracker or the smallest amount of food, it would return just as I swallowed it; I became so costive in my bowels that I would not have a passage in less than from four and often eight days; under this immense suffering, my mind seemed entirely to give way. I had dreadful horror and evil forehodings. I thought everybody hated me, and I hated everybody it could not bear my husband nor my own children, everything appeared to be horror stricken to me; I had no ambition to de anything a local burst bear no ambition to do anything; I lost all my love or family and home; I would ramble and wander from place to place, hut could not be contented; I felt that I was doomed to hell, and that there was no heaven for me, and was often tempted to commit suicide, so near was my whole nervous system destroyed, and also my mind, from that awful complaint, Dyspel sia, that my friends thought best to have me placed in Dr. Kirkbride's Hospital, West Philadelphia; I remained there nine weeks, and thought I was a little better, but in a few days. my dreadful complaint was raging as bad as ever. Hearing 30f the wonderful cures perstormed by Dr. Wishart's Great American Dysnensia Pills and his treatment for Dyspepsis, my husband-called on Dr. Wishart and stated my case to him. He said he had no doubt he would care no. SWEET POTATORS—best quality, at low-distressing complaint, Dyspepsia. I had been grievously afflicted for the last twenty-eight yours, and for ten years of that time have not been free from its pain one week at a time. I have had it in its worst form and have dragged on a most miserable existence—in pain day and night. Every kind of food that I are filled me with wind and pain, it mattered not how light, or how small the quantity. A continued belching was sure to follow. I had no appetite for any kinds of meats whatever, and my distress was so great for several months before theard of your Pills, that I frequently wished for death. I had taken everything that I heard of for Dyspepsia, without receiving any benefit; but on your Pills being recommended to me by one who had been cared by them, I concluded to give them a trial, although I had no faith in them. To my astonishment, I found myself getting better before I had taken one-fourth of a box, and, after taking half a box, I am a well man, and can eat anything I wish, and enjoy a hearty meal three times a day, and enjoy a nearly ment three times a day, without inconvenience from anything I eat or drink.
