MONDAY MORNING, APRIL 10, 1865.

NOW FOR PEACE.

The fall of the capital of the Southern Confederacy renders this, of all others, the time for those in power to act as statesmen and patriots.

WHO OPPOSE PEACE?

There are two classes of men who stand in the way of peace—and both have influence with President Lincoln.

But there is another very large and influential class: those who are making money out of the war, either directly or indirectly.

The fanatic who constitute the first class precipitated the war upon the country; both classes desire its continuance.

It is an outrage upon the white Union veterans, who did all the hard fighting in front of Petersburg, and completed the occupation of that place and the abandonment of Richmond by the rebels.

The great collapse of 1857 was caused by an inflated currency, which at that time amounted to two hundred and fifteen millions.

The jolly Senators and sacred citizens who went down to Savannah, Charleston, Fort Monroe, and all around, in the United States steamer Fulton.

The Louisville Democrat says: The Cincinnati Gazette breaks out in wrath against Andy Johnson, and demands that he resign.

THE GREAT COST OF TRAVELLING.

It seems that travelling has become a very costly business, times especially for members of Congress, who are invariably provided with free railroad passes.

The immaculate Jim Lane lives at Lawrence, Kansas—if he can be said to live anywhere. He comes to Washington by the nearest traveled route.

Senator Pomeroy, of Kansas, lives at Atchison, about fifty miles nearer Washington than Jim Lane.

These are some of the facts gathered from the record by the correspondent alluded to. He called at the proper office for more, but was told that they were constrained to regard the accounts of the Senators with the Government, left in the hands of officers of the Senate.

It appears from the statement made to the Senate on the 6th of February, by Hanson A. Risby, agent to purchase products of insurrectionary States.

The French Courier des Etats Unis, in reviewing Mr. Lincoln's inaugural, thinks we are living in a queer world.

The following evening after the arrival of the Presidential party at General Grant's headquarters, a ball was tendered them on board the General's private boat.

The Peace Negotiations—Probably Extra Session of Congress—A special dispatch from Washington to the New York World says: "It is stated by an official, who should be well informed, that peace negotiations have been going on for some time."

Reports from nearly all parts of the country concur in showing that the prospect for a heavy yield of winter wheat has seldom looked more favorable than at the present time.

Zenus Barnum, Esq., a native of Pennsylvania, for many years a citizen of Baltimore, died in that city on Wednesday morning, aged 55 years.

The Buffalo Express learns that the First National Bank of Ataca, Wyoming county, N. Y., closed its doors last week.

A poor boy not yet sixteen, was shot to death last week, in the Army of the Potomac, for desertion.

The Democrats have carried Nashville and the radicals St. Louis.

TERRIBLE CALAMITY.

Burning of a U. S. Transport—Over Five Hundred Lives Lost.—The United States transport Gen. Lyon, with nearly 600 souls on board, was burned off Cape Hatteras, on the 31st ult.

There were on board the steamer General Lyon, besides the officers and crew, two hundred and four men and eleven officers of the 56th Illinois regiment.

The fire broke out at about ten o'clock on Friday morning from a light coming in contact with a barrel of kerosene in the porter's room.

So anxious are the people of Charleston, South Carolina—the "hot-bed of treason"—to return to the Union that one provost marshal's office has been insufficient to accommodate them with the oath of allegiance.

The Sandy Hill, N. Y., Herald has the following, showing how partisans of the Administration are allowed to swindle the Government with impunity:

"Something like a year ago, a man formerly a resident of this county, was arrested and charged with having swindled the government out of \$200,000.

Before Mr. Hale left the Senate, in a set speech, in opposition to the policy of the Administration, and the yelping curs who are crying out for the suppression of the reserved rights of the States, in reply to Mr. Sumner, he used these words, which should be printed in every paper:

Great Victory.

RICHMOND HAS FALLEN!

PETERSBURG EVACUATED!

15,000 Prisoners and 64 Guns Captured!

General Grant has gradually closed his lines around Petersburg. The Confederates, north of Petersburg, and all those east and west of Petersburg.

The fire broke out at about ten o'clock on Friday morning from a light coming in contact with a barrel of kerosene in the porter's room.

