The first battle of causes since for war have been as noble and oreater for than those that urged our fathers on der and admiration of the world) as a noble band of patriotic heroes. Hereafter, reading of their deeds, Thermopylæ will be forgotten.

But what was a crime in poor John and discharge their respective duties in the Brown is now considered (by themselves) says the driver, "don't know as I ever heard same manner as before the deplorable as the greatest and only virtue of the whole event that had changed the head of the Republican party. Republican party. Strange transmigration.

Vice to become a virtue, simply because more indulge in it. I thought then, as now, that the Aboli-

tionists were the only traitors in the land, and that the entire party deserved the same fate as poor old Brown, not because they wished to abolish slavery, but on account Philip Anthony, of Franklin county, Ind., is married to five wives, three of whom live in his county. Philip should have em. act slavery against the Union. Most, or many, in the North do, and openly curse the Union, if the South are to return and retain a single right guaranteed to them by every tie which we once revered as sacred. The South can make no choice. It is either extermination or slavery for themselves (worse than death) to draw from. I know I have also studied hard to discover upon

That grounds the right of a State to seconds has been debied, when our very name, United States, and the Declaration of Inde-pendence both provide for secession. But there is no time for words. I write in haste. I know how foolish I shall be deemed for undertaking such a step as this, where, on the one side. I have many friends and everything to make me happy, where my profession alone has gained me an in-come of more than twenty thousand dollars a year, and where my great personal ambi-tion in my profession has such a great field for labor. On the other hand, the South have never bestowed upon me one kind word; a place now where I have no friends except beneath the sod; a place where I must either become a private soldier or a beggar. To give up all of the former for the beggar. To give up all of the former for the latter, besides my mather and sisters, whom I love so dearly (although they so widely differ with ane in opinion) seems insane; but God is my judge. I love justice more than I do a country that discount it; more than fame and wealth; more (Heaven perdon me if wrong) more than a happy home. I have never been upon a battle-field; but O, my countrymen, could you all but see the reality or effects of this horrid war, as I have seen them in seem State (wave Virginia).

have seen them in seery State (ave Virginia). I know you would think like me, and would I know you would think like me, and would pray the Almighty to create in the Northern mind a sense of right and justice (even should it possess no seasoning of mercy), and that He would dry up this sea of blood between us, which is daily growing wider. Alss! poor country, is she to meet her threatened doom? Four yearsago, I would have given a thousand lives to see her rehave given a thousand lives to see her re-main (as I had always known her) powerful and unbroken. And even now I would hold my life as naught, to see her what she was. O my friends, if the fearful scenes of the past four years had never been enacted, or if what has been had been but a frightful dream, from which we could now awake, with what overflowing hearts could we bless our God and pray for his continued favor. How I have loved the old Aug can never now Clarke, who is a brother-in-law of Mr. oth. The history connected with it is newhat peculiar. In November, 1804, e paper was deposited with Mr. Clarke Booth, in a sealed envelope, "for safe eping," Mr. Clark being ignorant of its think how changed she has grown. O think how changed she has grown. O thents. In January last Booth called at keeping." Mr. Clark being ignorant of its contents. In January last Rooth called at Mr. Clarke's house, asked for the package, and it was given up to him. It is now supposed that at that time he took out the paper and added to it his signature, which appears to be in different ink from that used in the body of the letter, and also from the language employed could not have been put to it originally. Afterward he'returned the package to Mr. Clarke again for safe keeping, sealed and bearing the superse scription "J. Wilkes Booth."

The inclosure was preserved by the family without suspicion of its nature. After the afflicting information of the assassination of the President, which came upon the family of Mr. Clarke with crushing force, it was considered proper to open the envelope. There were found in it the following paper, with some seven thirty United States bonds, and certificates of shares in oil comgoad an enemy to madness. Should I reach her in safety and find it true, I will proudly beg permission to triumph or die in that same "ditch" by her side.

NEWS FROM BICHMOND. THE ASSASSINATION OF PRESIDENT LINCOLN.

The Whig, after expressing its detestation of the murder of the President, adds: The people of the South will turn with loathing and horror from this act of murder. Nothing in the Southern character is in sympathy with such a deed. The most relentless and inexorable passion ever charged against a Southern duelist never led to acts of cowardly, stealthy murder .-In all the fearful scenes of the war, now passing away, when the most envenomed hatreds have been roused, no secret assassinations, no poisonings, no unfair and cru-el assaults on the lives of cnemies, have

been practiced.

What shall be the proximate and remote results of this horrible tragedy, we will not now attempt to divine. But we feel assured that the sentiments of Southern men will
