GENERAL JACKSON'S MOTTO.

"Think before you act, but when the time for action comes, stop thinking."
This is the true doctrine. Many men fail in life and go down to the grave with hopes blasted and prospects of happiness unrealized, because they did not adopt and act upon this motto. Nothing so prepares a man for action as thought; but nothing so unfits a man for action. Better by far adopt some course and pur-ue it energeti-cally, even though it may not be the best, becomes a part of his nature, until he can Think before you act: but when the time for action comes, stop thinking."

For four years the unscrupulous, substituted press of the Abolition party, and more particularly that portion of it controlled by penegade Democrats, has maintained itself by fighing a mythical enemy which it was pleased to call "copperheadism." This gorgon had as many heads as the fabled hy-

dra, and so protean in its character that no two of them could exactly agree as to its main features. Everything not in accordance with the universal negro freedom dogma and the wholesale plundering of the Government by radical office holders and conractors, whether it was the tenets of Vallandigham, the war platform of Gen. Mo-Ciellan, the terms allowed by Grant to Lea, or the peace arrangement of Gen. Sherman, has, in the opinion of the "only truly loyal has, in the opinion of the "only truly layar and good," been "rank, festering treason"—"copperheadism," &c. If it had not been for this bugbear, which was termed "the foe in the rear," it is hard to tell what a large number of scribbling editors, office holders, bar-room politicians and galvanized preachers would have done to exhibit their patriotic zoal and—keep out of the army.
Although it is stated by these gentry that
the Democratic party has for four years
opposed and embarrassed the Government, we fail to see wherein, unless it be that our party has furnished those self-styled loyalists with a pretext to remain at home, when their valuable services could have been made available in the army—if not as soldiers, at least as entrenchers and general schillons. In no other way has the Damo-cratic party "opposed the Government."

Its members are to be found in every regi-ment and division of all the armies of the Government throughout the entire war, and the taxes to carry on the strife have been borne as equally and willingly as the Aboli-

tion party has borne its share.

The cry of "opposing" and "embarrassing" the Government was only raised of those of the Abolition party who staid at home—who had determined from the start to stay at home-and who couldn't have been thrashed into incasing their procious, anyhow,) hered to concern their peculating raids upon the Public Treasury, and that cry sufficed for their purpose.—
The Administration at Washington had probably neither time nor opportunity to watch that class of "loyal" parasites, who had attached themselves to the Government of the covernment of ment, and it was only through the ever watchful Democratic party that their plun-derings were brought to light. Had it not been for the check afforded by the Democracy, upon the radical cormorants, it is im-possible to tell where the stealings rould have ended. Ere this, no doubt, the Gov-ernment would have been in hopeless bankruptcy, through the rascality of its barna-cles alone. The records of the hundreds of courts martial that have already been held show conclusively that those who were loudest in their cries of "traitor," "copperheadism," "treason-sympathising," &c., against the Democratic party, HAVE BOEN THE LARGEST PLUNDERERS AND

HE GREATEST SCOUNDRELS. But if, during the past four years, there had been any truth in the false charge made against the Democratic party of opposing and embarrassing the Government in carrying on the war, that charge will not now hold good, when the war is practically ended. And yet the cry of the radical leeches is just as loud, if not louder than ever. Democrata are not, even now, to be allowed to say a

disloyalty and opposing the Government be put to trial on these charges, and then let an equal number of the "truly loyal" be selected by the Democracy and put upon their trial, in the same manner, on the charges of bearing false witness and speculating on the necessities of the Government. Will the "truly loyal" consent to this for and honorable way of adjustment, and of reinstating the long disused laws and courts? We know, however, that they will not. They fear to be brought to the touchstore. So long as they are free to propa-gate their slanders of the Democratic party and its leaders, with no fear of being held to any accountability, so long will they fight against the supremacy of law, and, with the grossest of fulsehoods, appeal alone to the ignorance and prejudice of the mob to screen themselves. But, for all this, their course of criminal conduct must have an end finally, and -a settlement with the PROPLE whom they have defrauded .- Patri-

ot & Union. Now that the war is over, and the arkey has been taught to believe that he is the neer of the white man, we presume the next question to be decided by the peo-ple will be that of negro suffrage. The proposition that a negro has a right to vote. in the negative. It is well that we should keep our eyes open to the approach of this question. It is one of great magnitude, and it is stealing upon us, slow, but sure as fate. We warn the Demogracy to be on the look out for it, and to deal it a death-blow in its incipiency.

John Cessna .- The Abolitionists of Bedford county have chosen the fidgety little renegade, John Cessna, to represent them in the next Abolition State Convention.— Of codrse he will be after cutting a figure in his new position, among his new politi-cal associates. He has no modesty, and the record at least a dozen times. We can imagine the peculiarly southing effect his cracked and "screechy" voice will have on the ears of the Convention. Such members as are wise will take a roll of cotton large enough to stop both sers.—Lancaster Intelligencer.
