water, will stop the cracks of the stove and the smoke from escaping. Green should be the prevailing color for

ped bangings and window drapery.

WORTH KNOWING AND REMEMBERING. -How to act when the clothes take fire is an Important piece of information. The Scientific American says, three persons out of four would ing er, brought to Gettyeburg, embracing rush right up to the burning individual, and all begin to paw with their shands without any definite aim. It is useless to tell the victim to do this or that, or call for water. In fact, it cotton Vests, Dress and Business Pants, of canarally heat to not say a word, but seize a blanket from a bed, or a cloak, or any woolen fabric—if none is at hand, take any woolen material—hold the corners as far apart as you can, stretch them out higher than your head, can, stretch them out higher than your head, and, running bold'y to the person, make a motion of clasping in the arms, most about the shoulders. This instantly emothers the fire, and saves the face. The next instant throw the unfortunate person on the floor. This is an additional safety to the face and breath, and any remnant of flame can be put out more leisurely. The next instant immerse the burnt leisurely. The next instant immerse the burnt part in cold water, and all pain will cease with the rapidity of lightning. Next get some common flour, remove from the water, and cover the burn, parts with an inch thickness of flour if possible; put the patient to bed, and do all that is possible to soothe until the physician

The

that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and The scrofulous contamination is vadecay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impressing vices, and, above all, by the venereal infection. Whatever be its origin, it is heredutary in the constitution, descending "from parents to children unto descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification find invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh"

healthy, you cannot have scrofulous disease. Ayer's Sarsaparilla is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual Cases may be found in Ayen's American Almanac, which is furnished to the druggists for gratuitons distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies, had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results. than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S oner to the public duder with man of ATLAN SARBARARILLA, although it is composed of ingredients, some of which exceed the best of Sarasparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it. We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they

different medicine from any other which has been before the people, and is far more ef-fectual than any other which has ever been AYER'S CHERRY PECTORAL, The World's Great Remedy for Coughs, Colds.

will neither be deceived nor disappointed in this. Its virtues have been proven by abun-

dant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach.

Although under the same name, it is a very

sumption, and for the relief of Consumptive patients in advanced stages of the disease. This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it

pusy be relied on to do all it has ever done.