John & County.

APRIL SETTLEMENTS.

Whilist our patrons, in town and country, are making their April payments, we hope they will not forget the printer.

REMOVALS.—Mr. John Cannon has removed his Marble Yard nearer the Diamond on Baltimore street, where he has fitted up a neat establishment, giving him excellent facilities for displaying his work, which is always very fine.

Mr. John L. Holtworth has removed to the southeast corner of the Diamond, (late Kallbeisch's) where he is prepared to sell Boots, Shoes, Hats, Caps, &c., as cheap as ever, if not a little cheaper.

The firm of Shields & Buehler has been dissolved by mutual consent—Mr. Shields retiring, and Col. Buehler continuing the business.

The Capt. Norris' Company.—The company recruited principally in this county by Capt. Theodore C. Norris and Lieut. Samuel Young, we are informed, is now full, and has been assigned to the 101st Regiment, P. V., now stationed at Roanoke Island.

COMMUTATION MEN.—Nearly every decision under the enrollment laws, made by that illustrious individual who presides over the drafting machinery of the country, Gen. James B. Fry, has been an error which required correction afterwards.

In preparing for the draft now in progress, under instructions from Washington, District Provost Marshals were required to place in the wheel the names of those who were drafted and paid commutation in 1864.

Lee Surrendered! MONDAY MORNING. A dispatch has just been received from Baltimore, stating that Lee surrendered to Grant yesterday.

How the Money Goes.—The Legislature of our State has passed a bill to increase the pay of members to \$1,000 each, being an advance of \$300 on the pay of last year.

The Cincinnati Gazette says: "The patriot in this war is the private soldier; the man who endures all the hardships and faces all the dangers of the war, with no share in its rewards, and but an undivided portion in its glories, which bring no personal honors.

A fat contract has been awarded to a man in New Mexico to supply the Indians on the reservation with corn at the rate of three cents per pound, which is \$12,800 per bushel.

SIMPLE REMEDIES.

A correspondent of the Boston Journal communicates the following: Burns.—Dip the affected part in cold water, then into common wheat flour, and so on alternately.

Mad Dog Bite.—A correspondent of one of our exchanges writes as follows: Spirits of hartsorn is a certain remedy for the bite of a mad dog.

NEW COUNTERFEITS.—Twenty-six new counterfeiters have been put into circulation since the first of March.

Western Bank, Philadelphia, Pa. 10s, imitation—upper left, head of deer, river, trees, &c.

Manufacturers' and Mechanical Bank, Philadelphia, Pa. 10s, altered from 1s-7y, State arms of Pennsylvania; female with scales on right; child's head on left. This is well done.

The Hanover Spectator says: Mrs. Catherine Miller, widow of Philip Miller, left her place of residence in East Berlin, last fall, on a visit to her friends in Ludianapolis, Ind.

CLEAN UP.—This is the season to clean up. Clean up the streets, lanes and alleys, remove all the rubbish and deposit it in some out of the way place.

The Carleize Democrat says that the news of the fall of Richmond produced the wildest state of enthusiasm there, on Monday—business was suspended, the bells were rung, &c.

Both branches of the Pennsylvania Legislature have passed an act declaring that if any employee of a railroad company shall violate any rule of such company, and injury or loss of life shall thereby result, the offender shall be immediately arrested by the prosecuting attorney of the city or county where the accident happens.

PREPARED GLE.—Instead of melting glass in water put it in a bottle with common whisky, cork it, and set it away for three or four days, when it will be fit for use without the application of heat.

WRITE—WASHINGTON HINT.—Some of the Abolition journals are publishing Andrew Johnson's revised and corrected speech, which has at length made its appearance in the Congressional Globe.

DEMOCRATIC QUESTION.—What if Lincoln should die and leave the Government in the hands of Andy Johnson? Would the Government ever get drunk?

- ROANOKE ISLAND, N. C., March 30, 1865. H. J. STABLE, Esq.—The following is a list of the officers and men of Company, (not lettered), 103d Regt. P. V., commanded by Col. Lehman, and stationed at Roanoke Island, N. C.
